## BEFORE THE NEW MEXICO OIL CONSERVATION DIVISION

APPLICATION OF MEWBOURNE OIL COMPANY  
FOR COMPULSORY POOLING, EDDY COUNTY,  
NEW MEXICO.

Case No. 16387

APPLICATION

Mewbourne Oil Company applies for an order pooling all mineral interests in the Bone Spring formation underlying a horizontal spacing unit comprised of the E/2NE/4 of Section 21 and the E/2E/2 of Section 16, Township 24 South, Range 28 East, N.M.P.M., Eddy County, New Mexico, and in support thereof, states:

1. Applicant is an interest owner in the E/2NE/4 of Section 21 and the E/2E/2 of Section 16, and has the right to drill a well thereon.
2. Applicant proposes to drill the Creedence 21/16 B3HA State Com. Well No. 1H to a depth sufficient to test the Bone Spring formation, and to dedicate E/2NE/4 of Section 21 and the E/2E/2 of Section 16 thereto. The well is a horizontal well with a first take point in the SE/4NE/4 of 21, and a last take point in the NE/4NE/4 of Section 16.
3. Applicant has in good faith sought to obtain the voluntary joinder of all other mineral interest owners in the E/2NE/4 of Section 21 and the E/2E/2 of Section 16 for the purposes set forth herein.
4. Although applicant attempted to obtain voluntary agreements from all mineral interest owners to participate in the drilling of the well or to otherwise commit their interests to the well, certain interest owners have failed or refused to join in dedicating their interests. Therefore, applicant seeks an order pooling all mineral interest owners in the Bone Spring

formation underlying the E/2NE/4 of Section 21 and the E/2E/2 of Section 16, pursuant to NMSA 1978 §§70-2-17.

5. The pooling of all mineral interests in the Bone Spring formation underlying the E/2NE/4 of Section 21 and the E/2E/2 of Section 16 will prevent the drilling of unnecessary wells, prevent waste, and protect correlative rights.

**WHEREFORE**, applicant requests that, after notice and hearing, the Division enter its order:

- A. Pooling all mineral interests in the Bone Spring formation underlying the E/2NE/4 of Section 21 and the E/2E/2 of Section 16;
- B. Designating applicant as operator of the well;
- C. Considering the cost of drilling and completing the wells, and allocating the cost among the well's working interest owners;
- D. Approving actual operating charges and costs charged for supervision, together with a provision adjusting the rates pursuant to the COPAS accounting procedure; and
- E. Setting a 200% charge for the risk involved in drilling and completing the well in the event a working interest owner elects not to participate in the wells.

Respectfully submitted,

James Bruce

PROPOSED ADVERTISEMENT

Case No. 16387:

*Application of Mewbourne Oil Company for compulsory pooling, Eddy County, New Mexico.*  
Mewbourne Oil Company seeks an order pooling all mineral interests in the Bone Spring formation in a horizontal spacing unit comprised of the E/2NE/4 of Section 21 and the E/2E/2 of Section 16, Township 24 South, Range 28 East, NMPM. The unit will be dedicated to the Creedence 21/16 B3HA State Com. Well No. 1H, a horizontal well a first take point in the SE/4NE/4 of Section 21 and a last take point in the NE/4NE/4 of Section 16. Also to be considered will be the cost of drilling and completing the well and the allocation of the cost thereof, as well as actual operating costs and charges for supervision, designation of applicant as operator of the well, and a 200% charge for the risk involved in drilling and completing the well. The unit is located approximately 1 mile west of Malaga, New Mexico.
