ATTORNEY: *pro se.*

TECHNICAL WITNESS: Donald A. Neeper, Ph.D.

QUALIFICATIONS:

- Ph.D., thermal physics, University of Wisconsin, 1964.
- 25 years experience in thermal engineering at Los Alamos National Laboratory, including supervision of RCRA Facility Investigation of large waste disposal sites containing hazardous and radioactive wastes.
- 5 years part-time experience consulting on vapor extraction and related remediation methods.

TIME REQUIRED: 10 minutes.

EXHIBITS: none.

SYNOPSIS OF TESTIMONY:

The witness will speak in favor of adoption of the proposed rules and amendments, citing the need for administrative methods that encourage self-policing by the industry. In addition to aiding environmental protection, the proposed methods discourage neglectful operators from obtaining unfair economic advantages over responsible operators who incur whatever costs are necessary to remain in compliance. Testimony will cite use of the proposed "good standing" concept elsewhere.

AUTHORIZING STATEMENT:

A letter signed by Dr. Bartlit, the chairman of NMCCA&W on May 13, 2005, authorizes the witness to speak on behalf of the organization. The May 13 letter is attached to this pre-hearing statement. The revised rule 19.15.14.1204, published in the New Mexico Register on September 30, 2005, requires that such an authorizing statement be notarized. From September 30 until some time after the required date for submission of this pre-hearing statement, Dr. Bartlit is in another state for surgery, and cannot prepare a new, notarized letter. The witness will bring a notarized authorization to the hearing.
