APPLICATION OF ANSCHUTZ OIL COMPANY,
LLC FOR A NON-STANDARD OIL SPACING AND
PRORATION UNIT AND COMPULSORY POOLING,
RIO ARRIBA COUNTY, NEW MEXICO.

2015 MAY 12 A 10: 46

Case No. 13518

APPLICATION

Anschutz Oil Company, LLC applies for an order (i) approving a 650.32 acre non-standard oil spacing and proration unit in the Mancos formation (Gavilan-Mancos Pool) and Dakota formation (Gavilan Greenhorn-Graneros-Dakota Pool) comprised of Lots 1-4, S $\frac{1}{2}$ N $\frac{1}{2}$, and S $\frac{1}{2}$ (All) of Section 1, Township 24 North, Range 2 West, N.M.P.M., Rio Arriba County, New Mexico, and (ii) pooling all interests in the Mancos formation and Dakota formation underlying Section 1, and in support thereof, states:

1. Applicant is an interest owner in Section 1, and has the right to drill a well thereon.
2. Applicant proposes to drill its Schmitz Well No. 1, at an orthodox location 1708 feet from the south line and 949 feet from the east line of Section 1, to a depth sufficient to test the Dakota formation. Applicant seeks to dedicate all of Section 1 to the well to form a non-standard 650.32 acre spacing and proration unit in the Gavilan-Mancos Pool and Gavilan Greenhorn-Graneros-Dakota Pool. Applicant further seeks to pool all uncommitted mineral interest owners in the well.
3. Applicant has in good faith sought to obtain the voluntary joinder of all other mineral interest owners in Section 1 for the purposes set forth herein.
4. Although applicant attempted to obtain voluntary agreements from all mineral interest owners to participate in the drilling of the well or to otherwise commit their interests to the well, certain interest owners have failed or refused to join in dedicating their interests.

Therefore, applicant seeks an order pooling all mineral interest owners in Section 1, pursuant to NMSA 1978 §§70-2-17, 18.

5. Approval of the non-standard unit, and the pooling of all mineral interests in the Gavilan-Mancos Pool and Gavilan Greenhorn-Graneros-Dakota Pool underlying Section 1, will prevent the drilling of unnecessary wells, prevent waste, and protect correlative rights.

WHEREFORE, applicant requests that, after notice and hearing, the Division enter its order:

- A. Approving a non-standard oil spacing and proration unit in the Gavilan-Mancos Pool and Gavilan Greenhorn-Graneros-Dakota Pool comprised of Section 1;
- B. Pooling all mineral interests in the Gavilan-Mancos Pool and Gavilan Greenhorn-Graneros-Dakota Pool underlying Section 1;
- C. Designating Anschutz Exploration Corporation as operator of the well;
- D. Considering the cost of drilling and completing the well, and allocating the cost thereof among the well's working interest owners;
- E. Approving actual operating charges and costs charged for supervision, together with a provision adjusting the rates pursuant to the COPAS accounting procedure; and
- F. Setting a 200% charge for the risk involved in drilling and completing the well in the event a working interest owner elects not to participate in the well.

Respectfully submitted,

James Bruce

PROPOSED ADVERTISEMENT

Case No. ⁵³~~135~~18 :

Application of Anschutz Oil Company, LLC for a non-standard oil spacing and proration unit and compulsory pooling, Rio Arriba County, New Mexico. Anschutz Oil Company, LLC seeks an order approving a 650.32 acre non-standard oil spacing and proration unit in the Mancos formation (Gavilan-Mancos Pool) and Dakota formation (Gavilan Greenhorn-Graneros-Dakota Pool) comprised of Lots 1-4, S/2N/2, and S/2 (All) of Section 1, Township 24 North, Range 2 West, N.M.P.M., Rio Arriba County, New Mexico, and pooling all interests in the Mancos formation and Dakota formation underlying Section 1. Applicant proposes to drill its Schmitz Well No. 1, to a depth sufficient to test the Dakota formation, at a location 1708 feet from the south line and 949 feet from the east line of Section 1. Also to be considered will be the cost of drilling and completing the well and the allocation of the cost thereof, as well as actual operating costs and charges for supervision, designation of Anschutz Exploration Corporation as operator of the well, and a 200% charge for the risk involved in drilling and completing the well. The unit is located approximately 2 miles northeast of Lindrith, New Mexico.
