In Case No. 15840, XTO seek an order from the Division (1) creating a 240-acre spacing and proration unit comprised of the W/2 E/2 of Section 24 and the W/2 NE/4 of Section 25, Township 23 South, Range 29 East, NMPM, Eddy County, New Mexico; and (2) pooling all uncommitted interests in the Bone Spring formation underlying this acreage. The proposed spacing unit will be the project area for three proposed initial wells: the proposed **Remuda North 25 State No. 705H Well**, the proposed **Remuda North 25 State No. 706H Well**, and the proposed **Remuda North 25 State No. 906H Well**, which will be pad-drilled sequentially and batch completed. All three wells will be horizontally drilled from a surface location in the NW/4 SE/4 (Unit J) of Section 25 to a standard bottom hole location in the NW/4 NE/4 (Unit B) of Section 24. The proposed **Remuda North 25 State No. 705H Well**, proposed **Remuda North 25 State No. 706H Well** will be drilled in the Second Bone Spring and the proposed **Remuda North 25 State No. 906H Well** will be drilled in the Third Bone Spring.

The completed intervals for each of these well will remain within the 330-foot standard offset required by the Statewide Rules.

XTO has negotiated in good faith regarding this development plan and has reached agreement with all but one working interest owner. XTO's believes its development plan will better develop the subject acreage than Devon's purported proposal, and does not result in stranded acreage.
