CASE No. 16382

READ & STEVENS, INC.

**APPLICATION FOR A HORIZONTAL SPACING UNIT
AND PRORATION UNIT AND COMPULSORY POOLING,
LEA COUNTY, NEW MEXICO.**

**STATE OF NEW MEXICO
DEPARTMENT OF ENERGY, MINERALS AND NATURAL RESOURCES
OIL CONSERVATION DIVISION**

**APPLICATION OF READ &
STEVENS, INC. FOR A
HORIZONTAL SPACING AND
PRORATION UNIT AND
COMPULSORY POOLING,
EDDY COUNTY, NEW MEXICO.**

CASE NO. _____

APPLICATION

Read & Stevens, Inc. ("Read & Stevens"), OGRID Number 18917, through its undersigned attorneys, hereby makes an application to the Oil Conservation Division pursuant to the provisions of NMSA (1978), Section 70-2-17, for an order: (1) creating a 320-acre, more or less, horizontal spacing unit and proration unit covering the W/2E/2 of Section 3, Township 20 South, Range 34 East, NMPM, Lea County, New Mexico; and, (2) pooling all mineral interests in the Bone Spring formation underlying this spacing and proration unit. In support of this application, Read & Stevens states as follows:

1. Read & Stevens is an interest owner in the subject lands and has a right to drill a well thereon.
2. Read & Stevens seeks to dedicate the W/2E/2 of Section 3, Township 20 South, Range 34 East, NMPM, Lea County, New Mexico to the proposed well to form a 320-acre, more or less, horizontal oil spacing and proration unit.
3. Read & Stevens plans to drill the **North Lea 3 Federal Com #2H** well to a depth sufficient to test the Bone Spring formation.
4. The well that Read & Stevens seeks to drill will comply with the setback requirements established under the Division's rules.

5. Read & Stevens sought, but has been unable to obtain a voluntary agreement from all interest owners in the Bone Spring formation underlying the proposed unit to participate in the drilling of the well or to otherwise commit their interests to the well.

6. The pooling of all interests in the Bone Spring formation underlying the proposed unit will prevent the drilling of unnecessary wells, prevent waste and protect correlative rights.

WHEREFORE, Read & Stevens requests this application be set for hearing before an Examiner of the Oil Conservation Division on October 4, 2018, and after notice and hearing as required by law, the Division enter its order:

A. Creating a spacing and proration unit in the Bone Spring formation comprised of the W/2E/2 of Section 3, Township 20 South, Range 34 East, NMPM, Lea County, New Mexico.;

B. Pooling all mineral interests in the Bone Spring formation underlying this spacing and proration unit;

C. Designating Read & Stevens as operator of this unit and the wells to be drilled thereon;

D. Authorizing Read & Stevens to recover its costs of drilling, equipping and completing these wells;

E. Approving actual operating charges and costs charged for supervision, together with a provision adjusting the rates pursuant to the COPAS accounting procedure; and

F. Setting a 200% charge for the risk involved in drilling and completing the wells in the event a working interest owner elects not to participate in the wells.

Respectfully submitted,

MODRALL, SPERLING, ROEHL, HARRIS
& SISK, P.A.

LEA COUNTY, NEW MEXICO.**

CASE NO. 16382

AFFIDAVIT OF MARK W. COMPTON

STATE OF NEW MEXICO)
) ss.
COUNTY OF BERNALILLO)

Mark W. Compton, being duly sworn, deposes and states:

1. I am a landman for Read & Stevens, Inc. ("Read & Stevens"), and have personal knowledge of the matters stated herein. I have been qualified by the Division as an expert petroleum landman.

2. Pursuant to NMAC 19.15.4.12.A(1), the following information is submitted in support of the above referenced compulsory pooling application:

(a) The purpose of this application is to force pool working interest owners into the Bone Spring horizontal spacing unit described below, and in wells to be drilled in the unit.

(b) No opposition is expected because the interest owners being pooled have been contacted regarding the proposed well, but have failed or refused to voluntarily commit their interests in the well.

(c) A plat outlining the unit being pooled is attached hereto as Exhibit A. This exhibit also includes the ownership of each separate tract in the proposed unit and the proposed well's location within the unit. Read & Stevens seeks an order approving a 320-acre, more or less, spacing and proration unit in the Bone Spring formation comprised of the W/2E/2 of Section 3, Township 20 South, Range 34 East, NMPM, Lea County, New Mexico. Applicant further seeking pooling of all mineral interests in the Bone Spring formation underlying the spacing and proration unit. The unit will be dedicated to the **North Lea 3 Federal Com #2H** well, which is a horizontal well with a surface location of 200' from the North line and 1670' from the East line of Section 3 and a final take point located 110' from the South line and 1670' from the East line of Section 3, all of which is located in Township 20 South, Range 34 East.

(d) There are no depth severances within the Bone Spring formation underlying the proposed unit.

(e) Attached as Exhibit B is a proposed C-102 for the well. The proposed TVD for the well is approximately 10,898 feet. The well will develop the Quail Ridge South; Bone Spring Pool (Pool Code 50461), which is designated as an oil pool.

(f) The parties being pooled, their last known address, and the nature and percent of their interests are set forth in Exhibit C.

(g) I have conducted a diligent search of the public records in the county where the well is located, searched phone directories and conducted computer searched to locate contact information for parties entitled to notification.

(h) There are some un-locatable interest owners or returned mailings.

- (i) Exhibit D contains a summary of contact or attempted contacts with the interest owners, together with copies of the proposal letters sent to interest owners.
 - (j) Read & Stevens has made a good faith effort to obtain voluntary joinder of the work interest owners in the proposed well.
 - (k) There are no overriding royalty interests in the acreage at issue.
 - (l) Exhibit E is the well proposal letters and Authorization for Expenditure for the proposed well. The estimated cost of the well set forth therein is fair and reasonable, and is comparable to the costs of other wells of similar depths and length drilled in this area of New Mexico.
 - (m) Read & Stevens requests overhead and administrative rates of \$7000/month for a drilling well and \$700/month for a producing well. These rates are fair, and comparable to the rates charged by other operators for wells of this type in this area of Southeastern, New Mexico. Read & Stevens requests that these rates be adjusted periodically as provided in the COPAS Accounting Procedure.
 - (n) Read & Stevens requests the maximum cost plus 200% risk charge be assessed against non-consenting working interest owners.
 - (o) Read & Stevens requests that it be designated operator of the well.
- 3. The attachments to this affidavit were prepared by me, or compiled from company business records.
 - 4. I attest that the information provided herein is correct and complete to the best of my knowledge and belief.
 - 5. The granting of this application is in the interests of conservation and the prevention of waste.

Mark W. Compton

SUBSCRIBED AND SWORN to before me this 5th day of September, 2018 by Mark W. Compton.

EXHIBIT "A"

Attached to that certain Operating Agreement dated June 30, 2018, between Read & Stevens, Inc., as Operator and Chevron U.S.A, Inc. et al, as Non-Operators.

Contract Area:

Township 20 South, Range 34 East, N.M.P.M.
Section 3: Lot 2, SW/4NE/4 and W/2SE/4
Containing 160.75 acres, more or less
Lea County, New Mexico

Depths:

Contract Area is limited to the 3rd Bone Spring formation. As used in this Agreement, the term "3rd Bone Spring formation" shall mean the stratigraphic equivalent of the geologic correlative interval having a subsurface depth found between 10,621' -10,917', as found in the Mark Federal #7 (30-025-32153) Schlumberger Litho Density/Compensated Neutron Log.

Lease Number: NMNM 84902
 Lessor: United States of America
 Lessee: Read & Stevens, Inc.
 Date of Lease: September 1, 1990
 Description of Lands: Insofar and only insofar as said lease covers the SW/4NE/4 of Section 3, Township 20 South, Range 34 East, NMPM, Lea County, New Mexico

Lease Number: NMNM 54432
Lessor: United States of America
Lessee: Read & Stevens, Inc.
Date of Lease: January 1, 1983
Description of Lands: Insofar and only insofar as said lease covers the W/2SE/4 of Section 3, Township
20 South, Range 34 East, NMPM, Lea County, New Mexico

Burdens on Production:

As of the date of this agreement and defined in the Drilling Title Opinion – to be determined.

Read & Stevens Attempts to Contact Pooled Parties

- Read & Stevens performed record title searches and obtained addresses of record.
- Read & Stevens sent well proposal letters to the parties it seeks to pool.
- Read & Stevens returned calls and communicated via e-mail with the parties it seeks to pool.
- Read & Stevens searched on-line for additional address information.
- Read & Stevens sent pooling application notices to addresses of record.

RE: North Lea 3 Federal Com #2H Well
Township 20 South, Range 34 East, N.M.P.M., Lea County, New Mexico
SHL; 200' FNL & 1,670' FEL; BHL: 330' FSL & 1,670' FEL, Section 3

Dear Working Interest Owner:

Read & Stevens, Inc., as Operator, hereby proposes the drilling and completing of the above described well to test the 3rd Bone Spring formation at a Total Vertical Depth of 10,925' and a Total Measured Depth of 15,385'. The estimated costs are \$8,447,000, as outlined in the enclosed AFE.

Enclosed is the proposed Operating Agreement for your review. If you elect to participate, please return the signature pages for the Operating Agreement, a copy of the AFE and the election form. If you elect not to participate, Read & Stevens Inc. would be interested in acquiring your interest in the W/2E/2 of Section 3, T-20S-R-34E, either through a Farmout or an Assignment.

Due to permit requirements, time is of the essence. If you have any questions, please don't hesitate to call me at 575-622-3770 ext. 308. We look forward participating in this operation with you.

Respectfully,

Mark Compton
Landman

**STATE OF NEW MEXICO
DEPARTMENT OF ENERGY, MINERALS AND NATURAL RESOURCES
OIL CONSERVATION DIVISION**

**APPLICATION OF READ &
STEVENS, INC. FOR A
HORIZONTAL SPACING AND
PRORATION UNIT AND
COMPULSORY POOLING,
EDDY COUNTY, NEW MEXICO.**

CASE NO. 16382

AFFIDAVIT OF NORMAN LOVAN

STATE OF NEW MEXICO)
) ss.
COUNTY OF BERNALILLO)

Norman Lovan, being duly sworn, deposes and states:

1. I am over the age of 18, and have person knowledge of the matters stated herein. I have been qualified by the Division as an expert petroleum geologist.
2. I am a geologist and I have been retained by Read & Stevens, Inc. in connection with the above-captioned application.
3. I am familiar with the geological matters involved in this case.
4. The following geological exhibits are attached hereto:
 - a. Exhibit A is a structure map on the top of the Wolfcamp formation. It forms the base on which the basal 3rd Bone Spring Sand sits. It also shows that the structure dips gently to the South-Southeast, vertical Bone Spring wells in the vicinity of the proposed North Lea 3 Federal #2H well, and a line of Cross-Section A-A'.

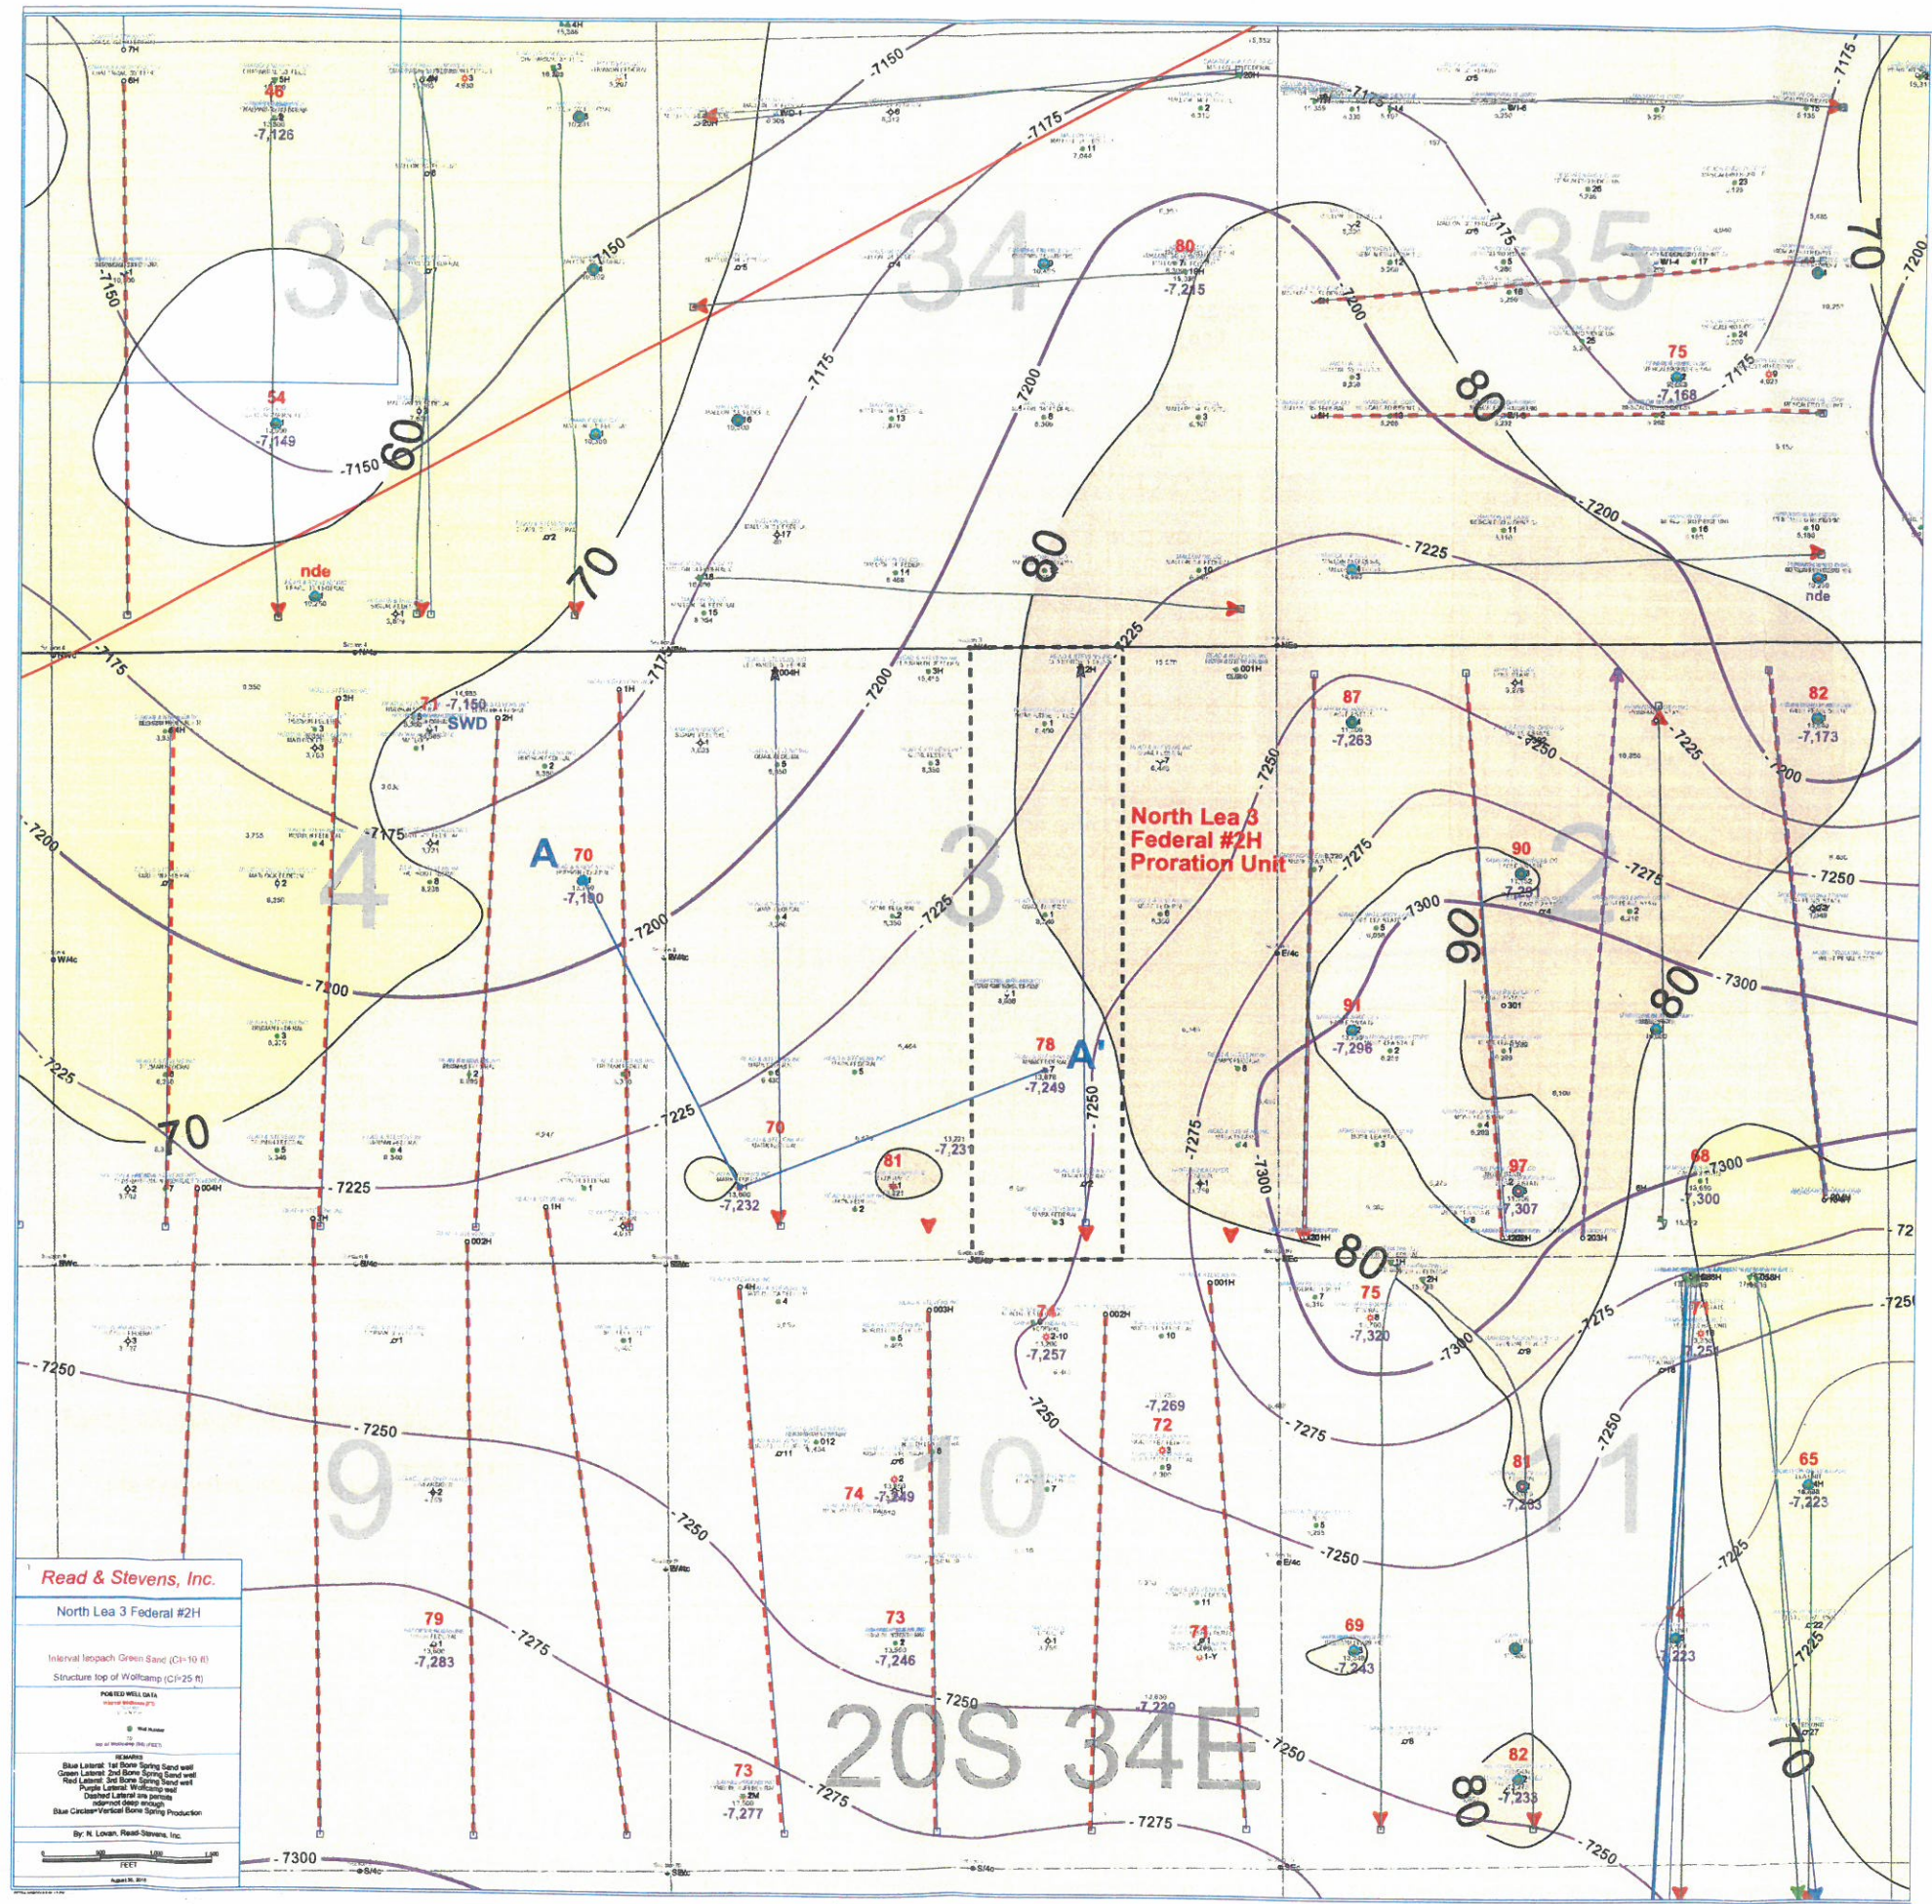

- b. Exhibit A is an Interval Isopach Map of the Basal 3rd Bone Spring Sand (Green sand). It shows that the Bone Spring formation is uniform across the proposed well unit.
 - c. Exhibit B consists of a stratigraphic cross section hung on the top of the 3rd Bone Spring Sand. The well logs on the cross-section give a representative sample of the Bone Spring formation in the area. The target zone for the well is the basal 3rd Bone Spring Sand (Green Sand), and that zone is continuous across the well unit.
 - d. The well has been drilled to TD with a measured depth of 15,630 ft. Bottom hole location is at 110 ft. FSL and 1670 ft. FEL.
- 5. I conclude from the maps that:
 - a. The horizontal spacing and proration unit is justified from a geologic standpoint.
 - b. There are no structural impediments or faulting that will interfere with horizontal development.
 - c. Each quarter quarter section in the unit will contribute more or less equally to production.
- 6. The preferred well orientation in this area is North-South. This is because the regional induced fractures trend northeast-southwest allowing near perpendicular intersection by the drilled lateral.
- 7. The producing interval for the well will be orthodox and will comply with the Division's set back requirements.
- 8. The North Lea 3 Federal Com No. 002H well was spud on July 25, 2018. This well has not yet been completed. Completion operations are expected to take place October 22, 2018.

LEGAL NOTICE September 14, 2018

CASE NO. 16382: Notice to all affected parties, as well as the heirs and devisees of Chevron U.S.A.; United States of America, Department of the Interior, Bureau of Land Management; Lauritz Christian Jensen, Successor Trustee of the Joann E. Jensen Family Trust u/a/d August 30, 1996; Seegers Drilling Company; S.N.S. Oil & Gas Properties; Welmer, Inc.; Lucinda Loveless; Lucinda Loveless, Trustee of the Lucinda Loveless Revocable Trust; Hillier, LLC; Amerdev New Mexico LLC; Scott Miller; Scott Bolanz Miller; Andrea Miller Bunnett; Andrea M. Bunnett; Wesley Merrick Miller; Justin McKelvy Miller; and Nancy Peacock Mackey of Read & Stevens, Inc.'s Application for a horizontal spacing unit and proration unit and compulsory pooling, Lea County, New Mexico. The State of New Mexico through its Oil Conservation Division, hereby gives notice that the Division will conduct a public hearing at 8:15 a.m. on October 4, 2018 to consider this application. Applicant seeks an order from the Division: (1) creating a 160-acre, more or less, horizontal spacing and proration unit covering the W/2E/2 of Section 3, Township 20 South, Range 34 East, NMPM, Lea County, New Mexico; and, (2) pooling all mineral interests in the Bone Spring formation underlying this proposed spacing and proration unit. This proposed spacing and proration unit will be the unit for the North Lea 3 Federal Com #2H well, being horizontally drilled. The producing area for this well will be orthodox. Also to be considered will be the cost of drilling and completing said well, the allocation of these costs as well as the actual operating costs and charges for supervision, designation of Read & Stevens as operator of the well, and a 200% charge for risk involved in drilling said well. Said area is located approximately 25 miles west of Hobbs, New Mex.co.
