Attention: Jerry W. Hoover

*RE: Injection Pressure Increase
State "H-35" Well No. 15 H-35 Vacuum
Pressure Maintenance Project.
Lea County, New Mexico*

Dear Mr. Hoover:

Reference is made to your request dated January 11, 1991, to increase the surface injection pressure on the State "H-35" Well No. 15. This request is based on a step rate test conducted on the well on January 3, 1991. The results of the test have been reviewed by my staff and we feel an increase in injection pressure on the well is justified at this time.

You are therefore authorized to increase the surface injection pressure on the following well.

WELL AND LOCATION

MAXIMUM INJECTION
SURFACE PRESSURE

State "H-35" Well No. 15
Unit C, Section 35, T-17 South,
R-34 East, NMPM, Lea County,
New Mexico.

1800 PSIG

The Division Director may rescind this injection pressure increase if it becomes apparent that the injected water is not being confined to the injection zone or is endangering any fresh water aquifers.

Sincerely,

William J. LeMay
Director
