OCD CASE 21460

Application of Catena Resources Operating, LLC for Compulsory Pooling, Lea County, New Mexico

OCD Hearing Thursday, April 22, 2021

This case will be presented by Affidavit

- Compulsory Pooling Application Checklist;
- Application OCD Case 21460 filed on 9/8/2020;
- Affidavit of Brian Moore w-attachments as indicated;
- Affidavit of Christopher J. Canon w-attachments as indicated;
- Affidavit of Ernest L. Padilla w-attachments as indicated.

ALL INFORMAION IN THE APPLICATION MUST BE SUPPORTED BY SIGNED A	AFFIDAVITS
Case: 21460	Applicant's Response
Date: April 20, 2021	
Applicant	Catena Resources Operating, LLC
Designated Operator & OGRID (affiliation if applicable)	328449
Applicant's Counsel	Ernest L. Padilla
Case Title	Application of Catena Resources Operating, LLC for compulsory pooling in
case ritte	Lea County, New Mexico
	Lea County, New Mexico
Entries of Appearance/Intervenors	Ocean Munds-Dry/COG Operating LLC James Bruce/Matador Production Company
Well Family	Rambo 193517
Formation/Pool	
ormation Name(s) or Verticle Extent	Scharb; Wolfcamp
Primary Product (Oil or Gas)	Oil
Pooling this verticle extent	Wolfcamp formation
Pool Name and Pool Code	Scharb; Wolfcamp 55640
Well Location Setback Rules	Standard
Spacing Unit Size	640
Spacing Unit	
Type (Horizontal/Verticle)	Horizontal
Size (acres)	640
Building Blocks	half sections-E/2 of Sections 17 & 8, T195, R35E
Orientation	
	north south
Description: TRS/County	E/2 of Sections 17 & 8, T19S, R35E
Description: TRS/County	E/2 of Sections 17 & 8, T19S, R35E
Standard Horizontal Well Spacing Unit	Yes
Other Situations	
Depth Severance: No	No
Proximity Tracts: If yes, description	No
Proximity Defining Well: If yes, description	No
Applicant's Ownership in Each Tract	Exhibit B-2
Well(s)	
Name & API (if assigned), surface and bottom hole location	
footages, completion target, orientation, completion status	
(standard or non-standard)	7
	W/2 E/2 of Section 8 and 17 to include this offsetting acreage in a standard horizontal well spacing unit.
	TOTAL WEST SPECIFICATION.
Horizontal Well First and Last Take Points	nonzona wen specing dine.

STATE OF NEW MEXICO DEPARTMENT OF ENERGY, MINERALS AND NATURAL RESOURCES OIL CONSERVATION DIVISION

APPLICATION OF CATENA RESOURCES OPERATING, LLC FOR COMPULSORY POOLING, LEA COUNTY, NEW MEXICO.

CASE NO. 7460

APPLICATION

Catena Resources Operating, LLC ("Applicant") (OGRID No. 328449), through its undersigned attorneys, hereby files this application with the Oil Conservation Division pursuant to the provisions of NMSA 1978, § 70-2-17, for an order pooling all uncommitted interests in the Wolfcamp formation underlying a standard 640-acre, more or less, horizontal spacing unit comprised of the E/2 of Sections 8 and 17, Township 19 South, Range 35 East, NMPM, Lea County, New Mexico. In support Applicant states:

- 1. Applicant is a working interest owner in the proposed horizontal spacing unit and has the right to drill thereon.
- 2. Applicant seeks to initially dedicate the above-referenced spacing unit to the proposed initial **Rambo 193517 1H well** to be horizontally drilled from a surface location in the NE/4 NE/4 (Unit A) of Section 20 to a bottom hole location in the NE/4 NE/4 (Unit A) of Section 8.
- 3. The completed interval for the proposed well will remain within 330 feet of the W/2 E/2 of Sections 8 and 17 to include this offsetting acreage in a standard horizontal well spacing unit.
- 4. Applicant has sought and been unable to obtain voluntary agreement for the development of these lands from all interest owners in the subject spacing unit.

- 5. The pooling of interests will avoid the drilling of unnecessary wells, will prevent waste, and will protect correlative rights.
- 6. In order to permit Applicant to obtain its just and fair share of the oil and gas underlying the subject lands, all uncommitted interests in this horizontal spacing unit should be pooled, and Applicant should be designated the operator of the proposed well and horizontal spacing unit.

WHEREFORE, Applicant requests that this application be set for hearing before an Examiner of the Oil Conservation Division on October 8, 2020, and, after notice and hearing as required by law, the Division enter an order:

- A. Pooling all uncommitted interests in the horizontal spacing unit and approving the initial well thereon;
- B. Designating Applicant as operator of the horizontal spacing unit and the horizontal wells to be drilled thereon;
- C. Authorizing Applicant to recover its costs of drilling, equipping, and completing the well;
- D. Approving the actual operating charges and costs of supervision while drilling and after completion, together with a provision adjusting the rates pursuant to the COPAS accounting procedures; and
- E. Imposing a 200% charge for the risk assumed by Applicant in drilling and completing the well against any working interest owner who does not voluntarily participate in the drilling of the well.

Respectfully submitted,

HOLLAND & HART LLP

ATTORNEYS FOR CATENA RESOURCES OPERATING, LLC

STATE OF NEW MEXICO DEPARTMENT OF ENERGY, MINERALS AND NATURAL RESOURCES OIL CONSERVATION DIVISION

APPLICATION OF CATENA RESOURCES OPERATING, LLC FOR COMPULSORY POOLING, LEA COUNTY, NEW MEXICO

CASE NO. 21460

AFFIDAVIT OF BRIAN MOORE

BRIAN MOORE, of lawful age and being first duly sworn, declares as follows:

- 1. My name is Brian Moore. I work for Catena Resources Operating, LLC ("Catena") as a Geologist.
- 2. I have not testified before the New Mexico Oil Conservation Division as an expert witness. **Exhibit A-1** is my curriculum vita in support of testifying as an expert witness before the New Mexico Oil Conservation Division.
- 3. I am familiar with the application filed by Catena in this matter and I have conducted a geologic study of the lands in the subject area.
- 4. **Exhibit A-2** is a project location map that shows the location of the proposed horizontal well spacing unit.
- 5. Catena is initially targeting the Wolfcamp 'A' interval of the Wolfcamp formation. **Exhibit A-3** is a subsea structure map that I prepared for this interval with 20-foot contours. The proposed horizontal well spacing unit is highlighted in red and the initial well is depicted with a green dashed line. Existing producing wells in the Wolfcamp are represented by solid red lines. The structure map shows the Wolfcamp dipping gently to the South in this area. Except for subtle dip changes, the structure appears consistent across the proposed spacing unit and I do not observe any faulting, pinch outs, or other geologic impediments to drilling horizontal wells in this area.

- 6. **Exhibit A-3** also shows a cross-section line in brown running North to South reflecting four wells penetrating the Wolfcamp 'A' formation that I used to construct a stratigraphic cross-section from A to A'. These wells contain good logs and I consider them representative of the geology in the subject area.
- 1. **Exhibit A-4** is a stratigraphic cross-section that I prepared using the logs from the four wells noted on Exhibit A-3. Each well in the cross-section contains the gamma ray in the first track, resistivity in the second track, and porosity curves in the third track. The initial target interval is labeled and marked. The cross-section demonstrates that the targeted interval is continuous across the proposed spacing unit.
- 2. **Exhibit A-5** is a Gross Isopach map of the Wolfcamp 'A' interval. The proposed horizontal well spacing unit is highlighted in red and the initial well is depicted with a green dashed line. Existing producing wells in the Wolfcamp are represented by solid red lines. The anticipated gross thickness of the Wolfcamp 'A' interval is 400 to 525 ft. The gross isopach map demonstrates that the Wolfcamp 'A' is present across the proposed spacing unit. The location of the previous cross-section from A-A' in Exhibit A-4 is also shown as a brown line on this map.
- 3. Based on my geologic study, the Wolfcamp 'A' formation underlying the subject area is suitable for development by horizontal wells and the acreage comprising the proposed spacing unit will be productive and contribute proportionately to the production from the well.
- 4. In my opinion, the granting of Catena's application is in the best interest of conservation, the prevention of waste, and protection of correlative rights.
- 5. **Exhibits A-2** and **A-5** were either prepared by me or compiled under my direction and supervision.

Brian Moore - Professional Geoscientist

<u>Professional Summary</u> – 15+ year petroleum industry career with broad experience in conventional and unconventional exploration and development. Proficient in subsurface mapping and log analysis. Experience in 2D & 3D seismic interpretation.

EMPLOYMENT HISTORY

Percussion Petroleum II, LLC Houston, TX

May 2020-Present

VP of Geosciences

- Subsurface mapping of Wolfcamp and Bone Springs Formations in Lea Co, NM asset
- Trend analysis in multiple basins across the lower 48 with an emphasis on the Permian and Gulf of Mexico Basins
- Provide subsurface characterization support on multiple oil and gas asset evaluations
- Mentoring and training staff geolgists

Sabine Oil and Gas, LLC Houston, TX

April 2017-May 2020

Supervisor of Geology

- Worked with team to grow company reserves
- Providing geologic leadership for a "start from scratch" drilling campaign, 2 rig drilling program in East Texas
- Provided geologic evaluations quantifying development upside for 6 divestitures totaling over \$325M
- Complete multiple field studies on East Texas assets
- Managing subsurface database
- Reviewing and guiding subsurface projects; mentoring and training staff geologists

Breitburn Energy Partners Houston, TX

Nov 2014-April 2017

Exploitation Manager/ Geoscience Supervisor

- Worked with an interdisciplinary team of managers and supervisors to manage the performance of assets in the Midland Basin
- Evaluated seven reservoirs, across the northern Midland Basin
- Increased recoverable resource potential on operated acreage, by subsurface evaluation, monitoring industry activity, and horizontal well spacing analysis.
- Provided geologic support for a multi-rig horizontal drilling plan in the Midland Basin, including bolt-on and acreage trade evaluations, well location selection, well design, landing point selection, and geo-steering.
- Reviewed and guided projects submitted by staff, assisted in training of staff

Quantum Resources Management Houston, TX

July 2013-Nov 2014

Senior Geologist

• Geologist on an integrated team responsible for 4 fields in NLA/ SARK

- Completed a field study Homer Field, NLA
- Completed a reservoir study of the Haynesville Formation at Shongaloo Field
- Drilled 167 wells in a drilling program in Tullos Oil Field, NLA
- Made recommendations on bolt-on leasing, acquisitions, drilling, recompletions, and data collection

Grenadier Energy PartnersThe Woodlands, TX2012-July 2013Senior Geologist2005-2012Professional DevelopmentSenior Geologist2010-2012Geologist II2007-2009Geologist2005- 2006

Work Experience

New Ventures, Texas and Louisiana

- Worked on an integrated team to identify and rank unconventional oil trends in the northern GoM
- Generated and matured prospects in trends identified by team
- Made recommendations on leasing, drilling, and data collection on two liquid-rich prospects

Mesozoic Exploration, East Texas and North Louisiana

- Responsible for providing geological, geophysical, and reservoir support for exploratory well operations, in the Haynesville/ Bossier shale play.
- Worked with an integrated team to develop and propose the 2010 appraisal drilling program for the Haynesville/ Bossier shale play.
- Generating maps on reservoir, production, and rock property data to characterize
 the Haynesville/ Bossier shales and understand the geologic controls on the shales
 producibility.

Gulf Coast Exploration, Texas and Louisiana

- Responsible for providing geological and reservoir support for exploratory and appraisal well operations, in Matagorda Co., TX
- Generated regional sand isopach maps in the Lower Miocene in S. Louisiana.
- Assisted exploration team to develop prospects by providing support with fault seal analysis, trap analogy, sand mapping, and reservoir mapping of analogous fields.
- Generated regional sand isopach and analogous field maps in the down-dip Yegua trend in SE Texas.
- Originated three leads in the Yegua and laid out the 2D seismic grid to define the leads.

Carthage Exploitation, East Texas

- Responsible for providing geological and reservoir support for vertical and horizontal developmental well operations, with on-site experience
- Completed reservoir studies of the Travis Peak Fm. & Cotton Valley Fm. in

Bethany Field, Panola Co., TX, field studies provided justification for a 2006 & 2007 drilling program in Bethany Field

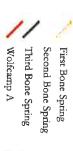

EDUCATION

B.S., Geology, The University of Texas at Austin, 2003 M.S., Geology, The University of Texas at Austin, 2005

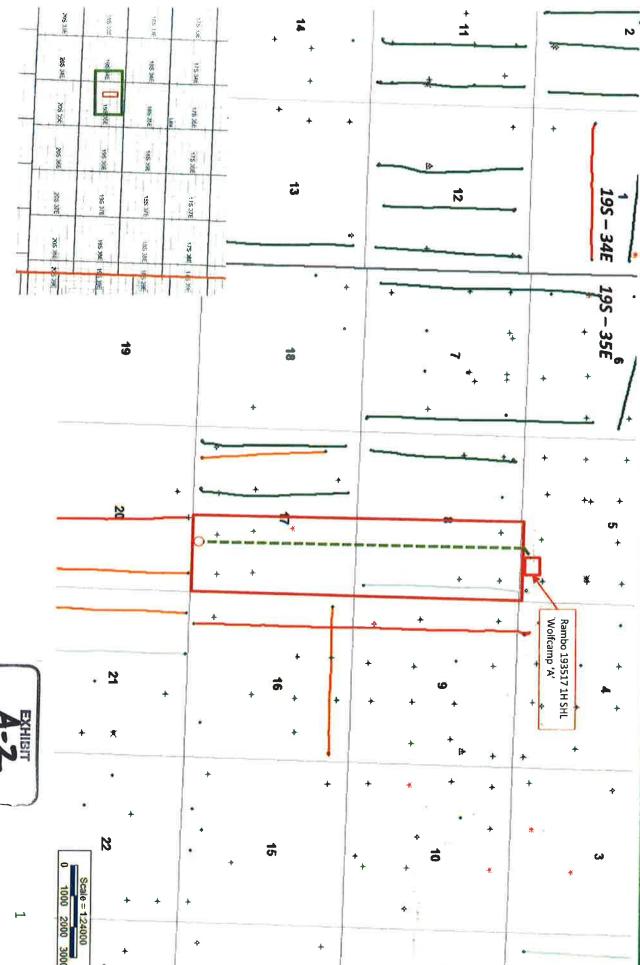

SKILLS & PROFESSIONAL AFFILIATIONS

- Petra Software; Log Analysis and Interpretation (Power Log and Petra); 2D & 3D Seismic Interpretation (Landmark Seisworks, Seisware, SMT Kingdom);
 Subsurface Mapping; Sandstone, Shale, & Carbonate Stratigraphy and Facies Analysis; IHS Inerdeq; Drilling Info
- Professional Geoscientist No. 720 Louisiana Board of Professional Geoscientists;
 A.A.P.G.; H.G.S.

APPLICATION OF CATENA RESOURCES OPERATING, LLC FOR COMPULSORY POOLING LEA COUNTY, NEW MEXICO

CASE NO. 21460

APPLICATION OF CATENA RESOURCES OPERATING, LLC FOR COMPULSORY POOLING IN LEA COUNTY, NEW MEXICO

CASE NO. 21483

AFFIDAVIT OF CHRISTOPHER J CANON

CHRISTOPHER J CANON, of lawful age and being duly sworn, declares as follows:

- 1. My name is Christopher "Chris" Canon. I consult for Catena Resources Operating, LLC ("Catena") as a landman. I have previously testified before the Oil Conservation Division ("Division") and my credentials as an expert petroleum landman were accepted by the division as a matter of record.
- 2. My area of responsibility for Catena includes the area of Lea County in New Mexico.
 - 3. I am familiar with the application filed with by Catena.
 - 4. I am familiar with the status of the lands that are subject to these applications.
- 5. I submit the following information pursuant to NMAC 19.15.4.12.A(1) in support of the above referenced compulsory pooling applications.
 - 6. Catena seeks to:
- (1) to pool the Wolfcamp formation underlying the E/2 of Sections 8 and 17 and dedicating this horizontal spacing unit to the proposed **Rambo 1H**, to be horizontally drilled

from a surface location in the NE/4 NE/4 (Unit A) of Section 20 to a bottom hole location in the NE/4 NE/4 (Unit A) of Section 8.

- (2) to pool the Scharb Bone Spring Pool underlying the E/2 E/2 of Sections 8 and 17 and dedicating this horizontal spacing unit to the proposed **Rambo 2H**, to be horizontally drilled from a surface location in Unit B of Section 20 to a bottom hole location in Unit A in Section 8, Township 19 South, Range 35 East, NMPM, Lea County, New Mexico.

 Attached hereto as **Exhibit B-1** are copies of the C-102's for the foregoing wells, together with associated and aerial maps. Also included in Exhibit B-1 are tract maps of the proposed spacing units.
- 8. The parties being pooled and the percent of their interests and participation in the tracts and in the pooled unit are shown in **Exhibit B-2** for the respective cases.
- 9. Catena has conducted a diligent search of the public records in the county where the well is located and conducted phone directory and computer searches to locate contact information for parties entitled to notification, and mailed parties well proposals. However, Catena has recently discovered unleased State mineral interests and fee mineral interest owners in the proposed units. Catena has contacted the State regarding the matter and the State has agreed to a Stipulation regarding the May NMSLO Lease Sale attached hereto as **Exhibit B-3**. Additionally, Catena has contacted the fee mineral interest owners and has sent well proposals to each fee mineral interest owner prior to hearing. Copies of Communication Timelines are attached hereto as **Exhibit B-4**.
- 10. In my opinion, Catena has made a good faith effort to obtain voluntary joinder of the working interest owners in the proposed wells.

- 11. **Exhibit B-5** is a copy of a proposal letter sent to working interest owners, which were sent on July 23, 2020 and April 15, 2021 for the proposed wells together with AFEs.
- 12. The proposal letters identified the proposed first and last take points and approximate TVD.
- 13. **Exhibit B-6** contains a revised Authorization for Expenditure for the proposed well. The estimated cost of the well set forth therein is fair and reasonable and is comparable to the costs of other wells of similar depths and length drilled in this area of New Mexico. Catena requests overhead and administrative rates of \$8,000.00/month for drilling a well and \$800.00/month for a producing well. These rates are fair, and comparable to the rates charged by other operators for wells of this type in this area of Southeastern, New Mexico. Catena requests that these rates be adjusted periodically as provided in the COPAS Accounting Procedure.
- 14. Catena requests the maximum cost plus 200% risk charge be assessed against non-consenting working interest owners.
 - 15. Catena requests that it be designated operator of the wells.
- 16. The attachments to this affidavit were prepared by me, or compiled from company business records, or were prepared at my direction.
- 17. I attest that the information provided herein is correct and complete to the best of my knowledge and belief.
- 18. The granting of this application is in the interests of conservation and the prevention of waste.

STIPULATION

THIS STIPULATION dated as of April 13, 2021 is entered into by and between:

Stephanie Garcia Richard, in her capacity as New Mexico Commissioner of Public Lands (hereafter "Commissioner"), whose address is 310 Old Santa Fe Trail, Santa Fe, New Mexico 87501

and

Catena Resources Operating, LLC, a Delaware Limited Liability Company (hereafter "Catena"), whose address is 919 Milam Street, Suite 2475, Houston, TX 77002.

RECITALS

WHEREAS, Catena has filed an application for compulsory pooling with the New Mexico Oil Conservation Division in Case No. 21460 seeking to pool all uncommitted interests in a standard 640-acre, more or less, horizontal spacing unit to test the Wolfcamp formation, comprised of the E/2 of Sections 8 and 17, Township 19 South, Range 35 East, NMPM, Lea County, New Mexico; and,

WHEREAS, Catena has filed an application for compulsory pooling with the New Mexico Oil Conservation Division in Case No. 21483 seeking to pool all uncommitted interests in a standard 320-acre, more or less, horizontal spacing unit to test the Bone Spring formation, comprised of the E/2E/2 of Sections 8 and 17, Township 19 South, Range 35 East, NMPM, Lea County, New Mexico; and,

WHEREAS, Cases 21460 and 21483 are currently scheduled for hearing on April 22, 2021; and,

WHEREAS, Catena has recently discovered that the lands comprised of SE/4SE/4 of Section 17, Township 19 South, Range 35 East, NMPM, Lea County, New Mexico, administered as State Trust Lands by the Commissioner, are unleased for oil and gas development and are included in both proposed spacing units in Cases 21460 and 21483 (the "Unleased Lands");

WHEREAS, Catena recently nominated the Unleased Lands for inclusion in the May 2021 State Land Office lease sale;

WHEREAS, Catena previously nominated the Unleased Lands for a prior lease sale but did not bid on the Unleased Lands; and

WHEREAS, unleased state trust land, including the Unleased Lands, may not be compulsory pooled.

NOW THEREFORE, the Parties acknowledge, agree, and stipulate, as follows:

- 1. Catena has nominated the SE/4SE/4 of Section 17, Township 19 South, Range 35 East, NMPM, Lea County, New Mexico for the May 2021 lease sale (See Exhibit A).
- 2. Catena shall tender a copy of this Stipulation as an exhibit at the hearing of Cases 21460 and 21483, and request that an order in such cases not be entered until after the lease sale occurs and under the following conditions:
 - a. Should Catena, or one of its designated affiliates, be the successful bidder at the May 2021 lease sale, it may proceed to seek compulsory pooling orders from the Oil Conservation Division pursuant the April 22, 2021 hearings. A copy of the lease sale results, evidencing Catena as the successful bidder, shall be provided to the Oil Conservation Division evidencing Catena has acquired the Unleased Lands.
 - b. If Catena is not the successful bidder at the May 2021, it will advise the Oil Conservation Division. In such case, Catena may 1) send well proposals and seek joinder of the successful bidder in drilling the wells proposed by Catena; 2) if the successful bidder of the Unleased Lands does not agree to join in the drilling of the proposed wells, then Catena may reopen the Oil Conservation Division hearing process to pool the interests of the successful bidder; or 3) Catena may dismiss Cases 21460 and 21483. Catena must provide notice to the Commissioner of any action taken under this subpart and shall provide the Conservation Division under this subpart and shall provide notice to the Commissioner of any agreement under subpart 2(b)(1).

Executed as of the date written above.

Catena Resources Operating, LLC

Catena Resources Operating, LLC - Rambo 1H & Rambo 2H Discussion Timeline

ConocoPhillips Company

Catena Resources Operating, LLC sent original well proposals on July 23, 2020. After such time, beginning on or around August 6, 2020, Catena and ConocoPhillips (formerly Concho Oil & Gas) engaged in discussions regarding the proposed wells, including a technical review on March 2, 2021. Catena and ConocoPhillips are in ongoing discussions on the well proposals.

Chevron

Catena Resources Operating, LLC sent original well proposals on July 23, 2020. After such time, beginning on or around September 8, 2020, Catena and Chevron engaged in discussions regarding the proposed wells which are ongoing.

Featherstone

Catena Resources Operating, LLC sent original well proposals on July 23, 2020. After such time, beginning on or around September 16, 2020, Catena and Featherstone engaged in discussions regarding the proposed wells which are ongoing.

State of New Mexico

Catena Resources Operating, LLC contacted the State regarding the unleased State mineral interests on April 5, 2021. After such initial discussions, the State agreed to enter into a Stipulation with Catena regarding the unleased interests on April 13, 2021.

Unleased Mineral Interest Owners

Catena Resources Operating, LLC sent original well proposals on April 15, 2021. After such time, beginning April 16, 2021, Catena has initiated communication with the unleased mineral interest owners which is ongoing.

Rambo 193517 2H Well Proposal

Bone Springs Formation

E2 of Section 17 T19S, 35E, and Section 8, T19S, R35E

Lea County, New Mexico

Ladies and Gentlemen,

Catena Resources Operating, LLC ("Catena") as Operator hereby proposes to drill the following wells to a depth sufficient to test the Wolfcamp and Bone Spring formations:

Well Name SHI		ame SHL BHL Spacing Unit		Target	Estimated	
	Sec. 20	Sec. 8	640 Acres	TVD	TMD	
Rambo 193517 1H Wolfcamp Formation	FNL: 190' FEL: 1290'	FNL: 100' FEL: 1200'	E/2 of Section 17, T19S, 35E and Section 8, T19S, R35E	9,989'	20,698'	
Rambo 193517 2H Bone Spring Formation	FNL: 190' FEL: 1390'	FNL: 100' FEL: 1200'	E/2 of Section 17, T19S, 35E and Section 8, T19S, R35E	9,740'	20,444'	

These proposed locations and target depths are subject to change depending on any surface or subsurface concerns encountered.

Regarding the above, enclosed for your further handling are our AFE's dated April 16, 2020 for the proposed wells. The AFE's represent an estimate of the costs that will be incurred to drill and complete the wells, but those electing to participate in the wells are responsible for their proportionate share of the actual costs incurred. In the event you elect to participate in the proposed wells, please execute the enclosed AFE's and return to me. We are happy to furnish you with a proposed Joint Operating Agreement upon request. Please respond within 30 days of receiving this notice. If you do not wish to participate, Catena proposes to acquire your interest via term assignment subject to due diligence and title verification satisfactory to Catena.

Should you have any questions regarding the above, please email me at rswann@catenares.com or call me at (210) 775-6993.

Sincerely,

Catena Resources Operating, LLC

Robert Swann Land Manager

<u>VIA CERTIFIED MAIL</u> CERTIFIED RECEIPT REQUESTED

TO: ALL INTEREST OWNERS SUBJECT TO POOLING PROCEEDINGS

Re: Application of Catena Resources Operating, LLC for Compulsory Pooling, Lea

County, New Mexico. Rambo 193517 1H Well

Ladies & Gentlemen:

This letter is to advise you that COG Operating Inc. has filed the enclosed application with the New Mexico Oil Conservation Division. A hearing has been requested before a Division Examiner on October 8, 2020, and the status of the hearing can be monitored through the Division's website at http://www.emnrd.state.nm.us/ocd/. You are not required to attend this hearing, but as an owner of an interest that may be affected by this application, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from subsequently challenging this matter.

During the COVID-19 Pubic Health Emergency, state buildings are closed to the public and hearings will be conducted remotely. To participate in the electronic hearing, see the instructions posted on the Oil Conservation Division "OCD Hearings" website at http://www.emnrd.state.nm.us/OCD/announcements.html.

Parties appearing in cases are required by Division Rule 19.15.4.13.B to file a Pre-hearing Statement four business days in advance of a scheduled hearing. This statement must be filed at the Division's Santa Fe office at the above specified address and should include: the names of the parties and their attorneys; a concise statement of the case; the names of all witnesses the party will call to testify at the hearing; the approximate time the party will need to present its case; and identification of any procedural matters that are to be resolved prior to the hearing.

If you have any questions about this matter, please contact Robert Swann at (210) 775-6993 or at rswann@catenares.com.

Sincerely,

ATTORNEY FOR CATENA RESOURCES OPERATING,

LLC

STATE OF NEW MEXICO DEPARTMENT OF ENERGY, MINERALS AND NATURAL RESOURCES OIL CONSERVATION DIVISION

APPLICATION OF CATENA RESOURCES OPERATING, LLC FOR COMPULSORY POOLING, LEA COUNTY, NEW MEXICO.

CASE NO. 21460

APPLICATION

Catena Resources Operating, LLC ("Applicant") (OGRID No. 328449), through its undersigned attorneys, hereby files this application with the Oil Conservation Division pursuant to the provisions of NMSA 1978, § 70-2-17, for an order pooling all uncommitted interests in the Wolfcamp formation underlying a standard 640-acre, more or less, horizontal spacing unit comprised of the E/2 of Sections 8 and 17, Township 19 South, Range 35 East, NMPM, Lea County, New Mexico. In support Applicant states:

- 1. Applicant is a working interest owner in the proposed horizontal spacing unit and has the right to drill thereon.
- 2. Applicant seeks to initially dedicate the above-referenced spacing unit to the proposed initial **Rambo 193517 1H well** to be horizontally drilled from a surface location in the NE/4 NE/4 (Unit A) of Section 20 to a bottom hole location in the NE/4 NE/4 (Unit A) of Section 8.
- 3. The completed interval for the proposed well will remain within 330 feet of the W/2 E/2 of Sections 8 and 17 to include this offsetting acreage in a standard horizontal well spacing unit.
- 4. Applicant has sought and been unable to obtain voluntary agreement for the development of these lands from all interest owners in the subject spacing unit.

- 5. The pooling of interests will avoid the drilling of unnecessary wells, will prevent waste, and will protect correlative rights.
- 6. In order to permit Applicant to obtain its just and fair share of the oil and gas underlying the subject lands, all uncommitted interests in this horizontal spacing unit should be pooled, and Applicant should be designated the operator of the proposed well and horizontal spacing unit.

WHEREFORE, Applicant requests that this application be set for hearing before an Examiner of the Oil Conservation Division on October 8, 2020, and, after notice and hearing as required by law, the Division enter an order:

- A. Pooling all uncommitted interests in the horizontal spacing unit and approving the initial well thereon;
- B. Designating Applicant as operator of the horizontal spacing unit and the horizontal wells to be drilled thereon;
- C. Authorizing Applicant to recover its costs of drilling, equipping, and completing the well;
- D. Approving the actual operating charges and costs of supervision while drilling and after completion, together with a provision adjusting the rates pursuant to the COPAS accounting procedures; and
- E. Imposing a 200% charge for the risk assumed by Applicant in drilling and completing the well against any working interest owner who does not voluntarily participate in the drilling of the well.

Respectfully submitted,

HOLLAND & HART LLP
