RE: **Warren Unit – I-Sec. No. 601, Serial No. NMNM-071052X**
Proposed Consolidation of Blinebry-Tubb-Drinkard Participating Areas
Effective December 1, 2011
Lea County, New Mexico
ConocoPhillips Contract 100460

Gentlemen:

Pursuant to State of New Mexico Oil Conservation Division Order No. R-13480, the Blinebry, Tubb and Drinkard pools were redesignated as the Warren-Blinebry-Tubb-Drinkard Oil and Gas Pool (Pool Code 62965), effective December 1, 2011.

ConocoPhillips Company's drilling program within the Warren Unit has been primarily focused on Blinebry-Tubb-Drinkard commingling projects. Because of the low reservoir pressure within the Warren Unit, the most efficient and economical method to produce this area is by a consolidation of the Blinebry-Tubb-Drinkard pools and the resulting consolidation of the existing Blinebry-Tubb-Drinkard Participating Areas. Production accountability will also be enhanced

Therefore, ConocoPhillips Company, as Unit Operator of the Warren Unit, hereby submits for your approval the Proposed Consolidation of the Blinebry-Tubb-Drinkard Participating Areas, effective December 1, 2011. The enclosed expansion schedule consolidates the 3rd Expansion of the Drinkard Participating Area, the 2nd Expansion of the Blinebry-Tubb Participating Area and the 25th Expansion of the Blinebry Participating Area.

Upon your review, please provide ConocoPhillips written approval of the subject consolidation.

The working interest owners have been provided a copy of this proposed consolidation.

Please contact the undersigned at 832-486-2238 if there are any questions regarding this matter.

Respectfully,

A handwritten signature in black ink that reads "Thomas J. Scarbrough". The signature is written in a cursive style with a horizontal line extending from the left of the first name.

ConocoPhillips Contract 100460

Gentlemen:

Conoco Phillips Company, as Unit Operator of the Warren Unit, hereby submits for your approval, our 2012 Plan of Development.

Items are included as follows: Planned 2012 operations, previous year operations, current status of all wells within the unit, and production graphs for each productive reservoir. Also attached are three current maps, each showing respectively the units: structural and geologic interpretations; participating area boundaries; wells, flow-lines, and roads.

It is understood that approval of this plan does not approve the work covered by the plan. Individual approval is still required for such items as APDs/ROWS/etc.

Any modifications or additions to this Plan of Development will be filed as supplements to the plan.

Sincerely,
