

**BEFORE THE OIL CONSERVATION DIVISION
EXAMINER HEARING JANUARY 10, 2019**

CASE No. 20186

LOVING FED COM #1

EDDY COUNTY, NEW MEXICO

**STATE OF NEW MEXICO
ENERGY, MINERALS AND NATURAL RESOURCES DEPARTMENT
OIL CONSERVATION DIVISION**

**APPLICATION OF OXY USA INC.
FOR COMPULSORY POOLING,
EDDY COUNTY, NEW MEXICO.**

AFFIDAVIT OF COURTNEY CARR

STATE OF TEXAS)
) ss.
COUNTY OF Harris)

I, Courtney Carr, being first duly sworn on oath, states as follows:

1. My name is Courtney Carr. I work for OXY USA Inc. ("OXY") as a Landman. I have previously testified before the Oil Conservation Division and had my credentials as an expert in petroleum land matters accepted and made a matter of record.

2. I am the landman who is familiar with the application filed by OXY in this matter and familiar with the status of the lands in Section 4, Township 23 South, Range 28 East, N.M.P.M., Eddy County, New Mexico.

3. OXY seeks an order pooling interest owners in the N/2 of Section 4: the 320-acre spacing unit in the Morrow formation (Loving; Morrow, North Gas Pool (80694) and the 320-acre spacing unit in the Strawn formation (North Loving Strawn Gas Pool (80710)).

4. OXY has modified its broader pooling request in its application and now seeks only to compulsory pool uncommitted interests in the Morrow and Strawn formations.

5. OXY owns a working interest in the N/2 of Section 4 and has drilled the **Loving Fed Com Well No. 1 Well**, a vertical well located at a standard gas well location

BEFORE THE OIL CONSERVATION DIVISION

Santa Fe, New Mexico

Exhibit No. 1

Submitted by: **OXY USA INC**

Hearing Date: January 10, 2019

Case Nos. 20186

1980 feet from the North line and 2235 feet from the West line (Unit F) of Section 4. 5. Attachment A is a plat of the subject lands showing the proposed project area, the producing area and the well location. The well is currently completed in the Atoka formation.

6. The well was initially completed in the Atoka formation (N. Loving Atoka Pool) and was dedicated to the 320-acre spacing unit comprised of the N/2 of Section 4. The joint operating agreement has expired.

7. **OXY Exhibit 1-A** is a C-102 showing the well and the proposed recompletion in the Strawn formation. This spacing unit is comprised of the N/2 of Section 4. All acreage is federal. The Division District Office has placed this well in the North Loving Strawn Gas Pool (80710).

8. **OXY Exhibit 1-B** is a C-102 showing the well and the proposed recompletion in the Morrow formation. This spacing unit is comprised of the N/2 of Section 4. All acreage is federal. The Division District Office has placed this well in the Loving; Morrow, North Gas Pool (80694).

9. **OXY Exhibit 1C** identifies ownership by tract in the proposed spacing units. Ownership is identical in the Morrow and Strawn formations. OXY seeks to pool certain uncommitted working interest owners as identified on the first page of this exhibit and overriding royalty interests shown on the third page of this exhibit.

10. None of the interest owners have indicated opposition to OXY presenting this case by affidavit.

11. **OXY Exhibit 1D** contains the well proposal letter and AFE for the proposed well. In addition to sending well proposal letters and AFEs, I have had multiple emails with each

company regarding this recompletion. I expect to reach an agreement with some of the interest owners and will notify the Division if this occurs.

12. In my opinion, OXY has made a good faith effort to reach an agreement with each party that it seeks to pool.

13. The costs reflected in the Statement of Estimated Well Costs are consistent with what other operators have incurred for similar recompletions in each of these formations.

14. No ownership depth severances exist in the proposed spacing unit.

15. OXY has estimated the overhead and administrative costs at \$7000 per month while recompleting and \$700 per month while producing. These costs are consistent with what other operators are charging in this area for similar vertical recompletions.

16. OXY has performed a diligent search of the county records to ascertain last known addresses for each party that it seeks to pool. In addition, OXY has performed telephone directory and internet searches. In my opinion, OXY has made a good faith effort to locate each party that it seeks to pool.

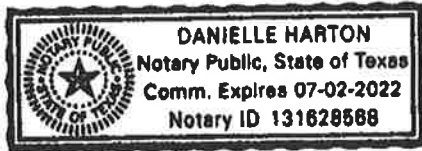

17. Exhibit Nos. 1A through 1D were either prepared by me or compiled under my direction and supervision.

FURTHER AFFIANT SAYETH NOT

Re: Ratification and Amendment of Operating Agreement & Workover Proposal
N/2 of Section 4, T23S-R28E
Eddy County, New Mexico

Dear Working Interest Owners:

The above-mentioned Operating Agreement, between Gulf Oil Corporation, as Operator, and Holly Energy, Inc., et al, as Non-Operator, was made effective with the drilling of the Loving Federal Com #1 (API No. 30-015-24333) in 1982. The Operating Agreement has terminated under its own provisions due to mechanical issues that have caused a cessation of production.

OXY USA Inc. ("OXY") as successor operator desires to ratify and revive the Operating Agreement and to amend the provisions of Article XIII. OXY respectfully requests that you review and fully execute the above-mentioned document at your earliest convenience in order to return the well to production and prevent lease termination.

OXY's proposed operation to bring the well back to production is detailed in the enclosed Authority for Expenditure ("AFE"). If you wish to participate in the operation, please execute the AFE and return to the undersigned.

If we do not reach an agreement within 30 days of the date of this letter, OXY will apply to the New Mexico Oil Conservation Division for compulsory pooling of your interest into a spacing unit for the proposed recompletion.

Please direct all land questions to Courtney Carr at (713) 599-4116 or courtney_carr@oxy.com and technical questions to Angie Contreras at (713) 497-2012 or Angie_contreras@oxy.com.

Sincerely,

OXY USA Inc.

Re: Application of OXY USA Inc. for compulsory pooling, Eddy County, New Mexico.

Loving Fed Com Well No. 1 Well

Ladies & Gentlemen:

This letter is to advise you that OXY USA Inc. has filed the enclosed application with the New Mexico Oil Conservation Division. This application will be set for hearing before a Division Examiner at 8:15 a.m. on January 10, 2019. The hearing will be held in Porter Hall in the Oil Conservation Division's Santa Fe Offices, located at 1220 South Saint Francis Drive, Santa Fe, New Mexico 87505. You are not required to attend this hearing, but as an owner of an interest that may be affected by this application, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging the matter at a later date.

Parties appearing in cases are required by Division Rule 19.15.4.13.B to file a Pre-hearing Statement four business days in advance of a scheduled hearing. This statement must be filed at the Division's Santa Fe office at the above specified address and should include: the names of the parties and their attorneys; a concise statement of the case; the names of all witnesses the party will call to testify at the hearing; the approximate time the party will need to present its case; and identification of any procedural matters that are to be resolved prior to the hearing.

If you have any questions about this matter, please contact Courtney Carr at (713) 599-4116 or Cortney_carr@oxy.com

Sincerely,

Jordan L. Kessler

Case No. 20186: Application of OXY USA Inc. for compulsory pooling, Eddy County, New

Mexico. Applicant in the above-styled cause seeks an order pooling all uncommitted interests in all formations from the surface to the base of the Morrow formation in the following spacing units located in the N/2 of Section 4, Township 23 South, Range 28 East, N.M.P.M., Eddy County, New Mexico: the N/2 for all formations and/or pools developed on 320-acre spacing within that vertical extent, including but not limited to the Loving; Morrow, North Gas Pool (80694) and the North Loving Strawn Gas Pool (80710). Applicant proposes a dual recompletion in the 320-acre spacing units in the Morrow and Strawn formations through the Loving Fed Com Well No. 1 Well, located at a standard gas well location 1980 feet from the North line and 2235 feet from the West line (Unit F). Also, to be considered will be the cost of drilling and re-completing said well and the allocation of the cost thereof, as well as actual operating costs and charges for supervision, designation of applicant as operator of the well and a charge for risk involved in drilling said well. Said area is located approximately 11 miles north of Loving, New Mexico.
