David,

Yates removal of their objection is documented below in an e-mail to Will Jones contingent on the amended C-10:

Thanks,

David

**Subject:** Case No. 14863: Yates' Objection to LRE Application to Inject Eddy-Humble

Dear Will and David,

Upon the filing of the attached amendments to LRE Operating, LLC's application to inject into the Eddy-Humble 4 design from an open-hole disposal system to a cased-hole disposal system, allowing for zonal isolation by select formations, Yates Petroleum will withdraw any and all objections to the drilling and completion of the Eddy-Humble. Once filed, as agreed, Yates Petroleum will have no further objection to allowing LRE Operating, LLC the opportunity included in its application which will include approximately the basal one-hundred feet or so of ABO, the entire Well depending on actual formation tops once drilled and logged.

Please let me know if you have any questions or concerns. Ernie, please send me a stamped copy of the filed amendment. I will confirm for me that the modifications have been made, as agreed.

Thanks!

Best,

Adam
