TABLE OF CONTENTS

1. Compulsory Pooling Application Checklist
2. Devon Exhibit A – Land Affidavit
3. Devon Exhibit A-1 – Well C-102s
4. Devon Exhibit A-2 – Land/Unit Recap
5. Devon Exhibit A-3 – ORRI interests
6. Devon Exhibit A-4 – Well Proposals/AFE and Chronology
7. Devon Exhibit B – Geologist Affidavit
8. Devon Exhibit B-1 – Project Locator Map
9. Devon Exhibit B-2 – Structure Map
10. Devon Exhibit B-3 – Isopach Map
11. Devon Exhibit B-4 – Cross Section Map
12. Devon Exhibit B-5 – Cross Section A-A’
13. Devin Exhibit B-6 – Cross Section B-B’
14. Devon Exhibit C – Notice Affidavit
15. Devon Exhibit C-1 – Proof of Notice
16. Devon Exhibit C-2 – Notice of Publication

COMPULSORY POOLING APPLICATION CHECKLIST (pdf)

ALL INFORMATION IN THE APPLICATION MUST BE SUPPORTED BY SIGNED AFFIDAVITS

Case: 20986 20987	APPLICANT'S RESPONSE
Date: January 9, 2020	
Applicant	Devon Energy Production Company, L.P.
Designated Operator & OGRID (affiliation if applicable)	Devon Energy Production Company, L.P. (OGRID 6137)
Applicant's Counsel:	Holland & Hart LLP
Case Title:	APPLICATIONS OF DEVON ENERGY PRODUCTION COMPANY, L.P. FOR COMPULSORY POOLING, EDDY COUNTY, NEW MEXICO.
Entries of Appearance/Intervenors:	
Well Family	Uraninite 32-33 State Fed Com wells
Formation/Pool	
Formation Name(s) or Vertical Extent:	Bone Spring formation
Primary Product (Oil or Gas):	Oil
Pooling this vertical extent:	Bone Spring
Pool Name and Pool Code:	Winchester; Bone Spring (Pool code 65010); Parkway; Bone Spring (Pool code 49622)
Well Location Setback Rules:	Statewide oil rules apply
Spacing Unit Size:	480
Spacing Unit	
Type (Horizontal/Vertical)	Horizontal
Size (Acres)	480 acres, more or less
Building Blocks:	quarter-quarter sections
Orientation:	Laydown
Description: TRS/County	S/2 of Section 32 and the SW/4 of Section 33, Township 19 South, Range 29 East, NMPM, Eddy County, New Mexico
Standard Horizontal Well Spacing Unit (Y/N), If No, describe	Yes
Other Situations	
Depth Severance: Y/N. If yes, description	No
Proximity Tracts: If yes, description	Yes, well No. 335H is to be drilled closer than 330 feet from the Proximity Tracts and therefore defines the Horizontal Spacing Unit
Proximity Defining Well: if yes, description	Yes, Uraninite 32-33 State Fed Com 335H Well will remain within 330 feet of the N/2 S/2 of Sections 32 and 33 to allow inclusion of these proximity tracts in a standard 480-acre horizontal spacing unit comprised of the S/2 of Section 32 and the SW/4 of Section 33

Applicant's Ownership in Each Tract	Yes
Well(s)	
Name & API (if assigned), surface and bottom hole location, footages, completion target, orientation, completion status (standard or non-standard)	Add as needed
Well #1	Uraninite 32-33 State Fed Corn Well No. 334H, API No. 30-015-Pending SHL:1176 feet from the South line and 200 feet from the West line, (Unit M) of Section 32, Township 19 South, Range 29 East, NMPM. BHL:2200 feet from the South line and 2617 feet from the West line, (Unit K) of Section 33, Township 19 South, Range 29 East, NMPM. Completion Target: 3rd Bone Spring Sand at approx 8980 feet TVD. Well Orientation:West to East Completion Location expected to be:standard
Well #2	Uraninite 32-33 State Fed Corn Well No. 335H, API No. 30-015-Pending SHL:1146 feet from the South line and 200 feet from the West line, (Unit M) of Section 32, Township 19 South, Range 29 East, NMPM. BHL:1310 feet from the South line and 2618 feet from the West line, (Unit N) of Section 33, Township 19 South, Range 29 East, NMPM. Completion Target: 3rd Bone Spring Sand at approx 8900 feet TVD. Well Orientation:West to East Completion Location expected to be:standard
Well #3	Uraninite 32-33 State Fed Corn Well No. 336H, API No. 30-015-Pending SHL:1116 feet from the South line and 200 feet from the West line, (Unit M) of Section 32, Township 19 South, Range 29 East, NMPM. BHL:330 feet from the South line and 2619 feet from the West line, (Unit N) of Section 33, Township 19 South, Range 29 East, NMPM. Completion Target: 3rd Bone Spring Sand at approx 9000 feet TVD. Well Orientation:West to East Completion Location expected to be:standard
Horizontal Well First and Last Take Points	See Exhibit A-1 for the C-102s of the Uraninite wells
Completion Target (Formation, TVD and MD)	See Exhibit A-4 for the well proposals of the Uraninite wells. This data is also listed above with each well.
A/E Capex and Operating Costs	
Drilling Supervision/Month \$	Exhibit A ¶ 12
Production Supervision/Month \$	Exhibit A ¶ 12
Justification for Supervision Costs	Exhibit A, A-4
Requested Risk Charge	200%
Notice of Hearing	
Proposed Notice of Hearing	See Application
Proof of Mailed Notice of Hearing (20 days before hearing)	See Exhibit C-1
Proof of Published Notice of Hearing (10 days before hearing)	See Exhibit C-2
Ownership Determination	
Land Ownership Schematic of the Spacing Unit	Exhibit A-2
Tract List (including lease numbers and owners)	Exhibit A-2
Pooled Parties (including ownership type)	Exhibit A-2, A-3
Unlocatable Parties to be Pooled	N/A

Ownership Depth Severance (including percentage above & below)	N/A
Joinder	
Sample Copy of Proposal Letter	Exhibit A-4
List of Interest Owners (ie Exhibit A of JOA)	Exhibit A-2, A-3
Chronology of Contact with Non-Joined Working Interests	Exhibit A, A-3
Overhead Rates In Proposal Letter	Exhibit A ¶ 12
Cost Estimate to Drill and Complete	Exhibit A-4
Cost Estimate to Equip Well	Exhibit A-4
Cost Estimate for Production Facilities	Exhibit A-4
Geology	
Summary (including special considerations)	Exhibit B
Spacing Unit Schematic	Exhibit B-1
Gunbarrel/Lateral Trajectory Schematic	N/A
Well Orientation (with rationale)	Exhibit B, B-1, B-2, B-3, B-4
Target Formation	Exhibit B, B-1, B-2, B-3, B-4, B-5, B-6
HSU Cross Section	Exhibit B-5, B-6
Depth Severance Discussion	N/A
Forms, Figures and Tables	
C-102	Exhibit A-1
Tracts	Exhibit A-2
Summary of Interests, Unit Recapitulation (Tracts)	Exhibit A-2
General Location Map (including basin)	Exhibit B-1
Well Bore Location Map	Exhibit B-1
Structure Contour Map - Subsea Depth	Exhibit B-2
Cross Section Location Map (including wells)	Exhibit B-4
Cross Section (including Landing Zone)	Exhibit B-5, B-6
Additional Information	
CERTIFICATION: I hereby certify that the information provided in this checklist is complete and accurate.

**STATE OF NEW MEXICO
ENERGY, MINERALS AND NATURAL RESOURCES DEPARTMENT OIL
CONSERVATION DIVISION**

**APPLICATIONS OF DEVON ENERGY PRODUCTION
COMPANY, L.P. FOR COMPULSORY POOLING,
EDDY COUNTY, NEW MEXICO.**

CASE NOS. 20987

AFFIDAVIT OF KIRBY FOSTER HURD

Kirby Foster Hurd, of lawful age and being first duly sworn, declares as follows:

1. My name is Kirby Foster Hurd, and I am a Landman with Devon Energy Production Company, L.P. ("Devon").
2. I have previously testified before the New Mexico Oil Conservation Division as an expert witness in petroleum land matters, and my credentials have been accepted and made a matter of public record.
3. I am familiar with the application filed by Devon in this case and the status of the lands in the subject area.
4. None of the mineral owners to be pooled in this case have expressed opposition to this proceeding, so I do not expect any opposition at the hearing.
5. Devon seeks an order pooling all uncommitted interests in the Bone Spring formation underlying a 480-acre standard horizontal spacing unit comprised of the S/2 of Section 32 and the SW/4 of Section 33, Township 19 South, Range 29 East, NMPM, Eddy County, New Mexico. This standard horizontal spacing unit will be dedicated to the following initial proposed wells to be drilled at a depth sufficient to test the Bone Spring formation from common surface hole locations in the SW/4 SW/4 (Unit M) of Section 32:

- The **Uraninite 32-33 State Fed Com 334H Well** to be drilled from a surface hole location in the SW/4 SW/4 (Unit M) of Section 32 to a bottom hole location in the NE/4 SW/4 (Unit K) of Section 33.
- The **Uraninite 32-33 State Fed Com 335H Well** to be drilled from a surface hole location in the SW/4 SW/4 (Unit M) of Section 32 to a bottom hole location in the SE/4 SW/4 (Unit N) of Section 33.
- The **Uraninite 32-33 State Fed Com 336H Well** to be drilled from a surface hole location in the SW/4 SW/4 (Unit M) of Section 32 to a bottom hole location in the SE/4 SW/4 (Unit N) of Section 33.

6. The completed interval for the **Uraninite 32-33 State Fed Com 335H Well** will remain within 330 feet of the N/2 S/2 of Sections 32 and 33 to allow inclusion of these proximity tracts in a standard 480-acre horizontal spacing unit comprised of the S/2 of Section 32 and the SW/4 of Section 33. Incorporating proximity tracts, these wells will comply with the Division's setback requirements.

7. **Devon Exhibit No. A-1** contains the Form C-102s for the proposed wells. Devon has been advised by the District Office that this horizontal spacing unit is located in the following two pools: (1) the Parkway; Bone Spring Pool (49622), and (2) the Winchester; Bone Spring (65010).

8. **Devon Exhibit No. A-2** identifies the tracts of land comprising the proposed horizontal well spacing unit, which includes both state and federal lands. The tracts of land within the proposed horizontal spacing unit that are encompassed within the Winchester; Bone Spring (65010)), and within the Parkway; Bone Spring Pool (49622) are outlined in red. Devon has

identified on this exhibit, by tract and by pool, the working interest owners that remain to be pooled as well as the respective ownership interests in this proposed horizontal spacing unit.

9. Devon also seeks to pool the overriding royalty interest owners also identified on Exhibit A-3.

10. No ownership depth severances or unleased mineral interests exist within the proposed spacing units.

11. Devon Exhibit No. A-4 contains the well proposal letters and AFEs provided to the working interest owners Devon is seeking to pool. In addition to submitting these letters, Devon has undertaken good faith efforts to reach agreement with the mineral owners that it is seeks to pool. The costs reflected on each AFE are consistent with what Devon has incurred for drilling similar horizontal wells in the subject formation in this area.

12. Devon seeks approved overhead and administrative rates for the proposed wells at \$8,000 per month while drilling and \$800 per month while producing. These rates are consistent with what other operators are charging in this area for similar wells.

13. Devon has conducted a diligent search of county records and computer databases to locate addresses for the mineral owners it seeks to pool. I have provided the law firm of Holland & Hart LLP with these addresses and instructed that notice of this hearing be provided to the mineral owners Devon seeks to pool.

14. Exhibit Nos. A-1 through A-5 were either prepared by me or compiled under my direction and supervision.

FURTHER AFFIANT SAYETH NOT.

Kirby Foster Hurd

RE: Proposed Uraninite Working Interest Unit (960-acres)
All of Section 32 & W/2 of 33, T19S-29E, limited to
the Bone Spring formation (excluding existing wellbores)
Eddy County, New Mexico

Devon hereby proposes to form a 960-acre Working Interest Unit covering all of Section 32 and the W/2 of 33, T19S-R29E and proposes to drill the following wells:

Bone Spring Horizontal Spacing Unit: N/2 Sec. 32; NW/4 Sec. 33, T19S-R29E

Uraninite 32-33 State Fed Com 332H as a horizontal 3rd Bone Spring Sand test at an estimated surface location of 1030' FNL and 285' FWL of Section 32-19S-29E with an estimated bottom hole location at 1310' FNL and 2630' FWL of Section 33-19S-29E, Eddy County, New Mexico. Devon plans to drill the lateral in the 3rd Bone Spring at an estimated total vertical depth of 8,970' to an approximate 16,470' total measured depth. Enclosed is Devon's AFE for this well with estimated cost of \$6,594,158.33.

Uraninite 32-33 State Fed Com 333H as a horizontal 3rd Bone Spring Sand test at an estimated surface location of 1030' FNL and 255' FWL of Section 32-19S-29E with an estimated bottom hole location at 2200' FNL and 2630' FWL of Section 33-19S-29E, Eddy County, New Mexico. Devon plans to drill the lateral in the 3rd Bone Spring at an estimated total vertical depth of 8,885' to an approximate 16,385' total measured depth. Enclosed is Devon's AFE for this well with estimated cost of \$6,175,825.00.

The Devon proposed Uraninite 32-33 State Fed Com 332H will be the defining well for the above Bone Spring Horizontal Spacing Unit covering the N/2 Section 32 and NW/4 Section 33, T19S-R29E, Eddy County, New Mexico.

Bone Spring Horizontal Spacing Unit: S/2 Sec. 32; SW/4 Sec.33, T19S-R29E

Uraninite 32-33 State Fed Com 334H as a horizontal 3rd Bone Spring Sand test at an estimated surface location of 979' FSL and 238' FWL of Section 32-19S-29E with an estimated bottom hole location at 2200' FSL and 2630' FWL of Section 33-19S-29E, Eddy County, New Mexico. Devon plans to drill the lateral in the 3rd Bone Spring at an estimated total vertical depth of 8,980' to an approximate 16,480' total measured depth. Enclosed is Devon's AFE for this well with estimated cost of \$6,594,158.33.

Uraninite 32-33 State Fed Com 335H as a horizontal 3rd Bone Spring Sand test at an estimated surface location of 949' FSL and 238' FWL of Section 32-19S-29E with an estimated bottom hole location at 1310' FSL and 2630' FWL of Section 33-19S-29E, Eddy County, New Mexico. Devon

plans to drill the lateral in the 3rd Bone Spring at an estimated total vertical depth of 8,900' to an approximate 16,400' total measured depth. Enclosed is Devon's AFE for this well with estimated cost of \$6,175,825.00

Uraninite 32-33 State Fed Com 336H as a horizontal 3rd Bone Spring Sand test at an estimated surface location of 919' FSL and 238' FWL of Section 32-19S-29E with an estimated bottom hole location at 330' FSL and 2630' FWL of Section 33-19S-29E, Eddy County, New Mexico. Devon plans to drill the lateral in the 3rd Bone Spring at an estimated total vertical depth of 9,000' to an approximate 16,500' total measured depth. Enclosed is Devon's AFE for this well with estimated cost of \$6,175,825.00

The Devon proposed Uraninite 32-33 State Fed Com 335H will be the defining well for the above Bone Spring Horizontal Spacing Unit covering the S/2 Section 32 and SW/4 Section 33, T19S-R29E, Eddy County, New Mexico.

If you wish to participate in one or all of these wells, please execute and return the appropriate AFE(s), and a modified and superseding 2015 AAPL form of Operating Agreement will be forwarded for your review. The Operating Agreement will provide for 100%/300% non-consent penalties and overhead rates of \$8,000DWR/\$800PWR.

If you have any questions regarding this matter, please give me a call.

Sincerely,

Stephen Hoch

**STATE OF NEW MEXICO
DEPARTMENT OF ENERGY, MINERALS AND NATURAL RESOURCES OIL
CONSERVATION DIVISION**

**APPLICATION OF DEVON ENERGY PRODUCTION
COMPANY LP FOR COMPULSORY POOLING,
EDDY COUNTY, NEW MEXICO**

CASE NO. 20987

AFFIDAVIT OF SUSAN ESTES

Susan Estes, of lawful age and being first duly sworn, declares as follows:

1. My name is Susan Estes. I work for Devon Energy Production Company L.P. (“Devon”) as a geologist.
2. I have previously testified before the New Mexico Oil Conservation Division as an expert witness in petroleum geology. My credentials as a petroleum geologist have been accepted by the Division and made a matter of record.
3. I am familiar with the application filed by Devon Energy Production Company, L.P. in this case and I have conducted a geologic study of the Bone Spring Formation underlying the subject acreage.
4. Devon is targeting the Bone Spring Formation (3rd Bone Spring Sand interval) with the proposed Uraninite 32-33 State Fed Com 334H, Uraninite 32-33 State Fed Com 335H and Uraninite 32-33 State Fed Com 336H wells. The proposed wells traverse two different oil pools within the proposed Uraninite development block. The wells’ SFLs (surface locations) will be located in the Winchester Bone Spring pool (pool code 65010) and the BHLs (bottom hole locations) will be located in the Parkway pool (pool code 49622).
5. **Devon Exhibit No. B-1** is a map view of the execution plan for the 3rd Bone Spring

Sand in the Uraninite development block in Sections 32 and 33, Township 19S, Range 29E, Eddy County, New Mexico. The proposed wellbores are denoted by the solid red lines, with the BHL locations being depicted by the red circles (i.e. these are all 1.5-mile laterals drilling west to east). The proposed Standard Horizontal Spacing Units for the wells are depicted by the blue outlines or boxes. The team would normally plan for 6 wells per section based on recent success of the same spacing pattern in the Parkway West Unit directly north of the proposed Uraninite wells. However, since there is an existing Devon 3rd Bone Spring producer on the north side of the Uraninite development block in sections 29 and 28 (Onyx PWU 29-28 12H), the northernmost well (red dashed line, Uraninite 32-33 State Fed Com 331H) will not be drilled due to depletion from the north.

6. **Devon Exhibit No. B-2** is a subsea structure map that I prepared for the top of the 3rd Bone Spring G Sand. The Parkway West Unit outline is shown in black, while the adjacent, proposed Standard Horizontal Spacing Unit for the Uraninite wells is depicted by the blue outline or box. The contour interval is 20 feet and the proposed wellbore paths for the Uraninite 32-33 State Fed Com 334H, 335H and 336H wells are depicted by the red lines. Several offset 3rd Bone Spring horizontal producers are indicated by the blue triangles. The structure map shows that overall, the area is dipping to the southeast and into the basin but includes a few small, localized structural features. I do not observe any faulting, pinch-outs, or other geologic impediments or hazards to developing this targeted interval with a horizontal well.

7. **Devon Exhibit No. B-3** is a gross isopach map that I prepared for the 3rd Bone Spring Sand. As in the previous map, the proposed Standard Horizontal Spacing Unit for the wells is depicted by the blue outline or box and the adjacent Parkway West Unit outline is shown in black. The proposed wellbore paths for the Uraninite 32-33 State Fed Com 334 H, 335H and 336H

wells are denoted by the red lines. Several offset 3rd Bone Spring horizontal producers are indicated by the blue triangles. The contour interval is 10 feet and thickness of the 3rd Bone Spring Sand interval over the Uraninite development block ranges from approximately 380 to 425 feet.

8. **Devon Exhibit No. B-4** is a locator map with lines of section in and around the proposed Uraninite development block which is indicated by the blue outline or box, with the adjacent Parkway West Unit outline shown in black. There are two (2) lines of section shown on the map for cross-sections that I prepared to illustrate the consistent and contiguous nature of the 3rd Bone Spring Sand. The red line (A-A') is a strike section of type wells that penetrate the 3rd Bone Spring within and offsetting the Uraninite development block; the blue line (B-B') is a dip section of type logs that penetrate the 3rd Bone Spring within and offsetting the Uraninite development block.

9. **Devon Exhibit No. B-5** is a southwest to northeast strike section (A-A') illustrating the type wells (wells that are representative of the area) within and offsetting the Uraninite development block that penetrate the 3rd Bone Spring Sand; the line of section is shown on the inset map. Each well in the cross-section contains gamma ray, resistivity, and porosity logs. The 3rd Bone Spring Sand interval is labeled and depicted by the yellow shading; main target intervals are the F and G sands in the mid to lower part of the section. The cross-section demonstrates that the targeted interval extends across the proposed spacing and proration unit (i.e. is laterally contiguous) and is consistent in thickness and log character.

10. **Devon Exhibit No. B-6** is a northwest to south east dip section (B-B') illustrating the type wells (wells that are representative of the area) within and offsetting the Uraninite development block that penetrate the 3rd Bone Spring Sand; the line of section is shown on the inset map. Each well in the cross-section contains gamma ray, resistivity, and porosity logs. The

3rd Bone Spring interval is labeled and depicted by the yellow shading; main target intervals are the F & G sands in the mid to lower part of the section. The cross-section demonstrates that the targeted interval extends across the proposed spacing and proration unit (i.e. is laterally contiguous) and is consistent in thickness and log character.

11. In my opinion the west to east orientation of the proposed wells in the Bone Spring formation is appropriate in order to effectively drain the targeted reservoirs and is effectively perpendicular to the maximum stress regime observed in the area.

12. Based on my geologic study of the area, the Bone Spring Formation underlying the subject area is suitable for development by horizontal wells and the acreage comprising the proposed spacing and proration units will contribute more-or-less equally to the production from the wellbores.

13. In my opinion, the granting of Devon's application will be in the best interest of conservation, the prevention of waste, and protection of correlative rights.

14. Exhibit Nos. B-1 through B-6 were either prepared by me or compiled under my direction and supervision.

FURTHER AFFIANT SAYETH NOT.

Uraninite 32-33 State Fed Com 336H Well

Ladies & Gentlemen:

This letter is to advise you that Devon Energy Production Company, L.P., has filed the enclosed application with the New Mexico Oil Conservation Division. This application requests a hearing before a Division Examiner at 8:15 a.m. on January 9, 2020, and the status of the hearing can be monitored through the Division's website at <http://www.emnrd.state.nm.us/ocd/>. The hearing will be held in Porter Hall in the Oil Conservation Division's Santa Fe Offices, located at 1220 South Saint Francis Drive, Santa Fe, New Mexico 87505. You are not required to attend this hearing, but as an owner of an interest that may be affected by this application, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from subsequently challenging this matter.

Parties appearing in cases are required by Division Rule 19.15.4.13.B to file a Pre-hearing Statement four business days in advance of a scheduled hearing. This statement must be filed at the Division's Santa Fe office at the above specified address and should include: the names of the parties and their attorneys; a concise statement of the case; the names of all witnesses the party will call to testify at the hearing; the approximate time the party will need to present its case; and identification of any procedural matters that are to be resolved prior to the hearing.

If you have any questions about this matter, please contact Kirby Foster Hurd at (405) 228-8261, or at Kirby.Foster@dvn.com

Sincerely,

Michael H. Feldewert

BEFORE THE OIL CONSERVATION DIVISION
Santa Fe, New Mexico
Exhibit No. C2
Submitted by: Devon Energy Production
Hearing Date: January 09, 2020
Case No 20987

STATE OF NEW MEXICO
ENERGY, MINERALS AND NATURAL RESOURCES
DEPARTMENT
OIL CONSERVATION DIVISION
SANTA FE, NEW MEXICO

The State of New Mexico, Energy Minerals and Natural Resources Department, Oil Conservation Division ("Division") hereby gives notice that the Division will hold a public hearing before a hearing examiner on January 9, 2020, 8:15 a.m., in Porter Hall, 1st Floor, Wendell Chino Building, 1220 South St. Francis, Santa Fe, New Mexico. The docket may be viewed electronically on the Division's website, <http://www.emnrd.state.nm.us/OCD/hearings.html> or obtained from Florene Davidson, OCD Clerk, at (505) 476-3458. Documents filed in the case may be viewed at <http://ocdimage.emnrd.state.nm.us/imaging/CaseFileCriteria.aspx>. If you are an individual with a disability who needs a reader, amplifier, qualified sign language interpreter, or other form of auxiliary aid or service to attend or participate in the hearing, contact Florene Davidson, OCD Clerk, at (505) 476-3458, or at the New Mexico Relay Network, 1-800-659-1779, no later than December 29, 2019.

Case No. 20987: Application of Devon Energy Production Company, L.P. for compulsory pooling, Eddy County, New Mexico. Applicant in the above-styled cause seeks an order pooling all uncommitted interest owners in the Bone Spring formation underlying a standard 480-acre horizontal spacing unit comprised of the S/2 of Section 32 and the SW/4 of Section 33, Township 19 South, Range 29 East, NMPM, Eddy County, New Mexico. Applicant seeks to dedicate the above-referenced horizontal spacing unit to three initial proposed wells: (1) the Uraninite 32-33 State Fed Com 334H Well, (2) the Uraninite 32-33 State Fed Com 335H Well, and (3) the Uraninite 32-33 State Fed Com 336H Well. These wells will be horizontally drilled from a common surface location in the SW/4 SW/4 (Unit M) of Section 32 to bottom hole locations in the NE/4 SW/4 (Unit K) and the SE/4 SW/4 (Unit N) of Section 33. The completed interval of the Uraninite 32-33 State Fed Com 335H Well will remain within 330 feet of the N/2 S/2 of Section 32 and the S/2 NW/4 of Section 33 to allow inclusion of these proximity tracts into a standard 480-acre horizontal well spacing comprised of the S/2 of Section 32 and the SW/4 of Section 33. Also, to be considered will be the cost of drilling and completing the wells, the allocation of the costs thereof, the actual operating costs and charges for supervision, the designation of the Applicant as operator, and the imposition of a 200% charge for risk involved in drilling and completing the well. Said area is located approximately 15 miles northeast of Carlsbad, New Mexico. #3965491, Current Argus, Dec. 24, 2019
