OIL CONSERVATION DIVISION

APPLICATION OF WPX EXPLORATION AND PRODUCTION, LLC FOR
COMPULSORY POOLING, EDDY COUNTY, NEW MEXICO.

CASE NO. 20376

AFFIDAVIT OF AARON YOUNG
IN SUPPORT OF CASE NO. 20376

Aaron Young, of lawful age and being first duly sworn, declares as follows:

1. My name is Aaron Young. I work as a Landman for WPX Energy Permian, LLC (“WPX”), formerly known as RKI Exploration and Production, LLC.
2. I have previously testified before the New Mexico Oil Conservation Division as an expert witness in petroleum land matters. My credentials as a petroleum landman have been accepted by the Division and made a matter of record.
3. I am familiar with the application filed by WPX in this case, and I am familiar with the status of the lands in the subject area.
4. None of the proposed pool parties in this case has indicated opposition, and therefore I do not expect any opposition at the hearing.
5. WPX is seeking an order pooling all uncommitted interests in the Wolfcamp formation, Purple Sage Wolfcamp Gas Pool, underlying a 638.4-acre standard horizontal spacing unit comprised of N/2 of Sections 2 and 3, Township 23 South, Range 27 East, NMPM, Eddy County, New Mexico. WPX seeks to dedicate this standard horizontal spacing unit to the proposed **Shepherd 3-2-23-27 Fee 401H** well, to be drilled from a surface hole location in NW/4 SW/4 (Unit L) of Section 3 to a bottom hole location in the SE/4 NE/4 (Unit H) of Section 2.

6. WPX has filed a Form C-102 with the Division for the proposed Shepherd 3-2-23-27 Fee 401H well. This C-102 is attached hereto as **WPX Exhibit A-1**. The C-102 shows that a Pool Code of 98220 has been assigned.

7. The completed interval for the proposed Shepherd 3-2-23-27 Fee 401H well will comply with the Special Rules set forth in Order No. R-14262.

8. **WPX Exhibit A-2** is an exhibit prepared by me that identifies the tracts of land comprising the proposed spacing unit. This proposed spacing unit includes fee land only. This exhibit shows the interest owners and the percentage of their interest by tract. WPX is seeking to pool the interest owners in bold type. A unit recapitulation, showing the percentage of ownership interests in the proposed spacing unit, is also included on the exhibit.

9. There are no depth severances in the Purple Sage Wolfcamp formation.

10. WPX is seeking to pool unleased mineral interest owners only.

11. A copy of the well proposal letter, along with the corresponding AFE, is attached as **WPX Exhibit A-3**. The costs reflected in the AFEs are consistent with what WPX and other operators have incurred for drilling similar horizontal wells in the area.

12. WPX has made an estimate of overhead and administrative costs for drilling and producing the proposed wells. It is \$8,000/month while drilling, and \$800/month while producing. These costs are consistent with what other operators are charging in this area for these types of wells. WPX respectfully requests that these administrative and overhead costs be incorporated into any order entered by the Division in this case.

13. In my opinion, WPX has made good faith efforts to reach an agreement with the parties it is seeking to pool, including engaging a broker who has been working for approximately six months to lease the unleased mineral interests. If WPX reaches an agreement

with any of the proposed pool parties before the Division enters an order, I will let the Division know that WPX is no longer seeking to pool those parties.

14. I provided the law firm of Holland & Hart LLP a list of names and addresses for the proposed pool parties. In compiling these notice lists, WPX conducted a diligent search of all public records in the county where the proposed wells are located and of phone directories, including computer searches. Not all parties were locatable but notice was also provided by publication.

15. **WPX Exhibits A-1 through A-3** were either prepared by me or compiled under my direction and supervision.

Dear Sir or Madam,

WPX Energy Permian, LLC ("WPX"), f/k/a RKI Exploration & Production, LLC, hereby proposes the drilling of a horizontal well to a depth to test the Wolfcamp formation at a total measured depth of approximately 18,950', approximate total vertical depth of 9,050', and a horizontal spacing unit consisting of the N/2 of Sections 3 and 2, Township 23 South, Range 27 East being 638.4 acres, more or less. Included herewith is our Authority for Expenditure ("AFE") in the gross amount of \$11,394,933, being the total estimated cost to drill and complete said well. You may own an interest in the horizontal spacing unit, although further title verification could be required. Please disregard all previous well proposals

WPX is proposing to drill this well under the terms of a modified 1989 A.A.P.L Form 610 Model Form Operating Agreement, covering the N/2 of Sections 3 and 2, Township 23 South, Range 27 East, Eddy County, New Mexico (the "JOA"). It has the following general terms:

- 100%/300% Non-consenting penalty
- \$8,000/\$800 Drilling and Producing Rate
- WPX named as Operator

If you wish to participate in the operation, please indicate in the space provided below, along with a signed AFE, and deliver to my attention at the letterhead address or by email at aaron.young@wpxenergy.com, and WPX will provide the completed JOA for your review.

If you do not wish to participate under the JOA, WPX would like to acquire an Oil & Gas Lease on your minerals for the following general terms:

- 3 year primary term
- Delivering a 75% RI, proportionately reduced
- \$4,000 per net acre bonus consideration

Should you be interested in leasing, please contact Katie Gardner at 817.271.3944 or by email at katie.gardner@k-h-grp.com. This Oil & Gas Lease offer is subject to verification of title.

If an agreement is not reached within 30 days of the date of this letter, WPX will apply to the New Mexico Oil Conservation Division for compulsory pooling of your interest into a spacing unit for the proposed well.

CASE NOS. 20376

**AFFIDAVIT OF KASMIRA WORKMAN
IN SUPPORT OF CASE NO. 20376**

Kasmira Workman, of lawful age and being first duly sworn, declares as follows:

1. My name is Kasmira Workman. I work as a Geologist for WPX Energy Permian, LLC ("WPX"), formerly known as WPX Exploration and Production, LLC.
2. I have previously testified by affidavit before the New Mexico Oil Conservation Division as an expert witness in petroleum geology.
3. I am familiar with the application filed by WPX in this case, and I have conducted a geologic study of the lands in the subject area.
4. With these consolidated cases, WPX is targeting the Purple Sage Wolfcamp formation.
5. **WPX Exhibit B-1** is a subsea structure map that I prepared for the top of the Wolfcamp Y. The contour interval is 50 feet. The proposed spacing unit is denoted by a green box. The proposed wellbore paths for the proposed **Shepherd 3-2-23-27 Fee 401H** well is depicted by a blue line.
6. The structure map shows the Wolfcamp Y gently dipping to the east. The map also identifies wells used to create this Wolfcamp Y subsea structure map and nearby wells that have produced from the Wolfcamp Y. The structure appears consistent across the proposed wellbore

path. I do not observe any faulting, pinchouts, or other geologic impediments to horizontal drilling.

7. **WPX Exhibit B-2** is a stratigraphic cross-section that I prepared displaying open-hole logs run over the Wolfcamp Y from two representative wells denoted from A to A'. For each well in the cross-section, WPX Exhibit B-2 shows the following logs: gamma ray, resistivity, and porosity. The proposed target interval is marked and labeled. The logs in the cross-section demonstrate that the target interval, within the Wolfcamp Y, is consistent in thickness, across the entire proposed spacing unit.

8. In my opinion, each tract comprising the proposed spacing unit will be productive and contribute more-or-less equally to production from the wellbore.

9. In my opinion, horizontal drilling will be the most efficient method to develop this acreage, to prevent the drilling of unnecessary wells, and to result in the greatest ultimate recovery.

10. In my opinion, the granting of WPX's application in this case is in the best interest of conservation, the prevention of waste, and protection of correlative rights.

11. WPX Exhibits B-1 and B-2 were either prepared by me or compiled under my direction and supervision.

Shepherd 3-2-23-27 Fee 401H

Greetings:

This letter is to advise you that WPX Energy Permian, LLC, has filed the enclosed application with the New Mexico Oil Conservation Division. A hearing has been requested before a Division Examiner on April 4, 2019, and the status of the hearing can be monitored through the Division's website at <http://www.emnrd.state.nm.us/ocd/>. Division hearings will commence at 8:15 a.m. in Porter Hall at the Oil Conservation Division's Santa Fe Offices located at 1220 South Saint Francis Drive, Santa Fe, New Mexico 87505. You are not required to attend this hearing, but as an owner of an interest that may be affected by this application, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging the matter at a later date.

Parties appearing in cases are required by Division Rule 19.15.4.13.B to file a Pre-hearing Statement four business days in advance of a scheduled hearing. This statement must be filed at the Division's Santa Fe office at the above specified address and should include: the names of the parties and their attorneys; a concise statement of the case; the names of all witnesses the party will call to testify at the hearing; the approximate time the party will need to present its case; and identification of any procedural matters that are to be resolved prior to the hearing.

If you have any questions about this matter, please contact Aaron Young at (539) 573-3531 or at aaron.young@wpxenergy.com.

Sincerely,

Michael H. Feldewert

Case No. 20376: Application of WPX Energy Permian, LLC, for compulsory pooling, Eddy County, New Mexico. Applicant in the above-styled cause seeks an order pooling all uncommitted interests in the Wolfcamp formation, Purple Sage Wolfcamp Gas Pool (Pool Code 98220), underlying a 640-acre standard horizontal spacing unit comprised of N/2 of Sections 2 and 3, Township 23 South, Range 27 East, NMPM, Eddy County, New Mexico. Applicant seeks to dedicate the above-referenced horizontal spacing unit to the proposed Shepherd 3-2-23-27 Fee 401H well to be drilled from a surface hole location in NW/4 SW/4 (Unit L) of Section 3 to a bottom hole location in the SE/4 NE/4 (Unit H) of Section 2. The completed interval for the proposed well will comply with the setback requirements imposed by the Special Rules for the Purple Sage Wolfcamp Gas Pool. Also, to be considered will be the cost of drilling and completing the well, the allocation of the cost thereof, the actual operating costs and charges for supervision, the designation of applicant as operator, and the imposition of 200% charge for risk involved in drilling and completing each well. Said area is located approximately 4.5 miles southeast of Carlsbad, New Mexico.
