Thanks Kellie,

I am awaiting a response from the owner of Siana on how he would like to proceed. I will forward this email to him and discuss. Please add his name in reference to this on future communication.

Tom Ragsdale tmragsdale@sianaoil.com

Thanks and sorry for the delay,

Anthony Riggan

Subject: RE: APD Federal #1

Anthony,

Please note that you have 15 days from the time of spill to submit a C141. We had received notification of this spill back in September 2015. This site is in violation of NMAC 19.15.29.10 for lack of submittal of C141.

Please submit a C141 as soon as possible to the OCD or the OCD could investigate the possibility of issuing a Notice of Violation.

Call if you have any questions.

Kellie Jones
Environmental Specialist, District 1
Oil Conservation Division, EMNRD
575-393-6161 ext. 111
575-370-3180 (emergency-cell)
E-Mail: kellie.jones@state.nm.us

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

Good Morning, Anthony,

I was hoping that you could give me a possible timeline on when you will have the C-141's for the Siana APD Federal SWD submitted to NMOCD and NMSLO?

Thank you,

Thanks for the email Amber. I will be visiting the site on Monday and will be taking steps to start the C-141. I have spoken to Kellie about this already and will make sure Siana begins the process of submitting the paperwork.

I will also address the fencing issue during my visit as well.

The SWD easement issue will need to be addressed by Tom Ragsdale. He can be reached at the following email address: Tom Ragsdale <tmragsdale@sianaoil.com>

Thanks,
Anthony Riggan

Good Morning, Anthony,

Per our phone conversation yesterday, The APD Federal #1 does not currently have any paperwork in place to have an SWD easement on State Trust Land. You will need to contact Nick Jaramillo regarding this, whom I have copied on this e-mail. The perimeter fencing around the facility is in disrepair and needs to be fixed to avoid cattle in the facility.

In addition, there appears to have been several leaks on this facility. A C-141 needs to be submitted to NMOCD on these leaks. Please copy me on this. They will need to be delineated and addressed as soon as possible. I have copied the contacts Kellie Jones and Jamie Keyes on this e-mail so you can get in touch with them.

Thank you,

OCD's concern was that 2 barrels were listed as the amount lost and recovered. From the pictures we received the amount looks greater than 5 barrels. Could you look into that further?

Also there is a pile of dirt that appears to be from the initial remediation activities, that is not on any sort of liner. With this in mind, after the soil has been dealt with, sampling must occur at the soil pile location to ensure no contamination has migrated downwards.

If you have any questions, please feel to call me. I really do appreciate your assistance in this matter!

Thanks,
