What about the entire Bone Spring interval, not just the 2nd and 3rd?

I am still not clear about overrides throughout the horizontal spacing unit.
Were they all notified?
Were there no overrides at all?

Mike

Subject: [EXT] Case No. 20085: Devon/Chiles well - supplemental materials

Examiner McMillan,

Please find attached the following supplemental materials, to be filed today in Case No. 20085, per your request:

1. Devon Exhibit 5 – a visual breakdown showing WI ownership throughout Sections 21 and 28, including ownership in the existing 2BS wellbore. Please let us know if you need anything more from Devon in this regard.
2. Devon Exhibit 6 – Amended Affidavit of Geologist Kenton Shaw, showing the ssTVD of wells in the vicinity, and showing the specific locations of the wells shown in Mr. Shaw's A-A' cross-section. This affidavit is intended to replace Devon's previously-submitted Exhibit 2.
3. Devon Exhibit 7 – Amended Affidavit of Engineer Sheldon Moos, substituting the word "barrier" for the word "baffle." This change was suggested by the Examiner, but was also of course found by Mr. Moos to hold true on the geologic evidence. This affidavit is intended to replace Devon's previously-submitted Exhibit 3.

Please let me know if you need anything else in order to take this case under advisement.

Thanks,
Seth
