2021 Plan of Development

Future Development

- XTO's planned development of the The Big Eddy Unit in the foreseeable future lies primarily within the Secretaries Designated Potash Area and appropriate development requires the utilization of drill islands and extended reach horizontal wells. Please see the attached list of wells XTO plans to drill in the Big Eddy Unit in 2021 utilizing existing and proposed drill islands.

Infrastructure

- XTO plans no significant infrastructure construction for the 2021. The attached plat generally depicts XTO's 3-year infrastructure plan. State leases are shown in blue on the plat.

Participating Areas

- XTO will submit Commercial Well Determinations for all unit wells drilled and / or completed in 2021 after production has been established for at least six months and facilitate the revision of existing Participating Areas and creation of new Participating Areas as appropriate.

Plugging and Abandonment

- XTO is currently evaluating the plugging and abandonment of the following wells:
