Case No. 15925

APPLICATION

Mewbourne Oil Company applies for an order pooling all mineral interests in the Wolfcamp formation underlying the N $\frac{1}{2}$ of Section 13, Township 25 South, Range 27 East, N.M.P.M., Eddy County, New Mexico, and in support thereof, states:

1. Applicant is an interest owner in the N $\frac{1}{2}$ of Section 13, and has the right to drill a well thereon.
2. Applicant proposes to drill its Devon 13 W2HE Fee Com. Well No. 1H to a depth sufficient to test the Wolfcamp formation (Purple Sage-Wolfcamp Gas Pool). Applicant seeks to dedicate the N $\frac{1}{2}$ of Section 13 to the well to form a standard 320 acre gas spacing and proration unit in the Wolfcamp formation. The well is a horizontal well, with a surface location in the SE $\frac{1}{4}$ NE $\frac{1}{4}$, and a bottomhole location in the SW $\frac{1}{4}$ NW $\frac{1}{4}$, of Section 13. The producing interval of the well will be at orthodox locations.
3. Applicant has in good faith sought to obtain the voluntary joinder of all other mineral interest owners in the N $\frac{1}{2}$ of Section 13 for the purposes set forth herein.
4. Although applicant attempted to obtain voluntary agreements from all mineral interest owners to participate in the drilling of the well or to otherwise commit their interests to the well, certain interest owners have failed or refused to join in dedicating their interests. Therefore, applicant seeks an order pooling all mineral interest owners in the N $\frac{1}{2}$ of Section 13, pursuant to NMSA 1978 §70-2-17.

5. The pooling of all mineral interest owners in the Wolfcamp formation underlying the N½ of Section 13 will prevent the drilling of unnecessary wells, prevent waste, and protect correlative rights.

WHEREFORE, applicant requests that, after notice and hearing, the Division enter its order:

- A. Pooling all mineral interest owners in the Wolfcamp formation underlying the N½ of Section 13;
- B. Designating applicant as operator of the well;
- C. Considering the cost of drilling and completing the well, and allocating the cost among the well's working interest owners;
- D. Approving actual operating charges and costs charged for supervision, together with a provision adjusting the rates pursuant to the COPAS accounting procedure; and
- E. Setting a 200% charge for the risk involved in drilling and completing the well in the event a working interest owner elects not to participate in the well.

Respectfully submitted,

James Bruce
