special pool rules for this pool, and thus the setback requirements under Rule 19.15.15.10(B) of 660' apply. As a result, the completed interval for this well is closer than 660' from the boundary of the project area. The unorthodox location will encroach towards the S/2 and the NW/4 of Section 13, the S/2 and the NE/4 of Section 15, and the N/2 of Section 14. Exhibit B is list showing the surrounding ownership and the project area for the proposed Tiger 14-24S-28E RB #203H well in relation to adjoining units.

Exhibit C is a list of the parties affected by the encroachment. Each of these parties have been provided notice of this application by certified mail, return receipt requested, advising them that if they have any objection to this well, it must be filed with the New Mexico Oil Conservation Division within 20 days of the mailing of this notice.
