ALL AFFECTED INTEREST OWNERS

Re: Case No. 13718: Amended Application of OXY USA WTP Limited Partnership for compulsory pooling, Eddy County, New Mexico.

Ladies and Gentlemen:

This letter is to advise you that OXY USA WTP Limited Partnership has filed the enclosed amended application with the New Mexico Oil Conservation Division seeking the compulsory pooling of certain spacing and proration units in the W/2 of Section 4, Township 19 South, Range 28 East, NMPM, Eddy County, New Mexico. Said units will be dedicated to OXY USA WTP Limited Partnership's proposed Senita State Well No. 1 which it proposes to drill at a standard gas well location in the SW/4 NW/4 of said Section 4 to test all formations from the surface to the base of the Morrow formation.

This amended application has been set for hearing before a Division Examiner on August 3, 2006. You are not required to attend this hearing, but as an owner of an interest that may be affected by this application, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging the matter at a later date.

Parties appearing in cases are required by Division Rule 1208.B to file a Pre-Hearing Statement with the Oil Conservation Division's Santa Fe office located at 1220 South Saint Francis Drive, Santa Fe, New Mexico 87505, four days in advance of a scheduled hearing, but at least on the Thursday preceding the hearing. This statement must include: the names of the parties and their attorneys; a concise statement of the case; the names of all witnesses the party will call to testify at the hearing; the approximate time the party will need to present its case; and identification of any procedural matters that are to be resolved prior to the hearing.

Very truly yours,

William F. Carr

ATTORNEY FOR OXY USA WTP LIMITED PARTNERSHIP

cc: Mr. David Evans

OIL CONSERVATION DIVISION**

**IN THE MATTER OF THE APPLICATION
OF OCCIDENTAL PERMIAN COMPULSORY
POOLING, EDDY COUNTY, NEW MEXICO.**

**CASE NO. 13718
REOPENED AND RE-ADVERTISED**

AMENDED APPLICATION

OXY USA WTP Limited Partnership, ("OXY") through its undersigned attorneys, hereby files this amended application pursuant to the provisions of NMSA 1978, §70-2-17, to reopen Case No. 13718 for the entry of an order pooling all mineral interests in all formations from the surface to the base of the Morrow formation in the following described spacing and proration units located in the W/2 of Section 4, Township 19 South, Range 28 East, N.M.P.M., Eddy County, New Mexico: the W/2 for all formations and/or pools developed on 320-acre spacing which includes but is not necessarily limited to the Undesignated South Millman-Morrow Gas Pool and the Undesignated Millman-Strawn Gas Pool; the NW/4 for all formations and/or pools developed on 160-acre spacing; and the SW/4 NW/4 for all formations and/or pools developed on 40-acre spacing which includes but is not limited to the Travis-Upper Pennsylvanian Pool and the Travis Wolfcamp Pool, and support of its application states:

1. OXY USA WTP Limited Partnership is a working interest owner in the W/2 of said Section 4 and has the right to drill thereon.
2. OXY proposes to dedicate the above-referenced spacing or proration units to its Senita State Well No. 1 to be drilled at a standard gas well location 1540 feet from the North line and 1070 feet from the West line (Unit E) of said Section 4, to an approximate depth of 11,400 feet to test any and all formations from the surface to the base of the Morrow formation.
3. OXY has sought and been unable to obtain a voluntary agreement for the development of these lands from certain interest owners in the subject spacing units who are identified on Exhibit A to this application.
4. Said pooling of interests will avoid the drilling of unnecessary wells, will prevent waste and will protect correlative rights.
5. In order to permit the OXY to obtain its just and fair share of the oil and gas underlying the subject lands, all mineral interests should be pooled, and OXY USA WTP Limited Partnership should be designated the operator of the well to be drilled.

WHEREFORE, OXY WTP Limited Partnership requests that this amended application be re-opened and set for hearing before an Examiner of the Oil Conservation Division on August 3, 2006 and, after notice and hearing as required by law, the Division enter its order:

- A. pooling all mineral interests in the subject spacing and proration units,
- B. designating OXY USA WTP Limited Partnership operator of these units and the well to be drilled thereon,
- C. authorizing OXY USA WTP Limited Partnership to recover its costs of drilling, equipping and completing the well,
- D. approving the actual operating charges and costs of supervision while drilling and after completion, together with a provision adjusting the rates pursuant to the COPAS accounting procedures, and
- E. imposing a penalty for the risk assumed by OXY USA WTP Limited Partnership in drilling and completing the well against any working interest owner who does not voluntarily participate in the drilling of the well.

Respectfully submitted,
HOLLAND & HART LLP

PARTNERSHIP

CASE 13718 (REOPENED AND RE_ADVERTISED): Amended Application of OXY USA WTP Limited Partnership for compulsory pooling, Eddy County, New Mexico. Applicant in the above-styled cause seeks an order pooling all mineral interests from the surface to the base of Morrow formation in the following described spacing and proration units located in the W/2 of Section 4, Township 19 South, Range 28 East, N.M.P.M., Eddy County, New Mexico: the W/2 for all formations and/or pools developed on 320-acre spacing which includes but is not necessarily limited to the Undesignated South Millman-Morrow Gas Pool and the Undesignated Millman-Strawn Gas Pool; the NW/4 for all formations and/or pools developed on 160-acre spacing; and the SW/4 NW/4 for all formations and/or pools developed on 40-acre spacing which includes but is not limited to the Travis-Upper Pennsylvanian Pool and the Travis Wolfcamp Pool. OXY proposes to dedicate the above-referenced spacing or proration units to its Senita State Well No. 1 to be drilled at a standard gas well location 1540 feet from the North line and 1070 feet from the West line (Unit E) of said Section 4. Also to be considered will be the cost of drilling and completing said well and the allocation of the cost thereof as well as actual operating costs and charges for supervision, designation of OXY USA WTP Limited Partnership as operator of the well and a charge for risk involved in drilling said well. Said area is located approximately 10 miles East of Lakewood, New Mexico.
