FOR A STANDARD HORIZONTAL SPACING
AND PRORATION UNIT AND COMPULSORY POOLING,
LEA COUNTY, NEW MEXICO**

Case Nos. 20596 & 20597

AFFIDAVIT OF ERICA HIXSON

I, being duly sworn on oath, state the following:

1. I am over the age of eighteen years and have the capacity to execute this Affidavit, which is based on my personal knowledge.

2. I am employed as a Landman with Tap Rock Operating, LLC ("Tap Rock"), and I am familiar with the subject application and the lands involved.

3. This affidavit is submitted in connection with the filing by Tap Rock of the above-referenced compulsory pooling applications pursuant to 19.15.4.12.A(1) NMAC.

4. I have previously testified before the New Mexico Oil Conservation Division as an expert witness in petroleum land matters. My credentials as a petroleum landman have been accepted by the Division and made a matter of record.

5. The purpose of this application is to force pool working interest owners into the horizontal spacing units ("HSUs") described below, and in the wells to be drilled in the units.

6. No opposition is expected. EOG Resources, Inc. ("EOG") and MRC Permian Company ("MRC") were contacted regarding the proposed well and have each entered an appearance in these cases. Tap Rock continues to work toward a voluntary agreement with both EOG and MRC.

EXHIBIT /

7. Tap Rock seeks an order pooling all mineral interests in the Pitchfork Ranch; Wolfcamp Pool, Code #50375 underlying the W/2E/2 & E/2E/2 of Section 34, Township 24 South, Range 34 East, NMPM, Lea County, New Mexico. The proposed 160-acre spacing units will be dedicated to the **Frightened Turtle Fed Com #133H and Frightened Turtle Fee #134H** wells, respectively, as the defining wells for the units.

8. A proposed C-102 for each well is attached as **Exhibit 1A and Exhibit 1B**. The wells will develop the Pitchfork Ranch; Wolfcamp; Pool code [50375], which is an oil pool.

9. The proposed surface hole location of the **Frightened Turtle Fed Com #133H well** is approximately 316' FSL and 1235' FEL of Section 34. The proposed bottom hole location is approximately 30' FNL and 2309' FEL of Section 34. The proposed total vertical depth is 12,445'. The first take point will be located at approximately 100' FSL and 2309' FEL of Section 34 and the last take point will be located at approximately 100' FNL and 2309' FEL of Section 34. The proposed surface hole location of the **Frightened Turtle Fee #134H well** is approximately 341' FSL and 1235' FEL of Section 34. The proposed bottom hole location is approximately 30' FNL and 331' FEL of Section 34. The proposed total vertical depth is 12,500'. The first take point will be located at approximately 100' FSL and 331' FEL of Section 34 and the last take point will be located at approximately 100' FNL and 331' FEL of Section 34.

10. A tract map containing the composition of each of the HSUs is attached hereto as **Exhibit 2** and shows that the Frightened Turtle Fed Com #133H HSU is comprised of one Fee lease and one Federal lease and the Frightened Turtle Fee #134H HSU is comprised of two Fee leases.

11. The parties being pooled and the nature of their interest are found in **Exhibit 3A** and **Exhibit 3B** attached hereto. **Exhibit 3A** and **Exhibit 3B** also include information regarding

working interest owners and overriding royalty interest owners. Tap Rock has Fee lease expirations beginning in October 2020.

12. There are no depth severances in the Wolfcamp formation in either of the proposed HSUs.

13. I have conducted a diligent search of the public records in Lea County, New Mexico, where the wells will be located, and conducted phone directory and computer searches to obtain contact information for parties entitled to notification. I mailed all parties well proposals, including an Authorization for Expenditure ("AFE").

14. Tap Rock has made a good faith effort to obtain voluntary joinder of the working interest owners in the proposed wells.

15. **Exhibit 4A** is a sample proposal letter and the AFE for the proposed **Frightened Turtle Fed Com #133H Well**. **Exhibit 4B** is a sample proposal letter and the AFE for the proposed **Frightened Turtle Fee Com #134H Well**. The estimated cost of each of the wells set forth in the AFE is fair, reasonable, and comparable to the costs of other wells of similar depths and lengths drilled in this area of New Mexico.

16. Tap Rock requests overhead and administrative rates of \$7000/month for drilling a well and \$700/month for a producing well. These rates are fair and comparable to the rates charged by other operators for wells of this type in this area of southeastern New Mexico. Tap Rock requests that these rates be adjusted periodically as provided in the COPAS Accounting Procedure.

17. Tap Rock requests the maximum cost, plus 200% risk charge be assessed against non-consenting working interest owners.

18. Tap Rock requests that it be designated operator of the wells.

19. The Exhibits to this Affidavit were prepared by me, or compiled from Tap Rock's company business records.

20. The granting of this Application is in the interests of conservation, the prevention of waste, and the protection of correlative rights.

21. The foregoing is correct and complete to the best of my knowledge and belief.

Re: Frightened Turtle Fed Com #133H

Ladies and Gentlemen:

Tap Rock Operating, LLC (TRO), as Operator, previously proposed to drill the Frightened Turtle Fed Com #203, #206, #213, and #216 by letter dated 2/13/2019 (the "February Proposal"). TRO's plan with regard to the aforementioned wells has changed as follows.

TRO hereby rescinds the February Proposal and anticipates re-proposing those additional Wolfcamp wells contained in the February Proposal at a later date. TRO now plans to drill and complete the Frightened Turtle Fed Com #133H (the "Well") as the initial well in the Wolfcamp Formation to satisfy lease obligations in a timely manner.

Accordingly, TRO hereby proposes the Well, with an anticipated spud date of March 2020 and an approximate first production date of June 2020.

In connection with the above, please note the following:

- The proposed surface location of the Well is approximately 1225' FEL and 290' FSL of Section 34, Township 24 South, Range 34 East, Lea County, New Mexico. The proposed bottom hole location of the Well is 2310' FEL and 30' FNL of Section 34, Township 24 South, Range 34 East, Lea County, New Mexico.
- The Well will have a targeted interval within the Wolfcamp formation. TRO plans to drill the Well horizontally at approximately 12,445' Total Vertical Depth to a Total Measured Depth of approximately 17,855', with an approximate lateral length of 4,500'.
- Enclosed is an AFE dated April 4, 2019 that details the total cost to drill and complete the Well. The Well will require a Central Tank Battery. A separate facility AFE is provided for your review. For the purposes of this proposal, an election in the Well is considered an election to participate in the Well's proportionate share of the overall facility cost.

The proposed locations and drilling plans described above are subject to change depending on surface or subsurface issues that may be encountered. TRO will advise you of any such modifications.

EXHIBIT 4A
CASE NOS.
20596 & 20597

9B

TRO is proposing the Operation under the terms of the enclosed AAPL Form 610-1989 Operating Agreement (the "Operating Agreement"). The Operating Agreement covers All Depths for the W/2E/2 of Section 34, Township 24 South, Range 34 East, Lea County, New Mexico (the "Contract Area"). As detailed in Article XVI, the Operating Agreement supersedes existing Operating Agreements insofar as to the Contract Area and only insofar as to wells spud after the effective date of the Operating Agreement. The working interest percentages shown in Exhibit "A" of the Operating Agreement is approximate and subject to change pending title verification.

In the event you elect to participate in the proposed Well, please execute a copy of this letter and the enclosed AFE and return to the undersigned within 30 days. If you do not wish to participate in the Well, TRO would like to offer the following terms for a Lease or Term Assignment, whichever is applicable:

- 3 year primary term
- Royalty or Overriding Royalty equal to the difference between existing burdens and 20%
- \$7,500 per net acre bonus consideration

The Lease or Term Assignment offer is subject to the approval of TRO's board and verification of title.

TRO is open to discuss trades or other deal structures related to your interest in the Well. If an agreement cannot be reached within 30 days of your receipt of this letter, TRO will apply to the New Mexico Oil Conservation Division for compulsory pooling of your interest into a spacing unit for the Well if uncommitted at such time to allow TRO to move forward with planning and drilling the Well.

Should you have any questions regarding the above, please contact the undersigned.

Sincerely,

TAP ROCK OPERATING, LLC

Re: Frightened Turtle Fee #134H

Ladies and Gentlemen:

Tap Rock Operating, LLC (TRO), as Operator, previously proposed to drill the Frightened Turtle Fee #204H, #208H, #214H, and #218H by letter dated 2/13/2019 (the "February Proposal"). TRO's plan with regard to the aforementioned wells has changed as follows.

TRO hereby rescinds the February Proposal and anticipates re-proposing those additional Wolfcamp wells contained in the February Proposal at a later date. TRO now plans to drill and complete the Frightened Turtle Fee #134H (the "Well") as the initial well in the Wolfcamp Formation to satisfy lease obligations in a timely manner.

Accordingly, TRO hereby proposes the Well, with an anticipated spud date of March 2020 and an approximate first production date of June 2020.

In connection with the above, please note the following:

- The proposed surface location of the Well is approximately 1195' FEL and 290' FSL of Section 34, Township 24 South, Range 34 East, Lea County, New Mexico. The proposed bottom hole location of the Well is 330' FEL and 30' FNL of Section 34, Township 24 South, Range 34 East, Lea County, New Mexico.
- The Well will have a targeted interval within the Wolfcamp formation. TRO plans to drill the Well horizontally at approximately 12,500' Total Vertical Depth to a Total Measured Depth of approximately 17,910', with an approximate lateral length of 4,500'.
- Enclosed is an AFE dated April 4, 2019 that details the total cost to drill and complete the Well. The Well will require a Central Tank Battery. A separate facility AFE is provided for your review. For the purposes of this proposal, an election in the Well is considered an election to participate in the Well's proportionate share of the overall facility cost.

The proposed locations and drilling plans described above are subject to change depending on surface or subsurface issues that may be encountered. TRO will advise you of any such modifications.

EXHIBIT 4B
CASE NOS.
20596 & 20597

13

TRO is proposing the Operation under the terms of the enclosed AAPL Form 610-1989 Operating Agreement (the "Operating Agreement"). The Operating Agreement covers All Depths for the E/2E/2 of Section 34, Township 24 South, Range 34 East, Lea County, New Mexico (the "Contract Area"). As detailed in Article XVI, the Operating Agreement supersedes existing Operating Agreements insofar as to the Contract Area and only insofar as to wells spud after the effective date of the Operating Agreement. The working interest percentages shown in Exhibit "A" of the Operating Agreement are approximate and subject to change pending title verification.

In the event you elect to participate in the proposed Well, please execute a copy of this letter and the enclosed AFE and return to the undersigned within 30 days. If you do not wish to participate in the Well, TRO would like to offer the following terms for a Lease or Term Assignment, whichever is applicable:

- 3 year primary term
- Royalty or Overriding Royalty equal to the difference between existing burdens and 20%
- \$7,500 per net acre bonus consideration

The Lease or Term Assignment offer is subject to the approval of TRO's board and verification of title.

TRO is open to discuss trades or other deal structures related to your interest in the Well. If an agreement cannot be reached within 30 days of your receipt of this letter, TRO will apply to the New Mexico Oil Conservation Division for compulsory pooling of your interest into a spacing unit for the Well if uncommitted at such time to allow TRO to move forward with planning and drilling the Well.

Should you have any questions regarding the above, please contact the undersigned.

Sincerely,

TAP ROCK OPERATING, LLC

Erica Hixson

STATE OF NEW MEXICO
DEPARTMENT OF ENERGY, MINERALS AND NATURAL RESOURCES
OIL CONSERVATION DIVISION

APPLICATION OF TAP ROCK OPERATING, LLC
FOR A STANDARD HORIZONTAL SPACING
AND PRORATION UNIT AND COMPULSORY POOLING,
LEA COUNTY, NEW MEXICO

Case No. 20596 & 20597

AFFIDAVIT OF EMILY LANGE

I, being duly sworn on oath, state the following:

1. I am over the age of 18, and I have personal knowledge of the matters stated herein.
2. I am employed as a petroleum geologist for Tap Rock Operating, LLC ("Tap Rock"), and I am familiar with the subject applications and the geology involved.
3. This affidavit is submitted in connection with the filing by Tap Rock of the above-referenced compulsory pooling applications pursuant to 19.15.4.12.A(1) NMAC.
4. I have previously testified before the New Mexico Oil Conservation Division as an expert witness in petroleum geology matters. My credentials as a petroleum geologist have been accepted by the Division and made a matter of record.
 - a. I hold a Bachelor's degree in Geology from the University of Southern California, which I completed in 2012. I am currently working towards a Master's degree in Geology at Southern Methodist University.
 - b. I have been employed as a petroleum geologist since 2013. I have worked in New Mexico since 2015.
5. **Exhibit 6** is a Project Locator Map depicting the location of the Horizontal Spacing Units (HSUs) within the Delaware Basin.

EXHIBIT

2

6. **Exhibit 7** is a Wolfcamp structure map. The proposed HSUs are depicted by a red rectangle. The map is the top of the Wolfcamp A gross formation in sub-sea vertical depth. The contour intervals are 25 ft each. There is a monoclinial dip down to the southeast. The orientation of the Frightened Turtle Fed Com 133H and Frightened Turtle Fee Com 134H will each be approximately along strike. There are no horizontal wells in the direct vicinity that have targeted a similar interval. The horizontals on the map have targeted zones in both the Bone Spring and Upper Wolfcamp. The nearby Wolfcamp A wells are specifically noted by a red circle. The vertical wells controlling the structure map have the sub-sea vertical depth posted in gray. The subsequent cross-section from A-A' is also identified to locate our closest control on the reservoir properties for the Frightened Turtle Fed Com #133H and the Frightened Turtle Fee Com #134H. I do not observe any faulting, pinch-outs, or other geologic impediments or hazards to developing this targeted interval with a horizontal well.

7. **Exhibit 8** is a Wolfcamp stratigraphic cross-section. Each well is a triple combo log. Track 1 has a gamma ray log with interpreted color fill for lithology and scaled from 0 to 200 api units and a caliper log scaled from 0 to 16. For gamma ray, the blue colors indicate carbonate, yellow to orange are sandstone/siltstones, and the darker browns are shale facies. For caliper, higher values indicate irregularities in hole diameter. Track 2 has the deep resistivity log, scaled from 0.2 ohmm to 2000 ohmm. The blue shading cutoff is at 50 ohmm or less to help identify the more siliciclastic rocks. Track 3 is the porosity track and contains the red neutron porosity curve and the blue density porosity curve, both scaled from 30% to -10%. The pink shading on the neutron porosity curve highlights anything greater than 15% to identify zones with increased clay content. The green shading on the density porosity curve highlights anything greater than 10% porosity. This cutoff indicates the best rock properties for reservoir evaluation. The cross-section

identifies the key tops used to evaluate reservoirs and landing targets for the Frightened Turtle Fed Com #133H and the Frightened Turtle Fee Com #134H. A simplified wellbore for the Frightened Turtle Fed Com #133H and the Frightened Turtle Fee Com #134H is on the cross-section showing the landing target interval in the green shaded box. The targeted reservoir has a constant thickness of approximately 200' and exhibits constant reservoir facies throughout each of the HSUs.

8. **Exhibit 9** is a Gross Isopach map of the Wolfcamp A Upper interval. This map shows the location of the Frightened Turtle spacing unit outlined by the red box, and the surface/bottom hole location of the Frightened Turtle Fed Com #133H and the Frightened Turtle Fee Com #134H wells. The anticipated gross thickness of the interval is 430 ft throughout each of the HSUs. There are no horizontal wells that have targeted this interval in the direct vicinity, and all the horizontals shown on the map are landed in other zones in the Bone Spring and Wolfcamp Formations. The location of the previous cross-section from A-A' is also shown on this map.

9. Based on my geologic study of the area, I conclude the following:
 - a. The horizontal spacing and proration units are justified from a geologic standpoint.
 - b. There are no structural impediments or faulting that will interfere with horizontal development.
 - c. Each quarter-quarter section in the unit will contribute more or less equally to production.
 - d. The preferred well orientation in this area is south-north. This is because the inferred orientation of the maximum horizontal stress is roughly northwest-southeast.

10. **Exhibit 10** and **Exhibit 11** each show a Simplified Wellbore Diagram for the initial wells in each HSU and demonstrate that the first and last take points for each well will be standard.

11. The Exhibits to this Affidavit were prepared by me, or compiled from Tap Rock's company business records.

12. The granting of this Application is in the interests of conservation and the prevention of waste.

13. The foregoing is correct and complete to the best of my knowledge and belief.

FURTHER AFFIANT SAYETH NAUGHT

APPLICATIONS OF TAP ROCK RESOURCES,
LLC FOR COMPULSORY POOLING, LEA COUNTY,
NEW MEXICO.

Case Nos. 20596 and 20597

SELF-AFFIRMED STATEMENT OF NOTICE

COUNTY OF SANTA FE)
) ss.
STATE OF NEW MEXICO)

James Bruce deposes and states:

1. I am over the age of 18, and have personal knowledge of the matters stated herein.
2. I am an attorney for Tap Rock Resources, LLC.
3. Tap Rock Resources, LLC has conducted a good faith, diligent effort to find the names and correct addresses of the interest owners entitled to receive notice of the applications filed herein.
4. Notice of the applications was provided to the interest owners, at their last known addresses, by certified mail. Copies of the notice letter and certified return receipts are attached hereto as Attachment A.
5. Applicant has complied with the notice provisions of Division Rules.
6. I understand that this Self-Affirmed Statement will be used as written testimony in this case. I affirm that my testimony in paragraphs 1 through 5 above is true and correct and is made under penalty of perjury under the laws of the State of New Mexico. My testimony is made as of the date handwritten next to my signature below.

CERTIFIED MAIL – RETURN RECEIPT REQUESTED

To: Persons on Exhibit A

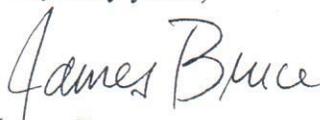

Ladies and gentlemen:

Enclosed are copies of two applications for compulsory pooling, filed with the New Mexico Oil Conservation Division by Tap Rock Resources, LLC, regarding Wolfcamp wells in (a) the W/2E/2 of Section 34 (Case No. 20596), and (a) the E/2E/2 of Section 34 (Case No. 20597), all in Township 24 South, Range 34 East, NMPM, Lea County, New Mexico.

These matters are scheduled for hearing at 8:15 a.m. on Thursday, July 11, 2019, in Porter Hall at the Division's offices at 1220 South St. Francis Drive, Santa Fe, New Mexico 87505. You are not required to attend this hearing, but as an interest owner that may be affected by these applications, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from contesting these matters at a later date.

A party appearing in a Division case is required by Division Rules to file a Pre-Hearing Statement no later than Wednesday, July 3, 2018. This statement must be filed with the Division's Santa Fe office at the above address, and should include: The names of the party and its attorney; a concise statement of the case; the names of the witnesses the party will call to testify at the hearing; the approximate time the party will need to present its case; and identification of any procedural matters that need to be resolved prior to the hearing. The Pre-Hearing Statement must also be provided to the undersigned.

Very truly yours,

James Bruce

Attorney for Tap Rock Resources, LLC

COUNTY OF LEA

I, Daniel Russell, Publisher of the Hobbs News-Sun, a newspaper published at Hobbs, New Mexico, solemnly swear that the clipping attached hereto was published in the regular and entire issue of said newspaper, and not a supplement thereof for a period of 1 issue(s).

Beginning with the issue dated
June 26, 2019
and ending with the issue dated
June 26, 2019.

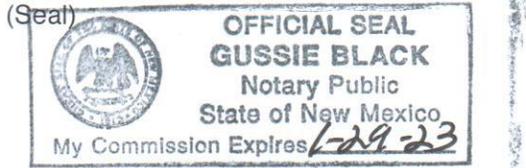

Publisher

Sworn and subscribed to before me this
26th day of June 2019.

Business Manager

My commission expires
January 29, 2023

This newspaper is duly qualified to publish legal notices or advertisements within the meaning of Section 3, Chapter 167, Laws of 1937 and payment of fees for said

LEGAL NOTICE JUNE 26, 2019

To: Chief Capital O&G II LLC, Chisos Minerals, LLC, COG Operating LLC, Energen Resources Corporation, EOG Resources, Inc., EOG Resources Assets, G. Dan Thompson, GGM Exploration, Inc., Marathon Oil Permian, LLC, MRC Permian Company, Nuray K. Pace, Legal Guardian of Aleya Nuray Pace and Tara Nuray Pace, Pegasus Resources, LLC, Tilden Capital Minerals, LLC, Ozark Royalty Co., LLC, Timothy Brennan, TE-Ray Resources, Inc., Chilmark Properties, LLC, Robert E. Landreth, and Donna P. Landreth, or your heirs, devisees, successors, or assigns: Tap Rock Resources, LLC has applied to the Oil Conservation Division seeking an order pooling all mineral interests in the Wolfcamp formation underlying the following well units: (a) the W/2E/2 of Section 34 (Case No. 20596); and (a) the E/2E/2 of Section 34 (Case No. 20597), all in Township 24 South, Range 34 East, NMPM, Lea County, New Mexico. Also to be considered will be the cost of drilling and completing the wells and the allocation of the cost thereof, as well as actual operating costs and charges for supervision, designation of Tap Rock Operating, LLC as operator of the wells, and a 200% charge for the risk involved in drilling and completing the wells. The applications are scheduled to be heard at 8:15 a.m. on July 11, 2019 at the Division's offices at 1220 South St. Francis Drive, Santa Fe, New Mexico 87505. As an interest owner to the well units you have the right to enter an appearance and participate in the cases. Failure to appear will preclude you from contesting these matters at a later date. The attorney for applicant is James Bruce, P.O. Box 1056, Santa Fe, New Mexico 87504. The units are located approximately 15-1/2 miles west-northwest of Jal, New Mexico.

Signed Name (Attorney or Party Representative):	
Date:	January 22, 2020

STATE OF NEW MEXICO
DEPARTMENT OF ENERGY, MINERALS AND NATURAL RESOURCES
OIL CONSERVATION DIVISION

APPLICATION OF TAP ROCK RESOURCES,
LLC FOR COMPULSORY POOLING, LEA
COUNTY, NEW MEXICO.

Case No. 20596

APPLICATION

Tap Rock Resources, LLC applies for an order pooling all uncommitted mineral interests in the Wolfcamp formation underlying a horizontal spacing unit comprised of the W/2E/2 of Section 34, Township 24 South, Range 34 East, NMPM, Lea County, New Mexico, and in support thereof, states:

1. Applicant is a working interest owner in the W/2E/2 of Section 34, and has the right to drill a well thereon.
2. Applicant proposes to drill the Frightened Turtle Fed. Com. Well No. 133H to a depth sufficient to test the Wolfcamp formation. The W/2E/2 of Section 34 will be dedicated to the well.
3. Applicant has in good faith sought to obtain voluntary joinder of all other mineral interest owners in the W/2E/2 of Section 34.
4. Although applicant attempted to obtain to obtain voluntary agreements from all mineral interest owners to participate in the drilling of the well or to otherwise commit their interests to the well, certain interest owners have failed or refused to join in dedicating their interests. Therefore, applicant seeks an order pooling all mineral interest owners in the Wolfcamp formation underlying the W/2E/2 of Section 34, pursuant to NMSA 1978 §70-2-17.

EXHIBIT

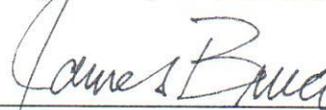

6A

5. The pooling of mineral interests in the Wolfcamp formation underlying the W/2E/2 of Section 34 will avoid the drilling of unnecessary wells, prevent waste, and protect correlative rights.

WHEREFORE, applicant requests that, after notice and hearing, the Division enter its order:

- A. Pooling all uncommitted mineral interests in Wolfcamp formation underlying the W/2E/2 of Section 34;
- B. Designating Tap Rock Operating, LLC as operator of the well;
- C. Considering the cost of drilling and completing the well, and allocating the costs thereof among the well's working interest owners;
- D. Approving actual operating charges and costs charged for supervision, together with a provision adjusting the rates pursuant to the COPAS accounting procedure; and
- E. Setting a 200% charge for the risk assumed by applicant in drilling and completing the well in the event a working interest owner elects not to participate in the well.

Respectfully submitted,

James Bruce

Case No. _____:

Application of Tap Rock Resources, LLC for a compulsory pooling, Lea County, New Mexico.
Tap Rock Resources, LLC seeks an order pooling all mineral interests in the Wolfcamp formation underlying a horizontal spacing unit comprised of the W/2E/2 of Section 34, Township 24 South, Range 34 East, NMPM, Lea County, New Mexico. The unit will be dedicated to the Frightened Turtle Fed. Com. Well No. 133H. Also to be considered will be the cost of drilling and completing the well and the allocation of the cost thereof, as well as actual operating costs and charges for supervision, designation of Tap Rock Operating, LLC as operator of the well, and a 200% charge for the risk involved in drilling and completing the well. The unit is located approximately 15-1/2 miles west-northwest of Jal, New Mexico.

STATE OF NEW MEXICO
DEPARTMENT OF ENERGY, MINERALS AND NATURAL RESOURCES
OIL CONSERVATION DIVISION

APPLICATION OF TAP ROCK RESOURCES,
LLC FOR COMPULSORY POOLING, LEA
COUNTY, NEW MEXICO.

Case No. 20597

APPLICATION

Tap Rock Resources, LLC applies for an order pooling all uncommitted mineral interests in the Wolfcamp formation underlying a horizontal spacing unit comprised of the E/2E/2 of Section 34, Township 24 South, Range 34 East, NMPM, Lea County, New Mexico, and in support thereof, states:

1. Applicant is a working interest owner in the E/2E/2 of Section 34, and has the right to drill a well thereon.
2. Applicant proposes to drill the Frightened Turtle Fee Well No. 134H to a depth sufficient to test the Wolfcamp formation. The E/2E/2 of Section 34 will be dedicated to the well.
3. Applicant has in good faith sought to obtain voluntary joinder of all other mineral interest owners in the E/2E/2 of Section 34.
4. Although applicant attempted to obtain to obtain voluntary agreements from all mineral interest owners to participate in the drilling of the well or to otherwise commit their interests to the well, certain interest owners have failed or refused to join in dedicating their interests. Therefore, applicant seeks an order pooling all mineral interest owners in the Wolfcamp formation underlying the E/2E/2 of Section 34, pursuant to NMSA 1978 §70-2-17.

EXHIBIT

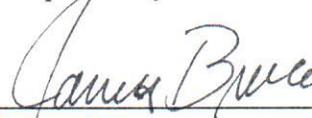

6B

5. The pooling of mineral interests in the Wolfcamp formation underlying the E/2E/2 of Section 34 will avoid the drilling of unnecessary wells, prevent waste, and protect correlative rights.

WHEREFORE, applicant requests that, after notice and hearing, the Division enter its order:

- A. Pooling all uncommitted mineral interests in Wolfcamp formation underlying the E/2E/2 of Section 34;
- B. Designating Tap Rock Operating, LLC as operator of the well;
- C. Considering the cost of drilling and completing the well, and allocating the costs thereof among the well's working interest owners;
- D. Approving actual operating charges and costs charged for supervision, together with a provision adjusting the rates pursuant to the COPAS accounting procedure; and
- E. Setting a 200% charge for the risk assumed by applicant in drilling and completing the well in the event a working interest owner elects not to participate in the well.

Respectfully submitted,
