We support the Governor's initiative to make New Mexico one of the most responsible states in regards to methane pollution, and we support the basic tenets that OCC has put forward. However we would like to see future oil and gas permitting contingent upon compliance with responsible methane pollution control. Thanks for your good work for the benefit of us all, and the whole world and future generations.

Are you interested in making a public statement at the hearing?

- Yes, I plan to sign up to make a public statement
