CASE NO. 13970

APPLICATION

XTO Energy, Inc. ("XTO") by its attorneys, Kellahin & Kellahin, seeks an exception to the well density requirements of Rule I.B of the Special Rules and Regulations for the Blanco-Mesaverde Gas Pool including Simultaneous Dedication to permit it to drill its Gerk Gas Com B Well No. 2 (API #30-045-_____) in Unit P 10 feet FSL and 660 feet FEL of Section 19 and to produce it with the 4 Mesaverde wells in the same non-standard spacing and proration unit consisting 407.56 acres and comprising the S/2S/2 of Section 19 and the N/2 of Section 30, T29N, R9W, NMPM, San Juan County, NM:

- (2) XTO, excluding the Gerk Gas Com B No 2 (the new wellbore) currently there are 4 existing Mesaverde wells:

See Order R-8170, as superseded by Order R-10987-A, effective February 1, 1999 and amended by Order R-10987-A (1), effective December 2, 2002. This Special Pool Rules and Regulations provide, among other things, that an infill well shall not be located within the same quarter-quarter section (40-acre tract) and another well.
- (4) Using 4 wells to a standard 320-acre unit is an acreage density of one (1) well per 80-acres.

- (6) XTO proposes to drill its Gerk Gas Com B Well No. 2 at a location within Unit P that appears not to be depleted by existing wells. See locator map, Exhibit "A" attached
- (7) Approval of this application will not impair the correlative rights of any other interest owner in the Blanco-Mesaverde Gas Pool and will afford XTO the opportunity to utilize a new wellbore to produce the reserves from this GPU that would otherwise not be recovered
- (8) Notice of this application will be sent to all offsetting affected persons set forth on Exhibit "B" attached.
- (9) Approval of this application will be in the best interests of conversations, the prevention of waste and the protection of correlative rights.

WHEREFORE, XTO Energy, Inc. requests that this application be set for hearing before an Examiner of the Oil Conservation Division on August 23, 2007 and after notice and hearing as required by law, the Division enter its order granting an exception to the well density requirements of Rule I.B of the Special Rules and Regulations of the Blanco-Mesaverde Gas Pool and approving the Grek Gas Com "B" Well No. 2 in the Mesaverde formation and authorizing XTO Energy, Inc to simultaneously produced all 5 Mesaverde wells.
