EOG RESOURCES

MIDLAND TX

MR. DIRK ELLISON

Ref: Alma St. 2-21 – Haul drill cuttings

Mr. Ellison

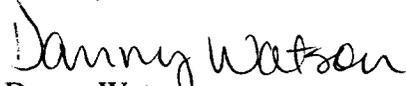

The prices below are as discussed and include all labor and equipment to haul and dispose of approximately 3500 yards of drill cuttings. Disposal rates are included. It would be my suggestion the project proceed as soon as possible due to the fact that the most accessible land farm permitted to take cuttings may be closed after hearing.

Gandy – Marley 46 miles Bid \$29. Per yard

CRI Disposal 96 miles Bid \$42. Per yard

Thank you for the opportunity to bid this project.

Thank you,

Danny Watson

Re: Gandy Marley Commercial Landfarm
NMOCD Permit NM-1-0019

Dear Mr. Gandy:

The New Mexico Oil Conservation Division inspected the above facility on February 14, 2005 and found it to be a very well managed and maintained waste management facility. Aside from a minimal problem with accumulated plastic material, there were no problems associated with the facility. Overall, this site is in very good condition.

Please extend my thanks to Mr. Bill Marley for his cooperation during the inspection.

If you have any questions, contact me at (505) 476-3492 or emartin@state.nm.us
