STATEMENT OF THE CASE

OXY seeks an order approving an approximately 720-acre non-standard project area and/or non-standard spacing unit in the Bone Spring formation comprised of acreage subject to a proposed Communitization Agreement. OXY is the sole working interest owner in federal and state leases covering the W/2 of Section 25, the W/2 of Section 36, and the S/2 SW/4 of Section 24, Township 24 South, Range 29 East, NMPM Eddy County, New Mexico. The acreage has been placed in the Pierce Crossing Bone Spring, East Pool (Pool Code 96473), which is subject to the Division's statewide rule providing for 40-acre spacing units. OXY's drilling program for the subject acreage

will develop each of the 40-acre tracts comprising the proposed non-standard project area or non-standard spacing unit. The acreage will be developed by three 2 1/4-mile horizontal wells. Approval of a non-standard project area or non-standard spacing unit will allow OXY to most efficiently space the proposed wells and to consolidate surface facilities, thereby preventing waste.
