**APPLICATION OF MARATHON  
OIL PERMIAN LLC FOR  
COMPULSORY POOLING,  
EDDY COUNTY, NEW MEXICO**

CASE NO. 16986

**APPLICATION**

Marathon Oil Permian LLC ("Marathon"), OGRID Number 372098, through its undersigned attorneys, hereby files this application with the Oil Conservation Division pursuant to the provisions of N.M. Stat. Ann. § 70-2-17, for an order pooling all mineral interests in the Wolfcamp formation underlying the spacing and proration unit located within the W/2 of Section 18, Township 23 South, Range 28 East, NMPM, Eddy County, New Mexico. In support of this application, Marathon states:

1. Marathon is an interest owner in the subject lands and has a right to drill a well thereon.
2. Marathon plans to drill and complete the **Gravel Grinder Fee 23-28-18 WXY 3H** well, which is a horizontal well that will develop the Purple Sage Wolfcamp Gas Pool (Pool Code 98220) underlying the W/2 of Section 18, Township 23 South, Range 28 East, NMPM, Eddy County, New Mexico (the "project area"). Marathon additionally plans to complete the **Gravel Grinder Fee 23-28-18 WXY 10H** and **Gravel Grinder Fee 23-28-18 WA 5H** wells within the proposed project and these wells will be drilled around the same time, using the same drilling rig.

3. The Purple Sage Wolfcamp Pool (Pool Code 98220) is subject to special pool rules providing for 320 acre spacing units and 330' setback requirements.

4. Each well will be drilled from the S/2 of the SW/4 of Section 18 to a bottom hole location in N/2 of the NW/4 of Section 18. The perforations for these wells will be orthodox and comply with the special pool rules for the Purple Sage Wolfcamp Pool.

5. Marathon sought, but has been unable to obtain a voluntary agreement from all interest owners in the Wolfcamp formation underlying the proposed project area to participate in the drilling of the wells or to otherwise commit their interests to the wells.

6. The pooling of interests will avoid the drilling of unnecessary wells, will prevent waste, and will protect correlative rights.

7. In order to permit Marathon to obtain its just and fair share of the oil and gas underlying the subject lands, all interests in this non-standard spacing unit should be pooled and Marathon should be designated operator of the proposed horizontal wells and spacing unit.

8. Notice of this application is being given in accordance with Division rules.

WHEREFORE, Marathon requests that this application be set for hearing before an Examiner of the Oil Conservation Division on February 22, 2018, and, after notice and hearing as required by law, the Division enter an order:

A. Pooling all mineral interests in the spacing and proration unit in the Wolfcamp formation underlying the W/2 of Section 18, Township 23 South, Range 28 East, NMPM, Eddy County, New Mexico;

B. Designating Marathon Oil Permian LLC operator of this spacing unit and the horizontal wells to be drilled thereon;

C. Authorizing Marathon to recover its costs of drilling, equipping and completing the wells;

D. Approving the actual operating charges and costs of supervision while drilling and after completion, together with a provision adjusting the rates pursuant to the COPAS accounting procedures; and

E. Imposing a 200% penalty for the risk assumed by Marathon in drilling, completing and equipping the wells against any working interest owner who does not voluntarily participate in the drilling of the well.

Respectfully submitted,

MODRALL, SPERLING, ROEHL, HARRIS  
& SISK, P.A.

*Attorneys for Applicant*

**CASE NO. 15986 : Application of Marathon Oil Permian LLC for compulsory pooling, Eddy County, New Mexico.** Applicant seeks an order pooling all mineral interests in the Wolfcamp formation underlying the spacing and proration unit located within the W/2 of Section 18, Township 23 South, Range 28 East, NMPM, Eddy County, New Mexico. This proposed non-standard spacing and proration unit will be the project area for the **Gravel Grinder Fee 23-28-18 WXY 3H, Gravel Grinder Fee 23-28-18 WXY 10H and Gravel Grinder Fee 23-28-18 WA 5H** wells, to be horizontally drilled. The producing area for these wells will be orthodox. Also to be considered will be the cost of drilling and completing said wells, the allocation of these costs as well as the actual operating costs and charges for supervision, designation of Marathon as operator of the well, and a 200% charge for risk involved in drilling said well. Said area is located approximately 2 miles northwest of Loving, New Mexico.
