Re: NMOCD Case No. 13873; Amended Application of LCX Energy, LLC for
Compulsory Pooling and Unorthodox Well Location, Eddy County, New Mexico

Dear Mr. Lucas:

This will advise that LCX Energy, LLC has filed an Amended Application with the New Mexico Oil Conservation Division seeking an order pooling all mineral interests from the surface to the base of the Wolfcamp formation underlying the E/2 of Section 10, Township 17 South, Range 24 East, NMPM. These lands are to be dedicated to Applicant's proposed 1724 Osbourn No. 101 Well. Also to be considered will be the cost of drilling and completing said well and the allocation of the cost thereof as well as actual operating costs and charges for supervision, designation of LCX Energy, LLC or its designee as operator of the well and a charge for risk involved in drilling said well. A copy of the amended application is enclosed.

This application will be set for hearing before a Division Examiner on May 10, 2007, at 8:15 a.m. at the New Mexico Oil Conservation Division, 1220 South St. Francis Dr., Santa Fe, New Mexico. You are not required to attend this hearing, but as an owner of an interest that may be affected, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging this application at a later time. If you intend to attend the hearing and present testimony or evidence, you must enter your appearance and serve the Division, counsel for the Applicant, and other parties with a pre-hearing statement at least four business days before the scheduled hearing date in accordance with Division Rule 1211.

STATE OF NEW MEXICO
DEPARTMENT OF ENERGY, MINERALS AND NATURAL RESOURCES
OIL CONSERVATION DIVISION FEB 26 PM 1 48

IN THE MATTER OF THE
APPLICATION OF LCX ENERGY, LLC
FOR COMPULSORY POOLING AND
UNORTHODOX WELL LOCATION,
EDDY COUNTY, NEW MEXICO

CASE NO. 13873

AMENDED APPLICATION

LCX ENERGY, LLC, by its undersigned attorneys, Miller, Stratvert P.A., (J. Scott Hall) hereby makes application pursuant to NMSA 1978 Section 70-2-17 (1995) for an order pooling all interests in all formations developed on a 320-acre basis, including the Wolfcamp formation, underlying the E/2 of Section 10, Township 17 South, Range 24 East, NMPM, Eddy County, New Mexico, to form a standard 320-acre spacing and proration unit. Applicant would show the Division:

1. Applicant owns certain working interests in and under the E/2 of Section 10, and has the right to drill thereon.
2. Applicant proposes to dedicate the above-referenced pooled unit to its 1724 Osbourn No. 101 Well to be drilled to a depth sufficient to test the Wolfcamp formation underlying the E/2 of Section 10. The well will be drilled from a surface location 200' from the North line and 1880' from the East line of Section 10, penetrating the Wolfcamp formation 661.15' from the North line and 1880' from the East line, to a bottom hole location 660' from the South line and 1880' from the East line of Section 10, Township 17 South, Range 24 East, NMPM, Eddy County, New Mexico.

3. Applicant has been unable to obtain leases or voluntary agreement for pooling or farmout from certain other interest owners in the above-referenced formations underlying the E/2 of said Section 10.

4. In order to permit the Applicant to obtain its just and fair share of the oil and gas underlying the subject lands, the mineral interests should be pooled and Applicant should be designated operator of the well.

5. The pooling of interests and approval of the unorthodox well location will afford the Applicant the opportunity to produce its just and equitable share of hydrocarbons underlying the spacing unit, will avoid the drilling of unnecessary wells, will prevent waste and will protect correlative rights.

WHEREFORE Applicant requests that this Application be set for hearing before a duly appointed examiner of the Oil Conservation Division on May 10, 2007 and that after notice and hearing as required by law, the Division enter its Order approving the unorthodox well location and pooling the lands, including provisions for Applicant to recover its costs of drilling, equipping and completing the well, its costs of supervision while drilling and after completion, including overhead charges and providing for adjustments to such rates in accordance with accepted COPAS accounting procedures, and imposing a 200% risk factor for the risk assumed by the Applicant in drilling, completing and equipping the well, and making such other and further provisions as maybe proper in the premises.
