S/2 Sec. 33, T23S, R28E AND  
Section 4, T24S, R28E  
Eddy County, New Mexico

Dear Ms. Franco:

Mewbourne Oil Company ("Mewbourne") as operator, is interested in drilling multiple Bone Spring and Wolfcamp horizontal wells in the captioned Section 4. Our records indicate that you own 12.25000 net acres in the captioned Section 4.

Regarding the above, Mewbourne hereby offers \$1,000.00 as a bonus consideration for a 3 year Paid-Up Oil and Gas Lease providing for a 3/16ths royalty interest (subject to proportionate reduction). If agreeable, the bonus payment will equal \$12,250.00.

If you are agreeable to the above terms, please acknowledge such acceptance by signing and returning this letter in the postage paid envelope provided for your convenience in returning same. Upon receipt of same I will forward you an Oil and Gas Lease for execution and a bonus check in the amount described above.

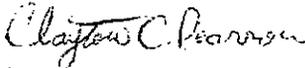

If you'd prefer to participate in the captioned well, please sign the enclosed AFE and return to me at your earliest convenience. I will then forward you a Joint Operating Agreement for your review and execution. You will be billed for your proportionate share of the cost of the well if you so choose to participate.

Dear Ms. Hougland:

Mewbourne Oil Company ("Mewbourne") as operator, is interested in drilling multiple Bone Spring and Wolfcamp horizontal wells in the captioned Section 4. Our records indicate that you own 4.99650 net acres in the captioned Section 4.

Regarding the above, Mewbourne hereby offers \$1,000.00 as a bonus consideration for a 3 year Paid-Up Oil and Gas Lease providing for a 3/16ths royalty interest (subject to proportionate reduction). If agreeable, the bonus payment will equal \$4,996.50.

If you are agreeable to the above terms, please acknowledge such acceptance by signing and returning this letter in the postage paid envelope provided for your convenience in returning same. Upon receipt of same I will forward you an Oil and Gas Lease for execution and a bonus check in the amount described above.

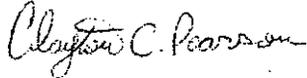

If you'd prefer to participate in the captioned well, please sign the enclosed AFE and return to me at your earliest convenience. I will then forward you a Joint Operating Agreement for your review and execution. You will be billed for your proportionate share of the cost of the well if you so choose to participate.

Albuquerque, New Mexico 87109

Re: Foreigner "33/4" W2LM Fee #1H Well  
SL: 2450' FSL & 450' FWL (Sec. 33-23S-28E)  
BHL: 330' FSL & 450' FEL (Sec. 4-24S-28E)  
SW/4 of Section 33, T23S, R28E and  
W/2 of Section 4, T24S, R28E  
Eddy County, New Mexico

Ladies and Gentlemen:

Mewbourne Oil Company ("Mewbourne"), as Operator, proposes to drill the captioned well at the referenced surface location (SL) and drill same horizontally to a terminus point in the well bore to the referenced bottom hole location (BHL). Said well will be drilled to a true vertical depth of approximately 10,500 feet beneath the surface and drilled horizontally therefrom from a northerly direction to a southerly direction in the Middle Wolfcamp Shale interval of the Wolfcamp formation for oil and gas production.

Regarding the above, title examination indicates that you may have a claim to a 3.60% mineral interest in the SE/4SW/4, SW/4SW/4, and NE/4SW/4, containing 120.0 acres, more or less, of the captioned Section 4. To cure this title, it would take a Quiet Title Suit or stipulation between all of the parties and their heirs that may have claim to this interest.

Regarding the above, enclosed for your further handling and information is a copy of our Authority For Expenditure (AFE) dated November 23, 2015. This is an estimate of the drilling and completion costs associated with the above proposed well.

In the event the ownership of the above referenced unleased mineral interest is judicially determined, Mewbourne welcomes such owners to participate in the above well as to such unleased mineral interest. Alternatively, Mewbourne offers to purchase an Oil and Gas Lease covering such interest on the basis of

Foreigner "33/4" W2LM Fee #1H Well  
SW/4 of Section 33, T23S, R28E and  
W/2 of Section 4, T24S, R28E  
July 13, 2016

a lease bonus payment of \$750 per net acre for a three year primary term providing for a 3/16ths royalty interest in the event such unleased mineral interest is judicially determined. This offer is subject to proportionate reduction.

The above described convoluted interest will be subject to a Compulsory Pooling Examiners Hearing in Santa Fe, New Mexico in the near future. You will be notified of this hearing as the scheduling becomes finalized.

Should you have any questions regarding the above, please call me at (432)682-3715 or email me at [cpearson@mewbourne.com](mailto:cpearson@mewbourne.com).

Sincerely,

**MEWBOURNE OIL COMPANY**

Re: Foreigner "33/4" W2LM Fee #1H Well  
SL: 2450' FSL & 450' FWL (Sec. 33-23S-28E)  
BHL: 330' FSL & 450' FEL (Sec. 4-24S-28E)  
SW/4 of Section 33, T23S, R28E and  
W/2 of Section 4, T24S, R28E  
Eddy County, New Mexico

*Ladies and Gentlemen:*

Mewbourne Oil Company ("Mewbourne"), as Operator, proposes to drill the captioned well at the referenced surface location (SL) and drill same horizontally to a terminus point in the well bore to the referenced bottom hole location (BHL). Said well will be drilled to a true vertical depth of approximately 10,500 feet beneath the surface and drilled horizontally therefrom from a northerly direction to a southerly direction in the Middle Wolfcamp Shale interval of the Wolfcamp formation for oil and gas production.

Regarding the above, title examination indicates that you may have a claim to a 3.60% mineral interest in the SE/4SW/4, SW/4SW/4, and NE/4SW/4, containing 120.0 acres, more or less, of the captioned Section 4. To cure this title, it would take a Quiet Title Suit or stipulation between all of the parties and their heirs that may have claim to this interest.

Regarding the above, enclosed for your further handling and information is a copy of our Authority For Expenditure (AFE) dated November 23, 2015. This is an estimate of the drilling and completion costs associated with the above proposed well.

In the event the ownership of the above referenced unleased mineral interest is judicially determined, Mewbourne welcomes such owners to participate in the above well as to such unleased mineral interest. Alternatively, Mewbourne offers to purchase an Oil and Gas Lease covering such interest on the basis of

Foreigner "33/4" W2LM Fee #1H Well  
SW/4 of Section 33, T23S, R28E and  
W/2 of Section 4, T24S, R28E  
July 13, 2016

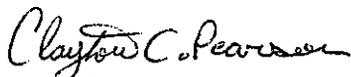

a lease bonus payment of \$750 per net acre for a three year primary term providing for a 3/16ths royalty interest in the event such unleased mineral interest is judicially determined. This offer is subject to proportionate reduction.

The above described convoluted interest will be subject to a Compulsory Pooling Examiners Hearing in Santa Fe, New Mexico in the near future. You will be notified of this hearing as the scheduling becomes finalized.

Should you have any questions regarding the above, please call me at (432)682-3715 or email me at [cpearson@mewbourne.com](mailto:cpearson@mewbourne.com).

Sincerely,

**MEWBOURNE OIL COMPANY**

Eddy County, New Mexico

Ladies and Gentlemen:

Mewbourne Oil Company ("Mewbourne"), as Operator, proposes to drill the captioned well at the referenced surface location (SL) and drill same horizontally to a terminus point in the well bore to the referenced bottom hole location (BHL). Said well will be drilled to a true vertical depth of approximately 10,500 feet beneath the surface and drilled horizontally therefrom from a northerly direction to a southerly direction in the Middle Wolfcamp Shale interval of the Wolfcamp formation for oil and gas production.

Regarding the above, title examination indicates that you may have a claim to a 3.60% mineral interest in the SE/4SW/4, SW/4SW/4, and NE/4SW/4, containing 120.0 acres, more or less, of the captioned Section 4. To cure this title, it would take a Quiet Title Suit or stipulation between all of the parties and their heirs that may have claim to this interest.

Regarding the above, enclosed for your further handling and information is a copy of our Authority For Expenditure (AFE) dated November 23, 2015. This is an estimate of the drilling and completion costs associated with the above proposed well.

In the event the ownership of the above referenced unleased mineral interest is judicially determined, Mewbourne welcomes such owners to participate in the above well as to such unleased mineral interest. Alternatively, Mewbourne offers to purchase an Oil and Gas Lease covering such interest on the basis of

Eddy County, New Mexico

Ladies and Gentlemen:

Mewbourne Oil Company ("Mewbourne"), as Operator, proposes to drill the captioned well at the referenced surface location (SL) and drill same horizontally to a terminus point in the well bore to the referenced bottom hole location (BHL). Said well will be drilled to a true vertical depth of approximately 10,500 feet beneath the surface and drilled horizontally therefrom from a northerly direction to a southerly direction in the Middle Wolfcamp Shale interval of the Wolfcamp formation for oil and gas production.

Regarding the above, title examination indicates that you may have a claim to a 3.60% mineral interest in the SE/4SW/4, SW/4SW/4, and NE/4SW/4, containing 120.0 acres, more or less, of the captioned Section 4. To cure this title, it would take a Quiet Title Suit or stipulation between all of the parties and their heirs that may have claim to this interest.

Regarding the above, enclosed for your further handling and information is a copy of our Authority For Expenditure (AFE) dated November 23, 2015. This is an estimate of the drilling and completion costs associated with the above proposed well.

In the event the ownership of the above referenced unleased mineral interest is judicially determined, Mewbourne welcomes such owners to participate in the above well as to such unleased mineral interest. Alternatively, Mewbourne offers to purchase an Oil and Gas Lease covering such interest on the basis of

Foreigner "33/4" W2LM Fee #1H Well  
SW/4 of Section 33, T23S, R28E and  
W/2 of Section 4, T24S, R28E  
July 13, 2016

a lease bonus payment of \$750 per net acre for a three year primary term providing for a 3/16ths royalty interest in the event such unleased mineral interest is judicially determined. This offer is subject to proportionate reduction.

The above described convoluted interest will be subject to a Compulsory Pooling Examiners Hearing in Santa Fe, New Mexico in the near future. You will be notified of this hearing as the scheduling becomes finalized.

Should you have any questions regarding the above, please call me at (432)682-3715 or email me at [cpearson@mewbourne.com](mailto:cpearson@mewbourne.com).

Sincerely,

**MEWBOURNE OIL COMPANY**

Re: Foreigner "33/4" W2LM Fee #1H Well  
SL: 2450' FSL & 450' FWL (Sec. 33-23S-28E)  
BHL: 330' FSL & 450' FEL (Sec. 4-24S-28E)  
SW/4 of Section 33, T23S, R28E and  
W/2 of Section 4, T24S, R28E  
Eddy County, New Mexico

Ladies and Gentlemen:

Mewbourne Oil Company ("Mewbourne"), as Operator, proposes to drill the captioned well at the referenced surface location (SL) and drill same horizontally to a terminus point in the well bore to the referenced bottom hole location (BHL). Said well will be drilled to a true vertical depth of approximately 10,500 feet beneath the surface and drilled horizontally therefrom from a northerly direction to a southerly direction in the Middle Wolfcamp Shale interval of the Wolfcamp formation for oil and gas production.

Regarding the above, title examination indicates that you may have a claim to a 3.60% mineral interest in the SE/4SW/4, SW/4SW/4, and NE/4SW/4, containing 120.0 acres, more or less, of the captioned Section 4. To cure this title, it would take a Quiet Title Suit or stipulation between all of the parties and their heirs that may have claim to this interest.

Regarding the above, enclosed for your further handling and information is a copy of our Authority For Expenditure (AFE) dated November 23, 2015. This is an estimate of the drilling and completion costs associated with the above proposed well.

In the event the ownership of the above referenced unleased mineral interest is judicially determined, Mewbourne welcomes such owners to participate in the above well as to such unleased mineral interest. Alternatively, Mewbourne offers to purchase an Oil and Gas Lease covering such interest on the basis of

Foreigner "33/4" W2LM Fee #1H Well  
SW/4 of Section 33, T23S, R28E and  
W/2 of Section 4, T24S, R28E  
July 13, 2016

a lease bonus payment of \$750 per net acre for a three year primary term providing for a 3/16ths royalty interest in the event such unleased mineral interest is judicially determined. This offer is subject to proportionate reduction.

The above described convoluted interest will be subject to a Compulsory Pooling Examiners Hearing in Santa Fe, New Mexico in the near future. You will be notified of this hearing as the scheduling becomes finalized.

Should you have any questions regarding the above, please call me at (432)682-3715 or email me at [cpearson@mewbourne.com](mailto:cpearson@mewbourne.com).

Sincerely,

**MEWBOURNE OIL COMPANY**

Regarding the above, title examination indicates that you may have a claim to a 3.60% mineral interest in the SE/4SW/4, SW/4SW/4, and NE/4SW/4, containing 120.0 acres, more or less, of the captioned Section 4. To cure this title, it would take a Quiet Title Suit or stipulation between all of the parties and their heirs that may have claim to this interest.

Regarding the above, enclosed for your further handling and information is a copy of our Authority For Expenditure (AFE) dated November 23, 2015. This is an estimate of the drilling and completion costs associated with the above proposed well.

In the event the ownership of the above referenced unleased mineral interest is judicially determined, Mewbourne welcomes such owners to participate in the above well as to such unleased mineral interest. Alternatively, Mewbourne offers to purchase an Oil and Gas Lease covering such interest on the basis of

Foreigner "33/4" W2LM Fee #1H Well  
SW/4 of Section 33, T23S, R28E and  
W/2 of Section 4, T24S, R28E  
July 13, 2016

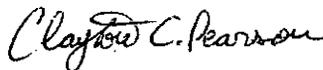

a lease bonus payment of \$750 per net acre for a three year primary term providing for a 3/16ths royalty interest in the event such unleased mineral interest is judicially determined. This offer is subject to proportionate reduction.

The above described convoluted interest will be subject to a Compulsory Pooling Examiners Hearing in Santa Fe, New Mexico in the near future. You will be notified of this hearing as the scheduling becomes finalized.

Should you have any questions regarding the above, please call me at (432)682-3715 or email me at [cpearson@mewbourne.com](mailto:cpearson@mewbourne.com).

Sincerely,

**MEWBOURNE OIL COMPANY**

Eddy County, New Mexico

Ladies and Gentlemen:

Mewbourne Oil Company ("Mewbourne"), as Operator, proposes to drill the captioned well at the referenced surface location (SL) and drill same horizontally to a terminus point in the well bore to the referenced bottom hole location (BHL). Said well will be drilled to a true vertical depth of approximately 10,500 feet beneath the surface and drilled horizontally therefrom from a northerly direction to a southerly direction in the Middle Wolfcamp Shale interval of the Wolfcamp formation for oil and gas production.

Regarding the above, title examination indicates that you may have a claim to a 3.60% mineral interest in the SE/4SW/4, SW/4SW/4, and NE/4SW/4, containing 120.0 acres, more or less, of the captioned Section 4.
