Michael:

In reviewing the exhibits and conferring with legal counsel, these cases appear to have a notification issue. Please refer to Exhibits 10 and 11, the newspaper publication notices: Exhibit 10 advertises that the Red Light 27-34 State Com. No. 1H as Case No. 15528, while Exhibit 11 advertises that the Red Light 27-34 State Com. No. 2H as Case No. 15529. The No. 1H well is Case No. 15529 and the No. 2H is Case No. 15530. Since these are not contested cases, please re-advertise and provide affidavits with corrections as soon as possible. If you have any questions, please call/e-mail at your convenience. PRG

Case No. 15530: Application of BC Operating, Inc. for a non-standard spacing and proration unit, unorthodox well location, and compulsory pooling, Eddy County, New Mexico. Applicant in the above-styled cause seeks an order (1) creating a non-standard, 480-acre, more or less, spacing and proration unit comprised of the W/2 of Section 27 and the NW/4 of Section 34, Township 23 South, Range 26 East, Eddy County, New Mexico; (2) approving an unorthodox well location; and (3) pooling all uncommitted interests in the Wolfcamp formation underlying this acreage. Said non-standard unit is to be dedicated to applicant's proposed Red Light 27-34 State Com No. 2H Well, which will be drilled horizontally from the NW/4 NW/4 (Unit D) of Section 27 to a non-standard bottomhole location in the SW/4 NW/4 (Unit E) of Section 34. The completed interval is unorthodox because it will be closer than 660 feet to the outer boundary. The completed interval for this well will commence 330 feet from the North line and 990 feet from the West line (Unit D) of Section 27 to a location 2,310 feet from the North line, 990 feet from the West line (Unit E) of Section 34. The completed interval therefore encroaches on the spacing and proration units to the North and South. Also to be considered will be the cost of drilling and completing said well and the allocation of the cost thereof as well as actual operating costs and charges for supervision, designation of BC Operating, Inc. as operator of the well, and a 200% charge for risk involved in drilling said well. Said area is located approximately 10 miles southwest of Carlsbad, New Mexico.

Case No. 15529: Application of BC Operating, Inc. for a non-standard spacing and proration unit, unorthodox well location, and compulsory pooling, Eddy County, New Mexico. Applicant in the above-styled cause seeks an order: (1) creating a non-standard, 480-acre, more or less, spacing and proration unit comprised of the E/2 of Section 27 and the NE/4 of Section 34, Township 23 South, Range 26 East, Eddy County, New Mexico; (2) approving an unorthodox well location; and (3) pooling all uncommitted interests in the Wolfcamp formation underlying this acreage. Said non-standard unit is to be dedicated to applicant's proposed Red Light 27-34 State Com No. 1H Well, which will be drilled horizontally from the NW/4 NE/4 (Unit B) of Section 27 to a non-standard bottomhole location in the SW/4 NE/4 (Unit G) of Section 34. The completed interval is unorthodox because it will be closer than 660 feet to the outer boundary. The completed interval for this well will commence 330 feet from the North line and 1,650 feet from the East line (Unit B) of Section 27 to a location 2,310 feet from the North line, 1,650 feet from the East line (Unit G) of Section 34. Also to be considered will be the cost of drilling and completing said well and the allocation of the cost thereof as well as actual operating costs and charges for supervision, designation of BC Operating, Inc., as operator of the well, and a 200% charge for risk involved in drilling said well.
