

**STATE OF NEW MEXICO
ENERGY, MINERALS AND NATURAL RESOURCES DEPARTMENT
OIL CONSERVATION DIVISION**

**IN THE MATTER OF THE HEARING
CALLED BY THE OIL CONSERVATION
DIVISION TO CONSIDER:**

**CASE NO. 16141
ORDER NO. R-20030**

**APPLICATION OF KAISER-FRANCIS OIL COMPANY FOR A NON-
STANDARD GAS SPACING AND PRORATION UNIT AND COMPULSORY
POOLING, EDDY COUNTY, NEW MEXICO.**

ORDER OF THE DIVISION

BY THE DIVISION:

This case came on for hearing at 8:15 a.m. May 17, 2018 and again on August 9, 2018 at Santa Fe, New Mexico before Examiner Scott A. Dawson.

NOW, on this 11th day of October 2018, the Division Director, having considered the testimony, the record and the recommendations of the Examiner,

FINDS THAT:

- (1) Due public notice has been given, and the Division has jurisdiction of this case and of the subject matter.
- (2) Cases No. 16137, 16138, 16139, 16140, and 16141 were consolidated at the hearing for testimony; however, separate orders will be issued for each case.
- (3) Kaiser-Francis Oil Company ("Kaiser-Francis" or "Applicant"), seeks approval of a non-standard 320-acre gas spacing unit and project area ("the Unit") in the Wolfcamp formation, Purple Sage; Wolfcamp Gas Pool (Pool Code 98220) underlying the SE/4 of Section 20 and the SW/4 of Section 21, all in Township 23 South, Range 28 East, NMPM, Eddy County, New Mexico. Applicant further seeks an order pooling all uncommitted interests within the Unit.
- (4) The Unit will be dedicated to the following "proposed wells" all completed at standard well locations:

Loving Townsite 2021 WA Well No. 1H, API No. 30-015-45003

SHL: 1148 feet from the South line and 2499 feet from the East line,
Unit O of Section 20, Township 23 South, Range 28 East, NMPM.

BHL: 1980 feet from the South line and 2310 feet from the West line
Unit K of Section 20, Township 23 South, Range 28 East, NMPM.

Loving Townsite 2021 WA Well No. 2H, API No. 30-015-45004

SHL: 948 feet from the South line and 2499 feet from the East line,
Unit O of Section 20, Township 23 South, Range 28 East, NMPM.

BHL: 660 feet from the South line and 2310 feet from the West line
Unit N of Section 20, Township 23 South, Range 28 East, NMPM.

Loving Townsite 2021 WC Well No. 1H, API No. 30-015-45005

SHL: 1188 feet from the South line and 2499 feet from the East line,
Unit O of Section 20, Township 23 South, Range 28 East, NMPM.

BHL: 2310 feet from the South line and 2310 feet from the West line
Unit K of Section 20, Township 23 South, Range 28 East, NMPM.

Loving Townsite 2021 WC Well No. 2H, API No. 30-015-45006

SHL: 908 feet from the South line and 2499 feet from the East line,
Unit O of Section 20, Township 23 South, Range 28 East, NMPM.

BHL: 330 feet from the South line and 2310 feet from the West line
Unit N of Section 20, Township 23 South, Range 28 East, NMPM.

(5) The proposed wells will be drilled horizontally and completed in the Wolfcamp formation [Purple Sage; Wolfcamp Gas Pool]. Said pool is subject to Special Rules promulgated in Order No. R-14262 issued in Case No. 15535 which allow 330-foot setbacks within a standard 320-acre, deep gas spacing unit. The proposed Unit will comprise two adjacent quarter sections in two separate Sections, oriented west to east.

(6) Matador Resources Company entered an appearance and was represented at the hearings. No other party appeared or otherwise opposed the granting of this application.

(7) Applicant appeared at the hearing through counsel and presented evidence to the effect that:

- (a) The Wolfcamp in this area is suitable for development by horizontal drilling.
- (b) The proposed orientation of the horizontal wells is appropriate for the Unit.
- (c) All quarter sections to be included in the Unit are expected to be productive in the Wolfcamp formation.
- (d) The proposed Unit is non-standard because it includes portions (quarter sections) of two separate Sections.

- (e) For the non-standard spacing unit approval, Applicant notified the operators of wells in the same pool in the quarter-sections being excluded from the Unit within both Section 20 and Section 21.
- (f) Notice by certified mail was provided to all uncommitted interest owners in the proposed Unit whose interests were evidenced by a conveyance instrument, either of record or known to Applicant when the Application was filed, and to heirs known to Applicant of deceased persons who appear as owners in such instruments.
- (g) Those potentially affected parties whose whereabouts could not be ascertained were noticed by publication as provided in Rule 19.15.4.12.B NMAC.

The Division concludes that:

(8) The non-standard unit should be approved to enable Applicant to drill horizontal wells that will efficiently produce the reserves underlying the Unit, thereby preventing waste, and protecting correlative rights.

(9) Two or more separately owned tracts are embraced within the Unit, and/or there are royalty interests and/or undivided interests in oil and gas minerals in one or more tracts included in the Unit that are separately owned.

(10) Applicant is an owner of an oil and gas working interest within the Unit. Applicant has the right to drill and proposes to drill the proposed wells to a common source of supply within the Unit at the proposed locations.

(11) There are interest owners in the Unit that have not agreed to pool their interests.

(12) To avoid the drilling of unnecessary wells, protect correlative rights, prevent waste and afford to the owner of each interest in the Unit the opportunity to recover or receive without unnecessary expense its just and fair share of hydrocarbons, this application should be approved by pooling all uncommitted interests, whatever they may be, in the oil and gas in the Wolfcamp formation within the Unit.

(13) Kaiser-Francis Oil Company should be designated the operator of the proposed wells and of the Unit.

(14) Infill wells within the Unit should be subject to Division Rules 19.15.13.9 NMAC through 19.15.13.10 NMAC and to the terms and conditions of this order.

(15) Any pooled working interest owner who does not pay its share of estimated well costs for any well in advance should have withheld from production its share of reasonable well costs of such well plus an additional 200% thereof as a reasonable charge

for the risk involved in drilling the well.

(16) Reasonable charges for supervision (combined fixed rates) should be fixed at \$8,000 per month, per well, while drilling and \$800 per month, per well, while producing, provided that these rates should be adjusted annually pursuant to the COPAS form titled "Accounting Procedure-Joint Operations."

IT IS THEREFORE ORDERED THAT:

(1) A 320-acre (more or less) non-standard gas spacing unit and project area ("the Unit") is hereby established for oil and gas production from the Wolfcamp formation, Purple Sage; Wolfcamp Gas (Pool Code 98220) underlying the SE/4 of Section 20 and the SW/4 of Section 21, all in Township 23 South, Range 28 East, NMPM, in Eddy County, New Mexico.

(2) Pursuant to the application of Kaiser-Francis Oil Company, all uncommitted interests whatever they may be, in the oil and gas in the Wolfcamp formation underlying the Unit are hereby pooled.

(3) The Unit shall be dedicated to the following "proposed wells" all completed at standard well locations:

Loving Townsite 2021 WA Well No. 1H, API No. 30-015-45003

SHL: 1148 feet from the South line and 2499 feet from the East line,
Unit O of Section 20, Township 23 South, Range 28 East, NMPM.

BHL: 1980 feet from the South line and 2310 feet from the West line
Unit K of Section 20, Township 23 South, Range 28 East, NMPM.

Loving Townsite 2021 WA Well No. 2H, API No. 30-015-45004

SHL: 948 feet from the South line and 2499 feet from the East line,
Unit O of Section 20, Township 23 South, Range 28 East, NMPM.

BHL: 660 feet from the South line and 2310 feet from the West line
Unit N of Section 20, Township 23 South, Range 28 East, NMPM.

Loving Townsite 2021 WC Well No. 1H, API No. 30-015-45005

SHL: 1188 feet from the South line and 2499 feet from the East line,
Unit O of Section 20, Township 23 South, Range 28 East, NMPM.

BHL: 2310 feet from the South line and 2310 feet from the West line
Unit K of Section 20, Township 23 South, Range 28 East, NMPM.

Loving Townsite 2021 WC Well No. 2H, API No. 30-015-45006

SHL: 908 feet from the South line and 2499 feet from the East line,
Unit O of Section 20, Township 23 South, Range 28 East, NMPM.

BHL: 330 feet from the South line and 2310 feet from the West line
Unit N of Section 20, Township 23 South, Range 28 East, NMPM.

(4) The operator of the Unit shall commence drilling the proposed wells on or before October 31, 2019 and shall thereafter continue drilling the wells with due diligence to test the Wolfcamp formation.

(5) In the event the operator does not commence drilling at least one of the proposed wells on or before October 31, 2019, Ordering Paragraphs (1) and (2) shall be of no effect, unless the operator obtains a time extension from the Division Director for good cause demonstrated by satisfactory evidence.

(6) If at least one of the proposed wells is not drilled and completed within 120 days after commencement of drilling, then Ordering Paragraphs (1) and (2) shall be of no further effect, and the Unit shall terminate unless operator requests in writing an extension of the time for completion of the proposed wells for good cause shown by satisfactory evidence and the Division issues written approval.

(7) Upon final plugging and abandonment of the proposed wells and any other well drilled on the Unit pursuant to Division Rule 19.15.13.9 NMAC, the pooled unit created by this order shall terminate unless this order has been amended to authorize further operations.

(8) Infill wells within the Unit shall be subject to the terms and conditions of this order.

(9) Kaiser-Francis Oil Company (OGRID 12361) is hereby designated the operator of the wells and of the Unit.

(10) After pooling, uncommitted working interest owners are referred to as pooled working interest owners. ("Pooled working interest owners" are owners of working interests in the Unit, including unleased mineral interests, who are not parties to an operating agreement governing the Unit.) After the effective date of this order, the operator shall furnish the Division and each known pooled working interest owner in the Unit separate itemized schedules of estimated costs of drilling, completing and equipping the proposed wells ("well costs").

(11) Within 30 days from the date the schedule of estimated well costs for any well is furnished, any pooled working interest owner shall have the right to pay its share of estimated well costs to the operator in lieu of paying its share of reasonable well costs out of production as hereinafter provided, and any such owner who pays its share of estimated well costs as provided above for any well shall remain liable for operating costs but shall not be liable for risk charges to the extent computed based on costs of such well. Pooled working interest owners who elect not to pay their share of estimated well costs as provided in this paragraph for shall thereafter be referred to as "non-consenting working interest owners."

(12) The operator shall furnish the Division and each known pooled working interest owner (including non-consenting working interest owners) an itemized schedule

of actual well costs of each well within 90 days following completion of the proposed well. If no objection to the actual well costs for any well is received by the Division, and the Division has not objected, within 45 days following receipt of the schedule for such well, the actual well costs shall be deemed to be the reasonable well costs. If there is an objection to actual well costs within the 45-day period, the Division will determine reasonable well costs for such well after public notice and hearing.

(13) Within 60 days following determination of reasonable well costs for any well, any pooled working interest owner who has paid its share of estimated costs of such well in advance as provided above shall pay to the operator its share of the amount that reasonable well costs exceed estimated well costs and shall receive from the operator the amount, if any, that the estimated well costs it has paid for such well exceed its share of reasonable well costs.

(14) The operator is hereby authorized to withhold the following costs and charges from each non-consenting working interest owner's share of production from each well:

- (a) the proportionate share of reasonable well costs attributable to each non-consenting working interest owner; and
- (b) as a charge for the risk involved in drilling the well, 200% of the above costs.

(15) The operator shall distribute the costs and charges withheld from production, proportionately, to the parties who advanced the well costs for such well.

(16) Reasonable charges for supervision (combined fixed rates) are hereby fixed at \$8,000 per month, per well, while drilling and \$800 per month, per well, while producing, provided that these rates shall be adjusted annually pursuant to the COPAS form titled "Accounting Procedure-Joint Operations." The operator is authorized to withhold from production from each well the proportionate share of both the supervision charges and the actual expenditures required for operating of such well, not more than what are reasonable, attributable to pooled working interest owners.

(17) Except as provided in the foregoing paragraphs, all proceeds from production from the well that are not disbursed for any reason shall be held for the account of the person or persons entitled thereto pursuant to the Oil and Gas Proceeds Payment Act (NMSA 1978 Sections 70-10-1 through 70-10-6, as amended). If not disbursed, such proceeds shall be turned over to the appropriate authority as and when required by the Uniform Unclaimed Property Act (NMSA 1978 Sections 7-8A-1 through 70-8A-31, as amended).

(18) Any unleased mineral interest shall be considered a seven-eighths (7/8) working interest and a one-eighth (1/8) royalty interest for allocating costs and charges

under this order. Any costs that are to be paid out of production shall be withheld only from the working interests' share of production, and no costs or charges shall be withheld from production attributable to royalty interests.

(19) Should all the parties to this compulsory pooling order reach voluntary agreement after entry of this order, this order shall thereafter be of no further effect.

(20) The operator of the wells and Unit shall notify the Division in writing of the subsequent voluntary agreement of any party subject to the compulsory pooling provisions of this order.

(21) Jurisdiction of this case is retained for the entry of such further orders as the Division may deem necessary.

DONE at Santa Fe, New Mexico, on the day and year hereinabove designated.
