RE: 2018 REVISED Plan of Development/Operation  
North Wilson Deep Unit  
Lea County, NM

Dear Land Manager:

The New Mexico State Land Office has this date approved the referenced Plan of Development/Operation. This approval is conditional on the requirement specified Commissioner Dunn when your staff met with him on March 27, 2018 – that a well be spud in the unit by November 1, 2018.

We may contact you at a later date regarding the following:

- The possibility of drainage by wells outside the unit area, and
- A need for further development of the unit.

Please note the following about your 2019 Plan of Development/Operation:

- Due March 1, 2019.
- The submission should include
  1. A section that outlines ongoing development and/or maintenance in 2019 (address new drilling, recompletions, workovers, P&As, and any other activities that may impact production);
  2. An aerial photo (preferred) or map that illustrates both current and planned infrastructure for the unit: well locations, tank batteries, gathering systems, and any other facilities that may impact the surface of New Mexico State Trust lands;
  3. A list of active wells in the unit with their API numbers; and
  4. Any additional information that may have relevance to our approval of the Plan.

If you have any questions or if we may be of further assistance, please contact Units Manager Marilyn Gruebel at 505.827.5791 or mgruebel@slo.state.nm.us.

Respectfully,

A handwritten signature in black ink, appearing to be "Aubrey Dunn", is written over the typed name.

AUBREY DUNN  
COMMISSIONER OF PUBLIC LANDS
