Dominion Funded NOG

Dominion became operator
Nov-12

Dominion Has 25 wells Compliant and 9 Wells not in Compliance

No other operator even comes close yet no hearing for BC&D, MSP nor NOG on injection wells (excludes the actions sought against NOG - See files)

NOG had 18 in compliance but only after Dominion and partners had injected cash. OCD are fully aware it was our cash.

Dominion received approval from BLM to convert to producer but OCD required MIT. Well no activity in 15 years. Dominion performed static fluid level check and found to be 806' which is below any theoretical water bearing sands Pumping well would have lowerd fluid level and made well even safer. BLM says yes - OCD says No.
