

**STATE OF NEW MEXICO
DEPARTMENT OF ENERGY, MINERALS AND NATURAL RESOURCES
OIL CONSERVATION DIVISION**

**APPLICATION OF COG OPERATING, LLC,
FOR APPROVAL OF SURFACE LEASE
COMMINGLING, EDDY COUNTY, NEW MEXICO.**

CASE NO. 15203

RECEIVED
2014 AUG 19 PM 2:24

APPLICATION

COG OPERATING LLC, ("COG") through its undersigned attorneys, hereby makes application to the Oil Conservation Division to approve surface lease commingling of production from the Yeso formation, Penasco Draw; SA-Yeso Pool (Pool Code 50270), and in support of its application states:

1. COG Operating, LLC (OGRID No. 229137) is the operator of the following wells:

- (a) Falabella 31 Fee #3H (30-015-41265)
- (b) Falabella 31 Fee #4H (30-015-39513)
- (c) Falabella 31 Fee #7H (30-015-39514)
- (d) Falabella 31 Fee #8H (30-015-39515)

All of these wells are located on fee lands in Section 31, Township 18 South, Range 26 East, N.M.P.M., Eddy County, New Mexico.

2. The leases from which COG seeks to commingle production from its Falabella wells are of diverse ownership and are identified on Exhibit A.

3. COG has placed the central tank battery and measurement facilities for the above mentioned wells on the Falabella 31 Fee #8H well site, located on Unit P, Section 31, Township 18 South, Range 26 East.

4. COG will meter and allocate production to the various leases based upon a continuously metered test separator. The test separator is a 3-phase horizontal separator that will measure oil, water and gas.

5. By administrative application dated April 28, 2014, COG sought Division approval for lease commingling at a central tank battery.

6. COG provided notice to all interest owners of its intent to surface commingle production from the leases and that said production would be stored and measured on the Falabella 31 Fee #8H well site.

7. After providing notice, Michael Carter and Sandra Baker filed objections with the Division to the proposed lease commingling. COG has contacted the objecting parties, but has been unable to resolve their concerns.

8. Approval of this application will result in efficient production, storage, and measurement operations for the subject wells, lessen the impact on the surface estate, and is otherwise in the best interest of conservation, the prevention of waste, and the protection of correlative rights.

WHEREFORE, COG Operating LLC requests that this application be set for hearing before an Examiner of the Oil Conservation Division on September 18, 2014, and, after notice and hearing as required by law, the Division approve this application.

Respectfully submitted,

HOLLAND & HART, LLP

ATTORNEYS FOR COG OPERATING LLC

CASE 15207 Application Of COG Operating, LLC, For Approval Of Surface Lease Commingling, Eddy County, New Mexico. Applicant seeks authority to surface commingle production from the Yeso formation, Penasco Draw; SA-Yeso Pool produced from the **Falabella 31 Fee #3H**, the **Falabella 31 Fee #4H**, the **Falabella 31 Fee #7H** and the **Falabella 31 Fee #8H** wells located on Fee Leases in Section 31, Township 18 South, Range 26 East. Applicant proposes to measure production by a continuously metered test separator and store said production in a central tank battery at the Falabella 31 Fee #8H well site, located on Unit P, Section 31, Township 18 South, Range 26 East. These wells are located approximately 2 miles southwest of Dayton, New Mexico.
