Subject: oil drilling waste

Dear Mark,

We support the repeal of Rule 50 [9.15.17.2.50mnac] and its replacement with a proposed new rule codified as 19.15.17nmac.all concerning rules of handling waste from oil drilling operations. I am a physician and my brother is a petroleum geologist and we are well aware of the hazards of contamination by this "mud" which may contain all types of chemicals which can be harmful and potentially fatal if ingested .Tahlia Van and I have a house and well very close to previously drilled wells and are very concerned.

Sincerely

Sam Kinard and Tahlia Van
