*Case 15966*

February 6, 2018

Florene Davidson  
Oil Conservation Division  
1220 South St. Francis Drive  
Santa Fe, New Mexico 87505

Dear Florene:

Enclosed for filing, on behalf of Mewbourne Oil Company, are an application for compulsory pooling, together with a proposed advertisement.

Very truly yours,

  
James Bruce

Attorney for Mewbourne Oil Company

**APPLICATION OF MEWBOURNE OIL COMPANY  
FOR A NON-STANDARD GAS SPACING AND  
PRORATION UNIT AND COMPULSORY POOLING,  
EDDY COUNTY, NEW MEXICO.**

Case No. 15966

**AMENDED APPLICATION**

Mewbourne Oil Company applies for an order (i) approving a non-standard spacing and proration unit in the Wolfcamp formation comprised of the S½ of Section 23 and the S½ of Section 24, Township 25 South, Range 28 East, N.M.P.M., Eddy County, New Mexico, and (ii) pooling all mineral interests in the Wolfcamp formation underlying the non-standard unit, and in support thereof, states:

1. Applicant is an interest owner in the S½ of Section 23 and the S½ of Section 24, and has the right to drill a well thereon.

2. Applicant proposes to drill the following wells:

(a) The Oxbow 23/24 W2L1 Fed. Com. Well No. 1H, to be drilled to a depth sufficient to test the Wolfcamp formation. The well is a horizontal well, with a surface location in the NW¼SW¼ of 23, and a terminus in the NE¼SE¼ of Section 24. The beginning and end of the producing interval will be orthodox; and

(b) The Oxbow 23/24 W1L1 Fed. Com. Well No. 2H, to be drilled to a depth sufficient to test the Wolfcamp formation. The well is a horizontal well, with a surface location in the NW¼SW¼ of Section 23, and a terminus in the NE¼SE¼ of Section 24.

The beginning and end of the producing interval will be orthodox.

Applicant seeks to dedicate the S½ of Section 23 and the S½ of Section 24 to the wells to form a non-standard 640 acre gas spacing and proration unit in the Wolfcamp formation.

3. Applicant has in good faith sought to obtain the voluntary joinder of all other mineral interest owners in the S½ of Section 23 and the S½ of Section 24 for the purposes set forth herein.

4. Although applicant attempted to obtain voluntary agreements from all mineral interest owners to participate in the drilling of the well or to otherwise commit their interests to the well, certain interest owners have failed or refused to join in dedicating their interests. Therefore, applicant seeks an order pooling all mineral interest owners in the Wolfcamp formation underlying the S½ of Section 23 and the S½ of Section 24, pursuant to NMSA 1978 §§70-2-17, 18.

5. Approval of the non-standard spacing and proration unit, and the pooling of all mineral interests in the Wolfcamp formation underlying the S½ of Section 23 and the S½ of Section 24, will prevent the drilling of unnecessary wells, prevent waste, and protect correlative rights.

**WHEREFORE**, applicant requests that, after notice and hearing, the Division enter its order:

- A. Approving a non-standard gas spacing and proration unit (project area) in the Wolfcamp formation comprised of the S½ of Section 23 and the S½ of Section 24;
- B. Pooling all mineral interests in the Wolfcamp formation underlying the S½ of Section 23 and the S½ of Section 24;
- C. Designating applicant as operator of the wells;
- D. Considering the cost of drilling and completing the wells, and allocating the cost among the wells' working interest owners;

- E. Approving actual operating charges and costs charged for supervision, together with a provision adjusting the rates pursuant to the COPAS accounting procedure; and
- F. Setting a 200% charge for the risk involved in drilling and completing the wells in the event a working interest owner elects not to participate in the well.

Respectfully submitted,

---

Attorney for Mewbourne Oil Company

PROPOSED ADVERTISEMENT

**Case No. 15966:**

***Application of Mewbourne Oil Company for a non-standard gas spacing and proration unit and compulsory pooling, Eddy County, New Mexico.*** Mewbourne Oil Company seeks an order approving a 640-acre non-standard gas spacing and proration unit (project area) in the Wolfcamp formation comprised of the S/2 of Section 23 and the S/2 of Section 24, Township 25 South, Range 28 East, NMPM. Applicant further seeks the pooling of all mineral interests in the Wolfcamp formation underlying the non-standard unit. The unit will be dedicated to the Oxbow 23/24 W2LI Fed. Com. Well No. 1H and the Oxbow 23/24 W1LI Fed. Com. Well No. 2H, horizontal wells with surface locations in the NW/4SW/4 of Section 23, and bottomhole locations in the NE/4SE/4 of Section 24. Also to be considered will be the cost of drilling and completing the wells and the allocation of the cost thereof, as well as actual operating costs and charges for supervision, designation of applicant as operator of the wells, and a 200% charge for the risk involved in drilling and completing the wells. The unit is located approximately 11 miles southeast of Malaga, New Mexico.
