Case No. 15822

APPLICATION

Kaiser-Francis Oil Company applies for an order (i) creating a new pool for horizontal Wolfcamp development, to be named the South Bell Lake-Wolfcamp Pool, and (ii) instituting special rules and regulations for the proposed pool, and in support thereof, states:

1. Applicant is an interest owner in and operator of the following acreage in Lea County, New Mexico:

Township 23 South, Range 33 East, N.M.P.M.

Section 36: All

Township 23 South, Range 34 East, N.M.P.M.

Section 31: Lots 1-4, E/2, and E/2W/2 (All)

Section 32: All

Township 24 South, Range 33 East, N.M.P.M.

Section 1: Lots 1-4, S/2N2, and S/2 (All)

Section 12: All

Township 24 South, Range 34 East, N.M.P.M.

Section 5: Lots 1-4, S/2N2, and S/2 (All)

Section 6: Lots 1-7, S/2NE/4, SE/4NW/4, E/2SW/4, and SE/4 (All)

Section 7: Lots 1-4, E/2, and E/2W/2 (All)

Section 8: All

The foregoing acreage is contained in the South Bell Lake Unit (the "Unit"), comprised of 5,747.56 acres of Federal, State, and Fee land.

2. Applicant intends to drill multiple Wolfcamp wells inside the Unit. The wells will be 1-1/2 miles in length, and will be drilled as north-south standup units. Applicant's drilling

program is planned to properly drain Wolfcamp reserves from the Unit, and obtain maximum recovery therefrom. This will result in certain wells having otherwise unorthodox locations.

3. The allowable established by NMAC 19.15.20.12 is insufficient for the planned multiple horizontal wells per well unit, and may cause or exacerbate overproduction. Therefore, Applicant proposes to create a new pool for horizontal Wolfcamp development within the Unit, and special rules and regulations for the new pool.

4. Applicant requests the creation of a new pool, named the South Bell Lake-Wolfcamp Pool (the "Pool"), to include the lands described in paragraph 1 above. The Pool will cover the entire Wolfcamp formation. Applicant requests that special rules and regulations be established for the Pool, providing for:

- (a) A standard oil spacing and proration unit of 480 acres for horizontal wells;
- (b) Horizontal to be located no closer than 330 feet to the exterior boundary of the Unit;
- (c) Interior setbacks of 10 feet from a quarter-quarter section line for horizontal wells;
- (d) Setbacks of 100 feet from the side line of a standard horizontal well unit, except as provided in subparagraph (b) above, and 50 feet from the last take point of a well;
- (e) A special depth bracket allowable of 6000 barrels of oil per day for a standard horizontal well unit;
- (f) A limiting gas:oil ratio of 5000 cubic feet of gas per barrel of oil produced; and
- (g) All other rules to be in conformance with statewide rules.

5. Existing vertical wells in the Unit will retain their current well units.
6. Applicant requests that the pool rules be limited to lands within the Unit.
7. The granting of this application is in the interests of conservation, the prevention of waste, and the protection of correlative rights.

WHEREFORE, applicant requests that, after notice and hearing, the Division grant the relief requested above.

Respectfully submitted,

A handwritten signature in cursive script, appearing to read "James Bruce", is written over a horizontal line.

PROPOSED ADVERTISEMENT

Case No. 15822 :

Application of Kaiser-Francis Oil Company for pool creation and special pool rules, Lea County, New Mexico. Applicant seeks an order (i) creating a new pool for horizontal development of the Wolfcamp formation, designated the South Bell Lake-Wolfcamp Pool, and (ii) instituting special rules and regulations for the pool. The new pool will include Section 36 of Township 23 South, Range 33 East, NMPM, Sections 31 and 32 of Township 23 South, Range 34 East, NMPM, Sections 1 and 12 of Township 24 South, Range 33 East, NMPM, and Sections 5-8 of Township 24 South, Range 34 East, NMPM. The special rules will include standard 480 acre oil spacing and proration units, special well location requirements, a depth bracket allowable of 6000 barrels of oil per day for a standard 480 acre unit, and a gas:oil ratio of 5000:1. The proposed pool is centered approximately 21-1/2 miles southwest of Eunice, New Mexico.
