Case No. 21222

SELF-AFFIRMED STATEMENT OF TYLER JOLLY

COUNTY OF MIDLAND)
) ss.
STATE OF TEXAS)

Tyler Jolly deposes and states:

1. I am a landman for Mewbourne Oil Company ("Mewbourne"), and have personal knowledge of the matters stated herein. I have been qualified by the Division as an expert petroleum landman.

2. Pursuant to Division Rules, the following information is submitted in support of the compulsory pooling applications:

(a) The purpose of these applications is to force pool working interest owners into the horizontal spacing units described below, and in wells to be drilled in the units.

(b) No opposition is expected because the interest owners being pooled were first contacted over four months ago regarding the proposed wells, but have simply failed or refused to voluntarily commit their interests to the wells. No one has objected to the applications.

(c) Plats outlining the units being pooled are attached hereto as Attachments A-1 and A-2, together with Forms C-102 for each well. Mewbourne seeks orders pooling all mineral interests in the Bone Spring formation (Case No. 21221) in a horizontal spacing unit comprised of the S/2S/2 of Section 9 and the S/2S/2 of Section 10, and the Wolfcamp

formation (Case No. 21222) in horizontal spacing unit comprised of the S/2 of Section 9 and the S/2 of Section 10, Township 20 South, Range 29 East, NMPM.

(d) The following wells will be dedicated to the well units:

(i) In Case No. 21221, the Perazzi 9-10 B3MP Fed. Well No. 1H, a Third Bone Spring horizontal well with a first take point in the SW/4SW/4 of Section 9 and a last take point in the SE/4SE/4 of Section 10; and

(ii) In Case No. 21222, the Perazzi 9-10 W0MP Fed. Com. Well No. 1H, an upper Wolfcamp horizontal well with a first take point in the SW/4SW/4 of Section 9 and a final take point in the SE/4SE/4 of Section 10.

(e) There are no depth severances in the Bone Spring or Wolfcamp formations.

(f) The parties being pooled and their interests are set forth in Attachment B. Their current or last known addresses are also set forth. All interest owners were locatable in Case No. 21221. In Case No. 21222 two letters were not deliverable because the owners moved without leaving a forwarding address with the Post Office.

In order to locate all interest owners Mewbourne examined the records of Eddy County and the Bureau of Land Management, as well as online tools or databases such as DrillingInfo, Eddy County records, and in-house data searches.

(g) Attachments B-1 and B-2 lists the working interest owners in each well, together with their percentage interests. Exhibit C contains copies of the well proposals sent to the interest owners, including follow-up e-mails with owners who had questions about the proposals

(h) Mewbourne has made a good faith effort to obtain the voluntary joinder of the working interest owners in the proposed wells, or to locate the interest owners.

(i) Mewbourne has the right to pool the overriding royalty owners in the well units.

(j) Exhibits D-1 and D-2 contain the Authorizations for Expenditure for the proposed wells. The estimated costs of the wells are fair and reasonable, and are comparable to the costs of other wells of similar depths and length drilled in this area of Eddy County.

(k) Mewbourne requests overhead and administrative rates of \$8000/month for a drilling well and \$800/month for a producing well. These rates are fair, and comparable to the rates charged by other operators for wells of this type in this area of Eddy County. They are also the rates set forth in the Joint Operating Agreements for the well units. Mewbourne requests that these rates be adjusted periodically as provided in the COPAS Accounting Procedure.

(l) Mewbourne requests that the maximum cost plus 200% risk charge be assessed against non-consenting working interest owners.

(m) Mewbourne requests that it be designated operator of the wells.

(n) The attachments to this affidavit were prepared by me or under my supervision, or compiled from company business records.

(o) The granting of these applications is in the interests of conservation and the prevention of waste.

3. I understand that this Self-Affirmed Statement will be used as written testimony in these cases. I affirm that my testimony in paragraphs 1 through 2(o) above is true and correct and is made under penalty of perjury under the laws of the State of New Mexico. My testimony is made as of the date handwritten next to my signature below.

Ok great. That is going to be much cleaner than the N2/S2 bone spring/wolfcamp I think the original proposal had.
Thanks for the quick reply, im crunching on our net acres now from what we've got in our system.

With the new Perazzi proposals its past time to finish this JOA off. Sorry for the delays. I'll need to get the OA in front of our land manager to be sure but I think we are likely good to go on the body. Do you have an exhibit A with ownership numbers? Looks like its going to be complicated because of the old Westall OAs that cover the N2 and S2 of section 10. I don't show we have anything in section 9.

Tyler:

As we discussed, please let me know about the timing on the Perazzi wells.

I just took a quick look at the attached OA which is the most recent version I have, but can you confirm that it actually is the most recent, please? There are a few changes we would like to make so I'll get those to you as soon as I can. I think it will be a very short list: We'd like to use the same form of OA we're using on Mitch's recent Ibex wells (that OA is on my land manager's desk for signature as we speak). Speaking of which, I don't think I can get my land manager to sign it with the exhibit A the way it is: I think we'll need to get our interest on there and get the contract area/depths pinned down too.

Liz,

The reason for the 4 separate contract areas is because of a depth severance at the base of the Bone Spring formation as well as different ownership in the N2 and S2 of Section 10.

We cannot share EUR or ROR information.

Liz and Eric,

I hope you both are safe and are staying healthy. As Eric and I discussed, it is necessary for us to obtain a notarized original of the term assignment for recording purposes as New Mexico is a file first state. Liz, we are open to putting our deal on hold until you are able to send us a notarized version of the term assignment.

Please let me know if you have any questions or need additional information and stay safe.

Liz,

I will check with our attorney on this. Could you send over the language that your attorney is proposing adding to the term assignment?

Hi Tyler,

I understood from my attorney that the notarisation is only for recording and the signature alone is legally binding and the check can be cut on that basis. He is happy to speak to you if you prefer.

I live in London and we are in total lockdown and a notary at the embassy isn't possible.

Liz,

Please send the fully notarized Term Assignment and Operating Agreement pages to our office in Midland so that I can record the Term Assignment and cut the check.

I can send you an updated AFE closer to the spud of the well to give you a better idea of the cost. I'm not sure if we will see costs go down or when.

Thank you for your help on this.

Tyler,

I've spoken to our lawyer about the docs and they are fine, he just wants to add some language around the estate/trust so there is no confusion.

I'll have the docs scanned to you tomorrow but can't notarise while we are in lock down and then hold the original until the funds are received.

Also, will this well be re-AFE'd closer to time? Do you expect a drop in costs?

Thank you

These seem to all involve participation. Can you clarify or resend the term paperwork for me to get it signed on my end.

Liz,

In addition to executing the Term Assignment, because you will be participating with a portion of your interest, I will need you to execute the attached OA pages.

See attached OA, replacement initial well page, and signature and acknowledgement pages for your execution. Please execute the pages and return the originals to me in our Midland, Texas Office.

Eric, since the Charla Geraldine Williamson Trust is not participating, you can disregard the OA pages provided.

Please contact me if you have any questions or need additional information.

APPLICATION OF MEWBOURNE OIL COMPANY
FOR COMPULSORY POOLING, EDDY COUNTY,
NEW MEXICO.

Case No. 21222

SELF-AFFORMED STATEMENT OF CHARLES CROSBY

COUNTY OF MIDLAND)
) ss.
STATE OF TEXAS)

Charles Crosby, deposes and states:

1. I am over the age of 18, and have personal knowledge of the matters stated herein.
2. I am a geologist for Mewbourne Oil Company ("Mewbourne"), and I am familiar with the geological matters involved in these cases. I have been qualified by the Division as an expert petroleum geologist.
3. The following geological plats are attached hereto:

(a) Attachment A-1 is a structure map on the top of the Wolfcamp formation (the base of the 3rd Bone Spring Sand). It shows that structure dips gently to the east. It also shows Bone Spring wells in the area, and a line of cross-section.

Attachment A-2 is a 3rd Bone Spring Sand Gross Thickness Map

(b) Attachments B-1 is a structure map on the top of the Wolfcamp formation. It shows that structure dips gently to the east. It also shows Wolfcamp wells in the area, and a line of cross-section.

Attachment B-2 is a Wolfcamp Y Sand Gross Thickness Map

(c) Attachment C is a cross section of the 3rd Bone Spring Sand and upper Wolfcamp zones. The well logs on the cross-section give a representative sample of both formations in this area. These are the target zones for the two proposed wells. The sands in each zone are continuous and uniformly thick across the well units.

EXHIBIT

3

4. I conclude from the maps that:
- (a) The horizontal spacing units are justified from a geologic standpoint.
 - (b) The target zones are continuous and of relatively uniform thickness across the well units.
 - (c) Each quarter-quarter section in the well units will contribute more or less equally to production from each target zone.
 - (d) There is no faulting or other geologic impediment on the area which will affect the drilling of the subject wells.

5. Attachment D contains information from other 3rd Bone Spring Sand and Wolfcamp Sand wells drilled in this area. There are both standup and laydown Bone Spring wells in this area, but with a preference for laydown wells. The Wolfcamp wells in the area are all laydown wells, Mewbourne prefers laydown units in both formations based on production.

6. Attachments E-1 and E-2 contain the horizontal drilling plans for the two proposed wells. The producing interval each proposed well will be orthodox.

7. I understand that this Self-Affirmed Statement will be used as written testimony in these cases. I affirm that my testimony in paragraphs 1 through 6 above is true and correct and is made under penalty of perjury under the laws of the State of New Mexico. My testimony is made as of the date handwritten next to my signature below.
