## RED BUD 121H WOLFCAMP B POOLING

Case No. 20719

BEFORE THE OIL CONSERVATION DIVISION  
EXAMINER HEARING SEPTEMBER 5, 2019

**STATE OF NEW MEXICO  
DEPARTMENT OF ENERGY, MINERALS AND NATURAL RESOURCES  
OIL CONSERVATION DIVISION**

**APPLICATION OF AMEREDEV OPERATING, LLC  
FOR COMPULSORY POOLING,  
LEA COUNTY, NEW MEXICO.**

**CASE NO. 20719**

**AFFIDAVIT OF BRANDON FORTEZA  
IN SUPPORT OF CASE NO. 20719**

Brandon Forteza, of lawful age and being first duly sworn, declares as follows:

1. My name is Brandon Forteza. I work for Ameredev Operating, LLC (“Ameredev”) as a Landman.
2. I have previously testified before the New Mexico Oil Conservation Division as an expert witness in petroleum land matters. My credentials as a petroleum landman have been accepted by the Division and made a matter of record.
3. I am familiar with the application filed by Ameredev in this case, and I am familiar with the status of the lands in the subject area.
4. None of the uncommitted parties has indicated opposition to this pooling application, and therefore I do not expect any opposition at the hearing.
5. Ameredev is seeking an order pooling all uncommitted interests in the Wolfcamp formation underlying a standard 640-acre, more or less, horizontal spacing unit comprised of the W/2 W/2 of Section 29, E/2 E/2 of Sections 30 and 31, and the W/2 W/2 of Section 32, Township 25 South, Range 36 East, N.M.P.M., Lea County, New Mexico.
6. Ameredev seeks to dedicate the above horizontal spacing unit to the proposed **Redbud Fed Com 25-36-32 No. 121H Well**, which will be horizontally drilled from a surface

location in the NW/4 NW/4 (Unit D) of Section 5, Township 26 South, Range 36 East, to a bottom hole location in the NW/4 NW/4 (Unit D) of Section 29.

7. Ameredev has prepared a Form C-102 for the proposed Redbud Fed Com 25-36-32 No. 121H Well, a copy of which is attached hereto as **Ameredev Exhibit A-1**. The C-102 shows that a Pool Code of 33813 has been assigned.

8. Incorporating the proximity tracts, the completed interval for the proposed well will comply with the Division's setback requirements.

9. There are no depth severances in the Wolfcamp formation.

10. **Ameredev Exhibit A-2** is an exhibit prepared by me that identifies the tracts of land comprising the proposed spacing unit. This proposed spacing unit includes federal, state and fee land. This exhibit shows the interest owners and the percentage of their interest by tract. A unit recapitulation, showing the percentage of ownership interests in the proposed spacing unit, is also included on the exhibit. Ameredev is seeking to pool the interest owners denoted by an asterisk.

11. Ameredev is seeking to pool unleased mineral interest owners and owners of unmarketable title.

12. Ameredev sent a well proposal letter to the unleased mineral interest owners. An AFE was included with the well proposal letter. The costs reflected in the AFE are consistent with what other operators have incurred for drilling similar horizontal wells in the area. A copy of the well proposal letter, along with the AFE, is attached as **Ameredev Exhibit A-3**.

13. Ameredev seeks approval of overhead and administrative costs at \$7,000/month while drilling and \$700/month while producing. These costs are consistent with what Ameredev and other operators are charging in this area for these types of wells. Ameredev respectfully

requests that these administrative and overhead costs be incorporated into any order entered by the Division in these cases.

14. Ameredev is seeking to pool owners of unmarketable title resulting from unprobated estates in New Mexico. Ameredev has identified all known heirs on Ameredev Exhibit A-3, and also seeks to compulsory pool any unidentified heirs or other unmarketable title holders in this acreage, whatever their interests may be.

15. In my opinion, Ameredev has made good faith efforts to reach an agreement with the parties it is seeking to pool. If Ameredev reaches an agreement with the proposed pool parties before the Division enters an order, I will let the Division know that Ameredev is no longer seeking to pool those parties.

16. I provided the law firm of Holland & Hart LLP a list of names and addresses for the uncommitted interest owners shown on Ameredev Exhibit A-2. In compiling these addresses, Ameredev conducted a diligent search of all public records in the county where the proposed wells are located and of phone directories, including computer searches.

17. Because of the unmarketable title owners, not all parties were locatable. Notice of this hearing was also provided by publication in the Hobbs News-Sun.

18. **Ameredev Exhibit A-1 through A-3** were either prepared by me or compiled under my direction and supervision.

RE: Red Bud Fed Com 25-36-22 #121H Well Proposal  
Township 25 South, Range 36 East, N.M.P.M., Lea County, New Mexico  
SHL: 230' FNL & 250' FWL Section 5; BHL: 50' FNL & 200' FWL Section 29

Dear Working Interest Owner:

Ameredev Operating, LLC ("Ameredev"), as Operator, hereby proposes to commence to drill and complete the Red Bud Fed Com 25-36-22 #121H Well (the "Well") to test the Wolfcamp formation to a total vertical depth of 12,184' and a total measured depth of 23,049' ("Operation"). The estimated costs associated with the Operation are \$12,841,337.61 as outlined in the enclosed authority for expenditure ("AFE #2019-018"). Ameredev's records indicate KASSANDRA DAWN DITTMER ("DITTMER") owns a 0.00000010 working interest in the Well, and DITTMER's estimated costs associated with the Operation are approximately \$1.28.

In addition, Ameredev proposes the Operation to be governed by the terms of the 2015 Horizontal AAPL Form 610 Operating Agreement ("OA") with the following terms:

- Contract Area consisting of Township 25 South, Range 36 East, Section 32: W2W2, Section 29 W2W2, Section 30: E2E2, Section 31: E2E2 with Ameredev listed as the Operator ("Contract Area")
- 100%/300%/300% non-consent risk penalties
- \$7,000/\$700 drilling and producing overhead rates

Should DITTMER choose not to participate in Ameredev's proposed Operation, Ameredev proposes the following alternative:

1. DITTMER executes a 3 year lease in favor of Ameredev covering its interests for \$500 dollars an acre and a 25% royalty.

Ameredev looks forward to working with DITTMER on this matter. Please feel free to contact me at the information provided below with any questions. Please be advised that Ameredev may file for compulsory pooling in the near future, as such please indicate your election below and return to [bforteza@ameredev.com](mailto:bforteza@ameredev.com) at your earliest convenience.

Sincerely,

APPLICATION OF AMEREDEV OPERATING, LLC  
FOR COMPULSORY POOLING,  
LEA COUNTY, NEW MEXICO.

CASE NO. 20719

**AFFIDAVIT OF PARKER FOY**  
**IN SUPPORT OF CASE NO. 20719**

Parker Foy, of lawful age and being first duly sworn, declares as follows:

1. My name is Parker Foy. I work for Ameredev Operating, LLC as a Geologist.
2. I have previously testified before the New Mexico Oil Conservation Division as an expert witness in petroleum geology. My credentials as a petroleum geologist have been accepted by the Division and made a matter of record.
3. I am familiar with the application filed by Ameredev in this case, and I have conducted a geologic study of the lands in the subject areas.
4. In this case, Ameredev is targeting the Wolfcamp formation.
5. **Ameredev Exhibit B-1** is a locator map. It shows Ameredev's acreage in yellow and the path of the proposed wellbore for the proposed **Redbud Fed Com 25-36-32 121H Well** with the surface hole and bottom hole locations.
6. **Ameredev Exhibit B-2** is a subsea structure map that I prepared for the top of the Wolfcamp formation. The contour interval is 50 feet. The structure map shows the Wolfcamp gently dipping to the Southwest. The structure appears consistent across the proposed wellbore path. I do not observe any faulting, pinchouts, or other geologic impediments to horizontal drilling.

7. **Ameredev Exhibit B-3** is a map showing the location of the wells used to create the stratigraphic cross-section in the next exhibit. These three wells from A to A' are representative of the geology in the area.

8. **Ameredev Exhibit B-4** is a stratigraphic cross-section that I prepared displaying open-hole logs run over the Wolfcamp from three representative wells denoted from A to A'. For each well in the cross-section, the exhibit shows the following logs: gamma ray, resistivity, and porosity. The proposed target interval is labeled and marked. The logs in the cross-section demonstrate that the target interval, within the Wolfcamp, is consistent in thickness, across the entire proposed spacing unit.

9. Based on my geologic study of the area, I have not identified any geologic impediments to drilling horizontal wells in the area.

10. In my opinion, each tract comprising the proposed spacing units will be productive and contribute more-or-less equally to production from the wellbore.

11. In my opinion, the granting of Ameredev's application in this case will be in the best interest of conservation, the prevention of waste, and protection of correlative rights.

12. **Ameredev Exhibits B-1 through B-4** were either prepared by me or compiled under my direction and supervision.

Ladies & Gentlemen:

This letter is to advise you that Ameredev Operating, LLC has filed the enclosed application with the New Mexico Oil Conservation Division. A hearing has been requested before a Division Examiner on September 5, 2019, and the status of the hearing can be monitored through the Division's website at <http://www.emnrd.state.nm.us/ocd/>. Division hearings will commence at 8:15 a.m. in Porter Hall at the Oil Conservation Division's Santa Fe Offices located at 1220 South Saint Francis Drive, Santa Fe, New Mexico 87505. You are not required to attend this hearing, but as an owner of an interest that may be affected by this application, you may appear and present testimony. If you have any questions about this matter, please contact Brandon Forteza at (737) 300-4721 or [bforteza@ameredev.com](mailto:bforteza@ameredev.com).

Sincerely,
