Dear Mr. Blount,

Per your request on Friday, January 16, 2004 to either approve or deny the above captioned application to drill (APD), the New Mexico Oil Conservation Division (NMOCD) office in Artesia, replies as to the following:

1. As indicated from the New Mexico State Land Office and the Bureau of Land Management, said application is in the Life of Mine Reserves (LMR). It is the NMOCD's understanding that from the responses from the aforementioned, that there is potash leases in this area.
2. Per R-111-P (on page 11) for any well drilled in the Potash Area, "...the well operator shall send one copy by registered mail to each potash operator holding potash leases within a radius of one mile of the proposed well....."
3. The NMOCD will therefore hold for approval/or denial said application until such time a waiver or denial by potash leaseholder is submitted to this office.
4. Please note that said submittal of application will expire on 12/17/2004 for approval or denial per in part reasons stated above and per terms of the Joint Powers Agreement.

Respectfully yours

Dear Ms. Cottom:

IMC Potash Carlsbad Inc. objects to the location of Devon Energy's Application to Drill the Apache 24 Fee #6, 1980' FNL, 660' FWL, Unit E Section 24, Township 22 South, Range 30 East, NMPM. This location is in an area clearly designated as measured ore by the BLM, and is in IMC's LMR containing valuable potash ore. IMC's 5 year mine plan shows we expect to mine within ¼ mile of this location in 2007.

Drilling the well applied for by Devon definitely constitutes a hazard to proposed mining in this area.

IMC Potash Carlsbad Inc. objects the drilling of a well at this location.

Sincerely,

Gentlemen:

Devon Energy Production Company, L.P. ("Devon") is in receipt of your letter dated April 12, 2004 in which you state IMC's objection to the drilling of the referenced well. I have reviewed our files and determined that the Potash resource underlying the referenced private lands is not currently leased to IMC and therefore is not subject to IMC's LMR designation, any such designation by BLM, or any five (5) year mine plan as suggested in said letter. Devon, therefore, will proceed in accordance with any permits as issued by the NMOCD.

If there are any questions or if additional information is required, feel free to call me at (405) 552-4633.

Yours very truly,

DEVON ENERGY PRODUCTION COMPANY, L.P.
