CASE NO: 15622 Application of Robert L. Bayless, Producer LLC For Approval of the East Horseshoe Gallup Unit, Creation of a New Pool For Horizontal Development Within the Unit Area With No Allowables, and For Allowance of 330 Foot Setbacks From The Exterior of the Proposed Unit, San Juan County, New Mexico and Application For Authorization To Inject. Applicant seeks approval for its East Horseshoe Gallup Unit consisting of 4,762.57 acres, more or less, of federal and fee lands situated in all or parts of Sections 3-5, 7-9, and 17-19 of Township 30 North, Range 15 West N.M.P.M., San Juan County, New Mexico. The Unitized Interval includes all formations from the base of the Point Lookout Sandstone to the base of the Greenhorn Limestone Member of the Mancos Shale. In addition, Applicant seeks an order creating a new pool which would extend from the bottom of the Point Lookout formation to the top of the Greenhorn Formation within the proposed Unit Area that will allow for horizontal oil development with 330 foot setbacks from the exterior of the proposed Unit with no allowables. Alternatively, Applicant seeks expansion of the existing "frozen" Horseshoe Gallup Gas Pool to cover the proposed unit. Bayless also seeks authorization to inject produced gas into the Gallup formation in the Horseshoe Gallup Pool. The San Juan Generating Station, a coal-burning power plant, is in the vicinity of the proposed location. Bayless seeks this authorization in order to ensure air quality is not impacted in the area which could otherwise be affected from venting and flaring excess associated gas.
