Re: Division Order No. R-20928 (Case No. 20626)
**Matador Production Company's request for extension of deadline to
drill initial well under pooling order**

Dear Ms. Sandoval,

Order No. R-20928 in Case No. 20626, enclosed herewith, pooled the uncommitted mineral owners in a 317.32-acre, more or less, standard horizontal spacing unit in the Wolfcamp formation (Burton Flat; Upper Wolfcamp East Pool (Pool code 98315) underlying the S/2 S/2 of Sections 29 and 30, Township 20 South, Range 29 East, NMPM, Eddy County, New Mexico. The Order named Matador Production Company ("Matador") (OGRID 228937) as the operator of the spacing unit and dedicated the unit to the initial **Leatherneck 3029 Federal Com No. 208H Well (API No. 30-015-47046)**. Ordering paragraph 4 of Order R-20928 requires this initial well to be drilled on or before **October 31, 2020**.

Matador has delayed its plans to drill the initial well due to the unfavorable economic environment and reduction in rig count, but still plans to drill the well in 2021. None of the pooled working interest owners have been asked to make an election or pay their share of costs under the pooling order. Accordingly, there are no pooled working interest owners affected by this request. See Ordering ¶ (7). For these reasons, Matador requests a one-year extension of time to drill the initial well under Order R-20928.

Your attention to this request is appreciated. Please let me know if you have any questions or require additional information. Thank you for your time.

Sincerely,
