STATEMENT OF THE CASE

APPLICANT.

NGL Water Solution Midstream, LLC (“NGL”) seeks approval to inject produced water into the Siluro-Devonian formation through the Tomahawk SWD Well No. 1, located in Section 4, Township 25 South, Range 34 East, NMPM.

OPPONENT

In Case No. 20114 Solaris applied for an order approving disposal of produced water at depths of 15835 - 17160 feet subsurface into the Telluride Fed. SWD Well No. 1, located 1200 feet from the south line and 1020 feet from the east line of Section 3, Township 25 South, Range 34 East, NMPM. A decision is pending. NGL’s proposed well is within a mile of the Solaris’ well. Solaris was the first party to file for an SWD in this area, and its application should receive preference. Thus, it opposes NGL’s application.
