APPEAL OF ORDER NO. R-12306-B

CASE NO. 13480 *de novo*

MOTION FOR DISMISSAL OF *DE NOVO* APPEAL AND  
PRESENTMENT OF ORDER

COMES NOW Gandy Marley, Inc. (GMI), by and through undersigned counsel of record, and requests that the Oil Conservation Commission adopt the proposed Order dismissing the *de novo* appeal in this matter and in support of the Motion states as follows.

1. This matter is before the Commission on GMI's request for *de novo* review of the Oil Conservation Division Order No. R-12306-B, denying GMI's application for a permit modification.

2. As part of Order No. R-12306-B, the Division ordered GMI to submit a revised application for permit modification in conformity with OCD Rule 711 (19.15.9.711 NMAC) and to readvertise the request for permit modification in compliance with the public notice requirements of Rule 711.

3. The Order stated that, "after proper notice thereof is provided, the Director hereby refers this matter directly to the Commission for further proceedings thereon." Order R-12306-B, p. 20, ¶¶ 3-5.

4. GMI submitted its revised Application for Permit Modification on October 4, 2005.

5. On December 1, 2005, the Oil Conservation Division (OCD) determined that the application is administratively complete.

6. Rule 711 requires the applicant to "issue public notice in a form approved by the division in a newspaper of general circulation in the county in which the facility is to be located." 19.15.9.711.B(2)(b). The Roswell Daily Record is the newspaper of general circulation that meets the requirements of Rule 711 and notice was published in the Roswell Daily Record on December 5, 2005.

7. The OCD has not received any comments from the public or interested parties concerning the application. The OCD has not received a request for hearing pursuant to 19.15.9.711.B(2)(c) and there is no evidence of a significant public interest that would require a hearing in this matter.

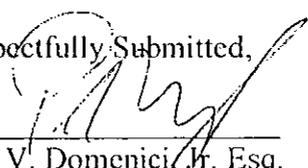

8. The OCD has issued a revised permit based on the application and GMI concurs in the conditions and terms of the draft permit.

9. The Commission does not need to hold a hearing on GMI's permit modification application.

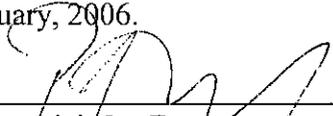

10. All issues raised in GMI's *de novo* appeal have been resolved by the issuance of the revised permit.

Therefore, GMI requests that the Commission dismiss the *de novo* appeal with prejudice. A proposed Order is attached hereto.

Respectfully Submitted,
