

4. Chisholm has sought and been unable to obtain voluntary agreement for the development of these lands from all of the working interest owners in the subject spacing unit.

5. The pooling of interests will avoid the drilling of unnecessary wells, will prevent waste, and will protect correlative rights.

6. In order to permit Chisholm to obtain its just and fair share of the oil and gas underlying the subject lands, all uncommitted interests in this non-standard spacing unit should be pooled and Chisholm Energy Operating, LLC should be designated the operator of these proposed horizontal wells and spacing unit.

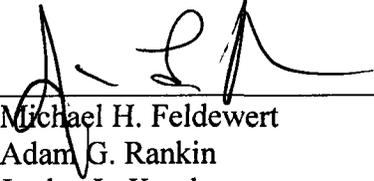

WHEREFORE, Chisholm requests that this application be set for hearing before an Examiner of the Oil Conservation Division on September 6, 2018, and, after notice and hearing as required by law, the Division enter an order:

- A. Creating, if necessary, the proposed non-standard spacing and proration unit;
- B. Pooling all uncommitted interests in the non-standard spacing and proration unit;
- C. Designating Chisholm Energy Operating, LLC the operator of this non-standard spacing unit and the horizontal wells to be drilled thereon;
- D. Authorizing Chisholm to recover its costs of drilling, equipping, and completing the wells;
- E. Approving the actual operating charges and costs of supervision while drilling and after completion, together with a provision adjusting the rates pursuant to the COPAS accounting procedures; and
- F. Imposing a 200% penalty for the risk assumed by Chisholm in drilling and completing the wells against any working interest owner who does not voluntarily participate in the drilling of the wells.

Respectfully submitted,
