3. The Unit Agreement has been approved by a sufficient percentage of the interest owners within the proposed Unit Area to provide effective control of unit operations.

4. Encana anticipates preliminary approval of the Unit Agreement from the Bureau of Land Management, the Federal Indian Minerals Office and the New Mexico State Land Office.

5. The entire Unit Area will be developed and operated as a single Participating Area.

Finally, Rule 4 of the Special Rules for the South Bisti Gallup Oil Pool requires wells to be no closer than 330 feet to any quarter-quarter section line.

9. In order to allow for the most efficient horizontal well development pattern, and to effectively drain the reserves in the unitized formation underlying the Unit Area, Encana requests that the Division create a new pool for horizontal development within the Nageezi Unit that covers the unitized interval and allows for 330 foot setbacks.

10. Notice of this Application has been provided to the affected parties in the spacing units offsetting the proposed Unit Area and the affected parties within the unitized area.

11. Encana has also caused notice of this Application to be published in a local newspaper of general circulation in San Juan County, New Mexico.
