TO THE OIL CONSERVATION COMMISSION AND ITS COUNSEL

Commissioner Bailey and Gentlemen:

For the record, counsel for the Division does not oppose the portion of the Motion to Expedite Decision filed by Los Lobos on February 28, 2012 to the extent that it asks for submission of proposed forms of order to the Commission prior to any hearing and for and expedited decision of the case.

The Division does oppose any entry of a decision without a hearing. The Commission and its counsel are referred to the brief previously filed by the Division concerning the necessity for a hearing.

Respectfully submitted,

David K. Brooks  
Assistant General Counsel  
Attorney for the Oil Conservation Division

Ms. Davidson:

Please be so kind to print out a copy of this email and file it in the case file for Case No. 14948. As reflected in the cc box above, this communication has been duly served on all counsel of record.

Sincerely

David K. Brooks
