**APPLICATION OF WPX ENERGY
PERMIAN, LLC FOR COMPULSORY
POOLING, EDDY COUNTY, NEW MEXICO.**

CASE NO. 20450

APPLICATION

WPX Energy Permian, LLC, formerly known as RKI Exploration & Production, LLC (collectively "WPX") files this application with the Oil Conservation Division pursuant to the provisions of N.M. Stat. Ann. § 70-2-17 for an order pooling all uncommitted interests in the Wolfcamp formation, Purple Sage Wolfcamp Gas Pool (Pool Code 98220), underlying a 640-acre, more or less, standard horizontal spacing unit comprised of S/2 of Section 34 and 35, Township 22 South, Range 27 East, NMPM, Eddy County, New Mexico. In support of its application, WPX states:

1. WPX (OGRID No. 246289) is a working interest owner in the proposed horizontal spacing unit and has the right to drill thereon.
2. WPX seeks to dedicate the above-referenced horizontal spacing unit to the proposed **Beagle 35-34-22-27 Fee 401H** well to be drilled from a surface hole location in NW/4 SW/4 (Unit L) of Section 36 to a bottom hole location in the NW/4 SW/4 (Unit L) of Section 34. The completed interval for the proposed well will comply with the setback requirements imposed by the Special Rules for the Purple Sage Wolfcamp Gas Pool.
3. WPX has sought and been unable to obtain a voluntary agreement governing the development of these lands from all interest owners in the subject spacing unit.

4. The pooling of interests will avoid the drilling of unnecessary wells, will prevent waste, and will protect correlative rights.

5. In order to permit WPX to obtain its just and fair share of the oil and gas underlying the subject lands, all uncommitted interests in this horizontal spacing unit should be pooled and WPX should be designated the operator of this proposed horizontal well and spacing unit.

WHEREFORE, WPX requests that this application be set for hearing before an Examiner of the Oil Conservation Division on May 2, 2019, and, after notice and hearing as required by law, the Division enter an order:

- A. Pooling all uncommitted interests in the horizontal spacing unit and approving the initial well;
- B. Designating applicant as the operator of this spacing unit and the horizontal wells to be drilled thereon;
- C. Authorizing applicant to recover its costs of drilling, equipping and completing the well;
- D. Approving the actual operating charges and costs of supervision, together with a provision adjusting the rates pursuant to the COPAS accounting procedures; and
- E. Imposing a 200% charge for the risk assumed by applicant in drilling and completing the well against any working interest owner who does not voluntarily participate in the drilling of the well.

Respectfully submitted,

CASE NO. 20451

AFFIDAVIT OF BRENNAN WEST

I, being duly sworn on oath, state the following:

1. I am over the age of 18, and have the capacity to execute this Affidavit, which is based on my personal knowledge.
2. I am employed as a Staff Landman with WPX Energy Permian, LLC ("WPX") and I am familiar with the subject application and the lands involved.
3. This affidavit is submitted in connection with the filing by WPX of the above-referenced compulsory pooling application pursuant to 19.15.4.12.A(1) NMAC.
4. I have previously testified before the New Mexico Oil Conservation Division as an expert witness in petroleum land matters. My credentials as a petroleum landman have been accepted by the Division and made a matter of record.
 - a. I have a degree in Energy Management and Finance from the University of Oklahoma.
 - b. With the exception of working in the Permian Basin in Texas for a year, I have worked the last 10 years in New Mexico.

5. The purpose of this application is to force pool working interest owners and uncommitted mineral interest owners into the horizontal spacing and proration unit ("HSU") described below, and in the wells to be drilled in the unit.

6. WPX seeks an order pooling all uncommitted mineral interests and uncommitted working interests in the Purple Sage Gas Pool HSU underlying the Section 34 and 35, Township 22 South, Range 22 East, NMPM, Eddy County, New Mexico, creating a standard 640 acre, more or less, HSU. This proposed HSU will be dedicated to the **Beagle 35-34-22-27 #401H (No. 20450)** for the south half HSU and to the **Collie 35-34-22-27 #401H (No. 20451)** for the north half HSU, each of which will be the defining well for its respective unit.

7. A plat outlining the unit for the Beagle well is attached hereto as **Exhibit A-1** and a plat outlining the unit for the Collie well is attached hereto as **Exhibit A-2**. The location of the proposed wells within each proposed HSU is depicted in the proposed C-102s attached as **Exhibits B-1 and B-2**. The wells will develop the Purple Sage Wolfcamp Gas Pool.

8. The parties being pooled and the nature of their interests are found in **Exhibits C-1 and C-2** attached hereto, which include information regarding working interest owners and unleased mineral interest owners. All of the interest owners are Fee Owners.

9. No opposition is expected. The interest owners being pooled have been contacted regarding the proposed well, but have failed or refused to voluntarily commit their interests in the wells. They have, however, otherwise represented to me that they do not oppose this pooling application. Exhibit D, attached hereto, includes letters of support from three interest owners, including McCombs Energy, LLC; Alpha Energy Partners, LLC; and Novo Oil and Gas Northern Delaware, LLC.

10. There are depth severances in the Wolfcamp Formation.

11. The proposed surface hole location of the **Beagle 35-34-22-27 #401H** is approximately 2,339 FSL and 402 FWL of Section 36, Township 22 South, Range 27 East. The proposed bottom hole location is approximately 1,957' FSL and 230' FWL of Section 34, Township 22 South, Range 27 East. The proposed total vertical depth is 9,237' feet. The first take point will be located at approximately 1,957' FSL and 330' FEL of Section 35 and the last take point will be located at approximately 1,957' FSL and 330' FWL of Section 34.

12. The proposed surface hole location of the **Collie 35-34-22-27 #401H** is approximately 2,338' FSL and 427' FWL of Section 36, Township 22 South, Range 27 East. The proposed bottom hole location is approximately 2,364' FNL and 50' FWL of Section 34, Township 22 South, Range 27 East. The proposed total vertical depth is 9,237' feet. The first take point will be located at approximately 1,786' FNL and 621' FEL of Section 35 and the last take point will be located at approximately 2,364' FNL and 100' FWL of Section 34. To the extent necessary, WPX will be seeking administrative approval of any non-standard location.

13. I have conducted a diligent search of the public records in Eddy County, New Mexico, where the wells will be located, and conducted phone directory and computer searches to obtain contact information for parties entitled to notification. I mailed all parties well proposals, including an Authorization for Expenditure ("AFE"), with the inadvertent omission of Road Runner O&G, LLC ("Road Runner"). WPX subsequently obtained a waiver from Road Runner, which is attached hereto as Exhibit E.

14. WPX has made a good faith effort to obtain voluntary joinder of the working interest owners in the proposed well.

15. **Exhibits F-1 and F-2** are sample proposal letters and AFEs for the proposed wells. The estimated cost of the wells set forth in the AFEs is fair, reasonable, and comparable to the costs of other wells of similar depths and lengths drilled in this area of New Mexico.

16. WPX requests overhead and administrative rates of \$8,000/month for drilling a well and \$800/month for a producing well. These rates are fair and comparable to the rates charged by other operators for wells of this type in this area of southeastern New Mexico. WPX requests that these rates be adjusted periodically as provided in the COPAS Accounting Procedure.

17. WPX requests the maximum cost, plus 200% risk charge, be assessed against non-consenting working interest owners.

18. WPX requests that it be designated operator of the wells.

19. The Exhibits to this Affidavit were prepared by me, or compiled from WPX's business records.

20. The granting of this Application is in the interests of conservation, the prevention of waste, and the protection of correlative rights.

21. The foregoing is correct and complete to the best of my knowledge and belief.

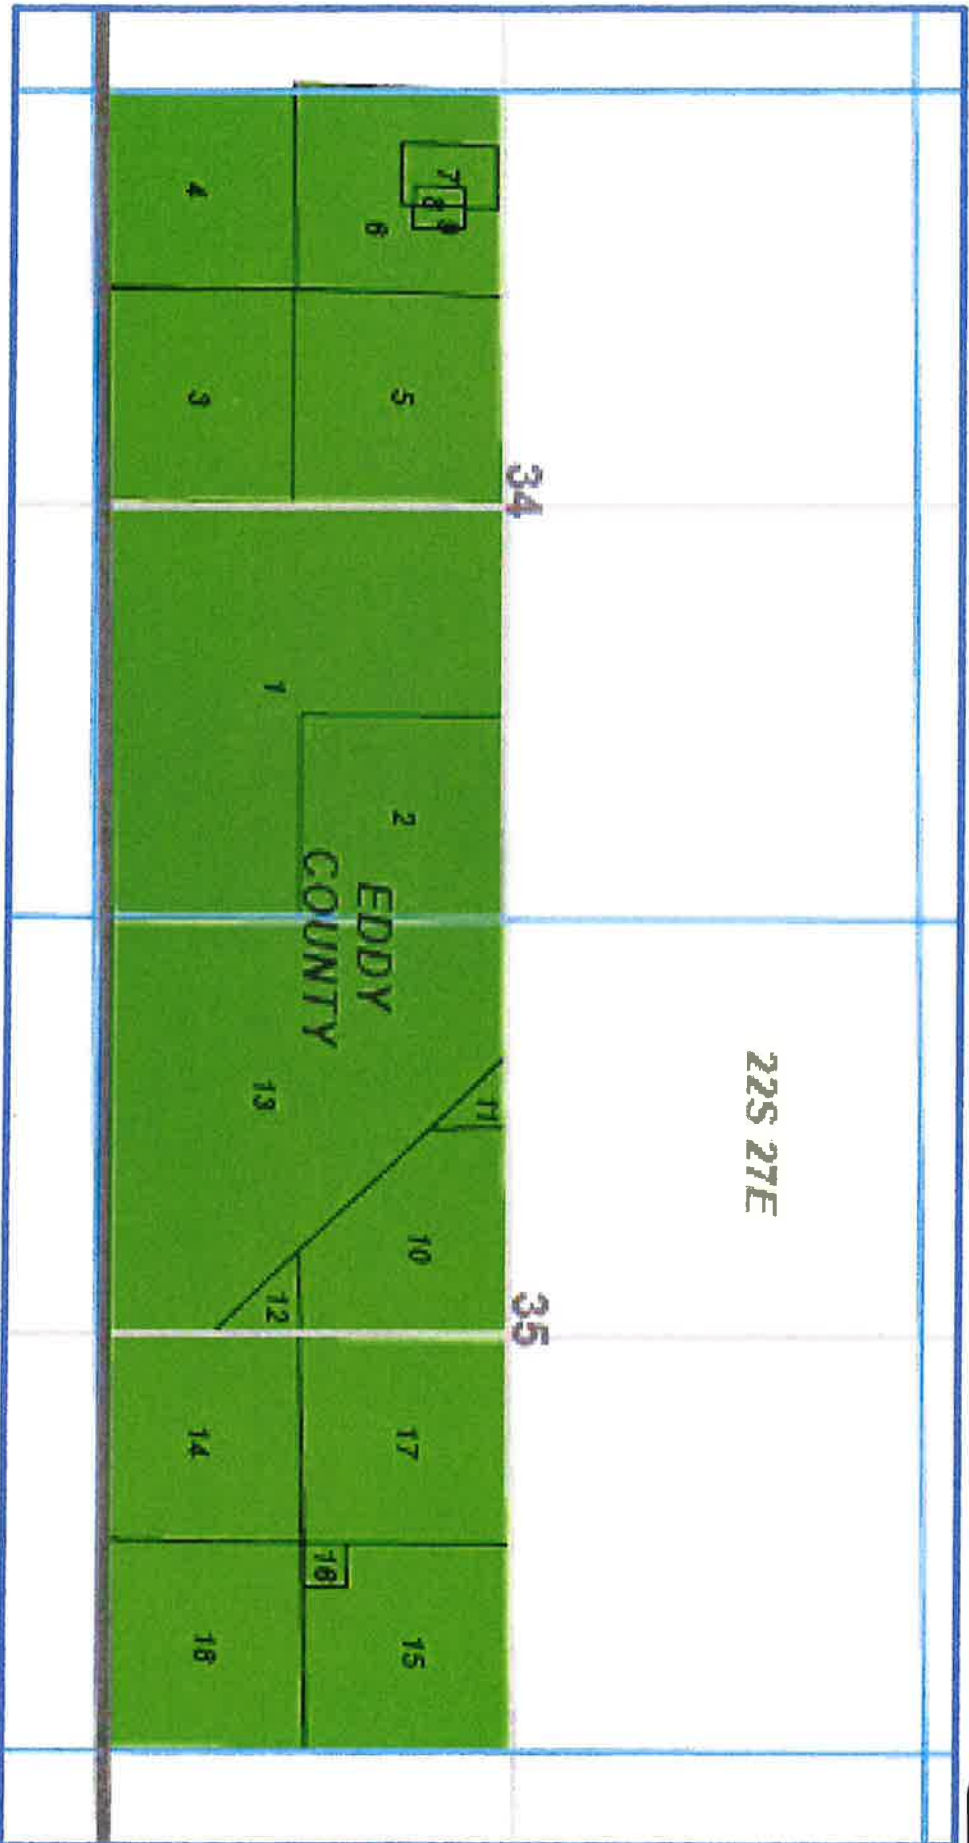

[NAME] BRENNAN WEST

Subscribed to and sworn before me this 11 day of July, 2019.

CASE NO. 20451

AFFIDAVIT OF KASMIRA WORKMAN

I, being duly sworn on oath, state the following:

1. I am over the age of 18, and have the capacity to execute this Affidavit, which is based on my personal knowledge.
2. I am employed as a petroleum geologist for WPX Energy Permian, LLC (“WPX”). I am familiar with the subject application and the geology involved.
3. This affidavit is submitted in connection with the filing by WPX of the above-referenced compulsory pooling application pursuant to 19.15.4.12.A(1) NMAC.
4. I have previously testified before the New Mexico Oil Conservation Division as an expert witness in petroleum geology matters. My credentials as a petroleum geologist have been accepted by the Division and made a matter of record.
 - a. I have a BS in Geology from Colorado Mesa University.
 - b. I have worked on New Mexico oil and gas matters since January 2018.

5. **Exhibit G** is a Wolfcamp Top SSTVD structure map. The proposed standard horizontal spacing and proration unit (“HSU”) is depicted by a red rectangle. The contour intervals are 100’. The structure map shows that there is a regional down-dip to the East. I do not observe any faulting, pinchouts, or other geologic impediments to developing this targeted interval with a horizontal well.

6. **Exhibit H** is a Wolfcamp Top stratigraphic cross-section. Each well has a triple combo suite. Track 1 is a gamma ray log with interpreted color fill for lithology and scaled from 0 to 150 api units. Track 2 is resistivity logs (shallow is red, medium is light blue, and deep is in dark blue) shown on a logarithmic scale from 2 ohmm to 2000 ohmm. Track 3 is the porosity track with neutron porosity identified by the blue curve scaled from 45% to -15%. The density porosity curve is the red curve from 45% to -15%. The cross-section identifies the key tops used to evaluate reservoirs and landing targets for the COLLIE 35-34-22-27 FEE 401H and BEAGLE 35-34-22-27 FEE 401H. The landing target interval is shown on the cross-section by a green shaded box. The reservoir in the Wolfcamp Y has constant thickness and reservoir facies throughout the proposed Horizontal Spacing Units.

7. Based on my geologic study of the area, I conclude the following:
- a. The horizontal spacing and proration unit is justified from a geologic standpoint.
 - b. There are no structural impediments or faulting that will interfere with horizontal development.
 - c. Each quarter-quarter section in the unit will contribute more or less equally to production.

- d. The preferred well orientation in this area is east-west. This is because the inferred orientation of the maximum horizontal stress is roughly northeast-southwest.
- 8. The Exhibits to this Affidavit were prepared by me, or compiled from WPX's business records.
- 9. The granting of this Application is in the interests of conservation and the prevention of waste.
- 10. The foregoing is correct and complete to the best of my knowledge and belief.

AFFIDAVIT OF NOTICE

STATE OF NEW MEXICO)
) ss.
COUNTY OF SANTA FE)

I, Sharon T. Shaheen, attorney for WPX Energy Permian, LLC, formerly known as RKI Exploration & Production, LLC (collectively “WPX”), the Applicant in the above-captioned matters, being first duly sworn, upon oath state the following:

Case No. 20450:

1. With respect to the original application filed in this matter, I have reviewed Exhibit A attached hereto, which consists of two reports generated through the United States Postal Service (“USPS”) regarding notice letters mailed by WPX’s prior counsel to all locatable uncommitted interest owners sought to be pooled in this proceeding. This exhibit demonstrates to my satisfaction that prior counsel’s office timely mailed hearing notice letters by April 12, 2019 to the 13 locatable uncommitted interest owners sought to be pooled. Exhibit A also demonstrates to my satisfaction that notice letters have been delivered by the USPS to 11 of the 13 owners. At the time the report was generated, two notice letters were reported to be in transit. In addition, one

unleased mineral interest owner was unlocatable. Notice by publication was directed to these three persons, among others, as reflected in the Affidavit of Publication attached hereto as Exhibit B. Exhibit B demonstrates to my satisfaction that those owners who did not receive personal notice through the certified mailing were properly served by publication.

2. With respect to the amended application filed in this matter, I caused notice of the amended application to be sent by certified mail through the USPS on May 24, 2019, to all uncommitted interest owners sought to be pooled in this proceeding, with the exception of one who was unlocatable. Proof of receipt by all parties except three is attached hereto as Exhibit C. Notice by publication was directed to these three persons and the one unlocatable party in the Carlsbad Current-Argus on May 30, 2019, which is reflected in the Affidavit of Publication attached hereto as Exhibit D. Exhibit D demonstrates to my satisfaction that those owners who did not receive personal notice through the certified mailing were properly served by publication.

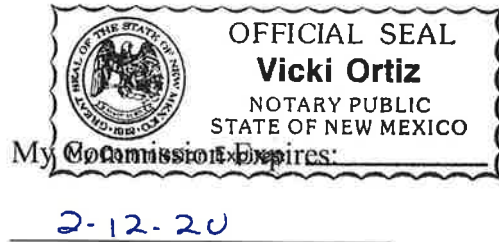

Case No. 20451:

2. I caused notice of the application to be sent by certified mail through the USPS on May 24, 2019, to all uncommitted interest owners sought to be pooled in this proceeding except one party who was unlocatable. Evidence of mailing to all parties and proof of receipt to a majority of the parties is attached hereto as Exhibit E. Notice by publication was directed to all of those parties who did not receive personal notice in the Carlsbad Current-Argus on May 30, 2019, which is reflected in the Affidavit of Publication attached hereto as Exhibit F. Exhibit F demonstrates to my satisfaction that those owners who did not receive personal notice through the certified mailing were properly served by publication

6. WPX has conducted a good faith, diligent effort to find the names and correct addresses for the interest owners entitled to receive notice of the Applications filed herein.
