**Subject:** WPX West Alamito Unit-Encana Proposed Expansion of North Alamito Unit

Mike,

This email is to confirm the understanding of WPX as to the Encana Application to Expand the North Alamito Unit and redefine the relevant oil pool.

As you and I discussed, the NMOCD will not issue an order approving such application as long as the order approving the West Alamito Unit remains effective.

The West Alamito Unit has been fully approved by FIMO and BLM as you are aware.

WPX understands that the Encana application will have no effect as to the existing WPX West Alamito Unit until such time as further agreed by WPX in writing.

Encana and WPX will continue to negotiate a trade involving this 960 acres owned by WPX with all dispatch.

If for any reason the trade is not executed or closed between Encana and WPX regarding this and other acreage, it is understood that WPX will retain its unit rights to the West Alamito Unit and the pending APD authorizing it to drill such well and any additional wells without delay or hindrance by Encana.

If you have any questions, please let me know.

Tom Black  
WPX Energy Inc.
