

30. COLOR RANGE

Net Coal Thickness:
Lower Coal Zone
C.I. = 5'

D Clark May 2007

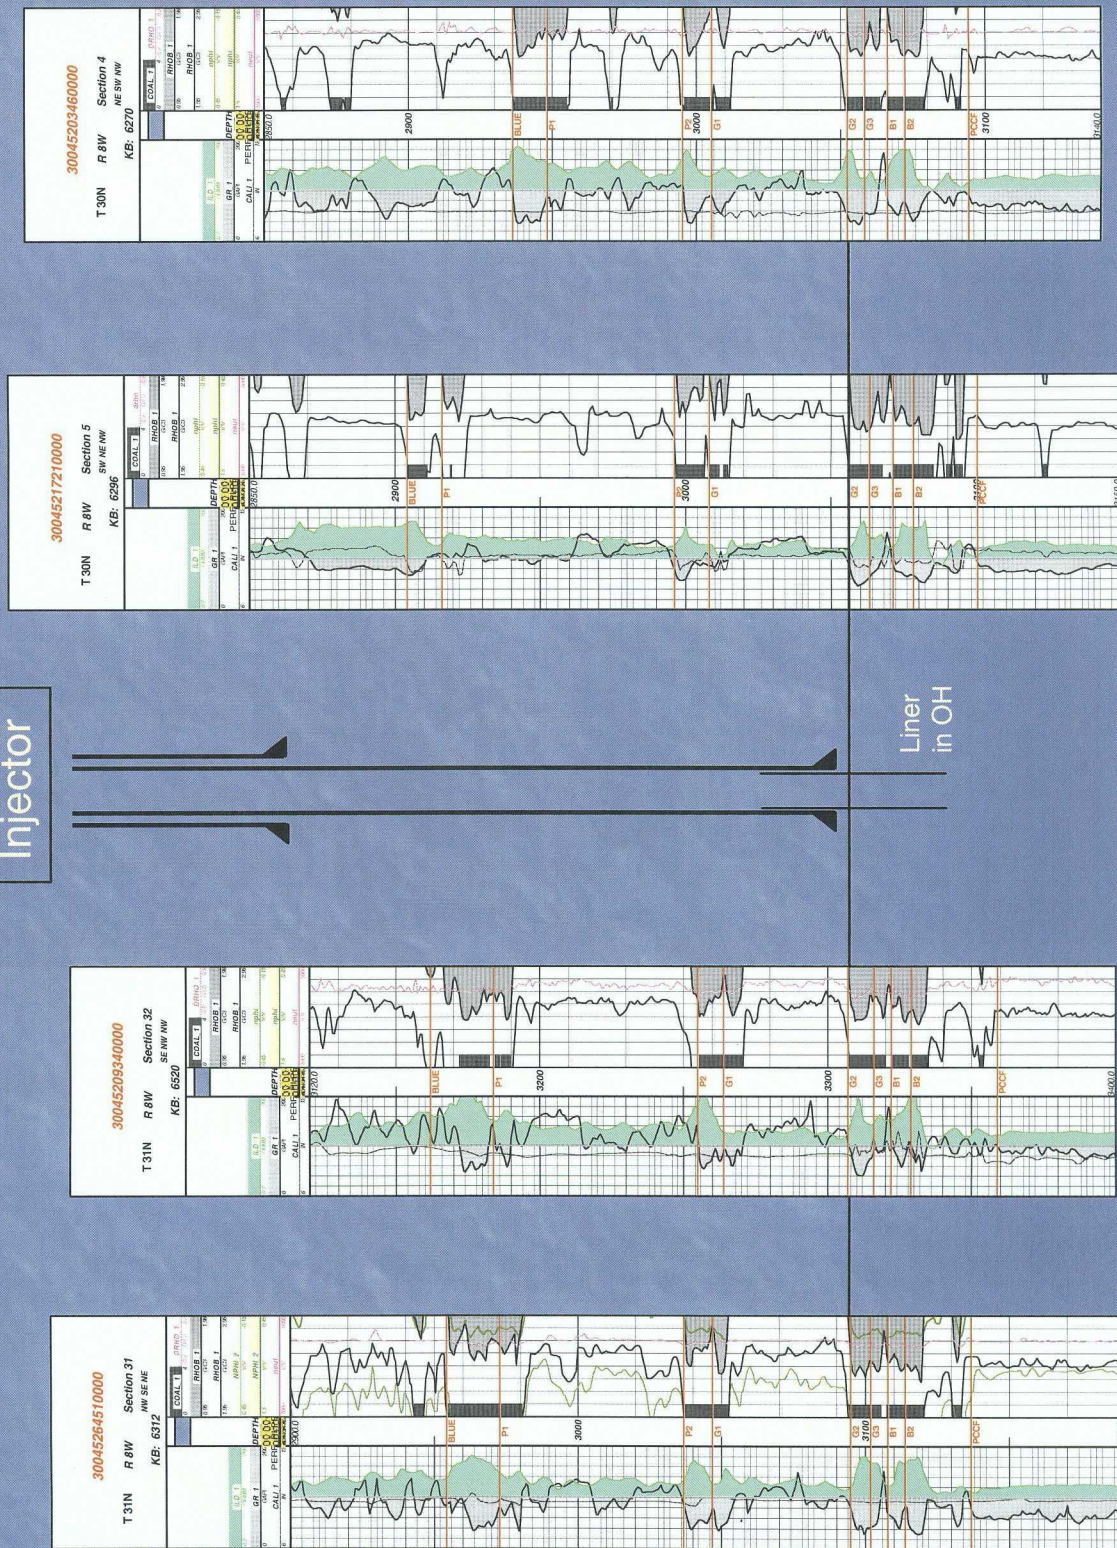

Prop Loc

X Sec

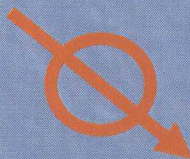

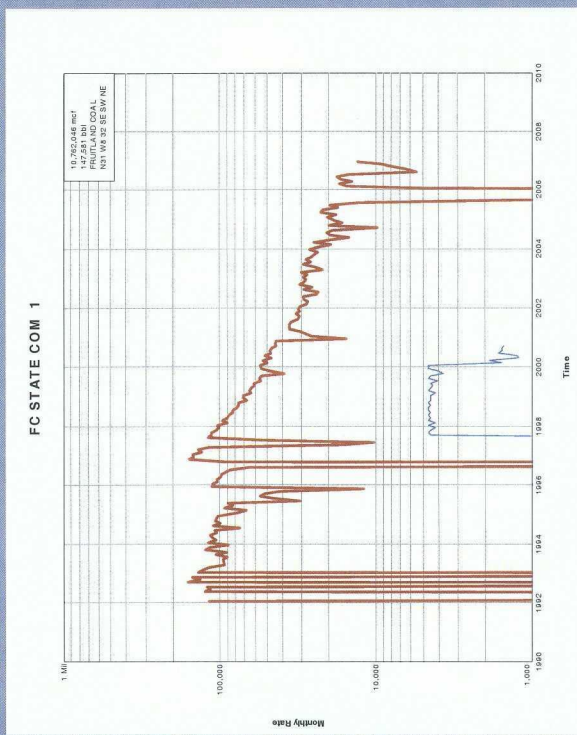

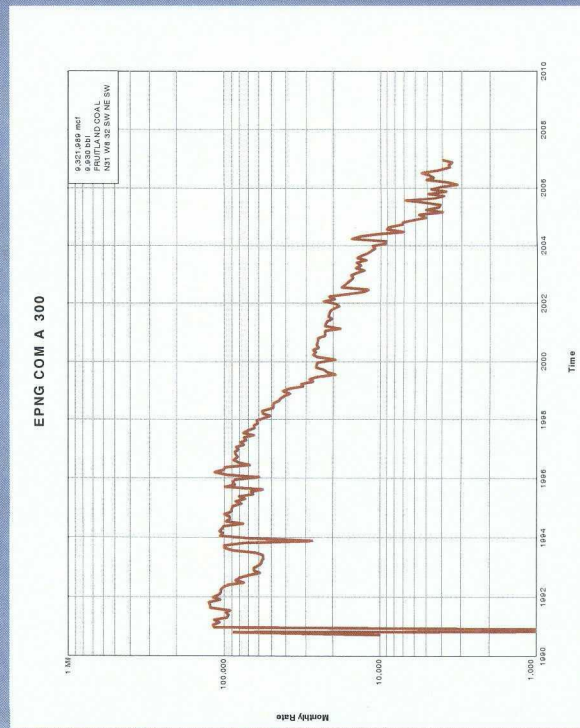

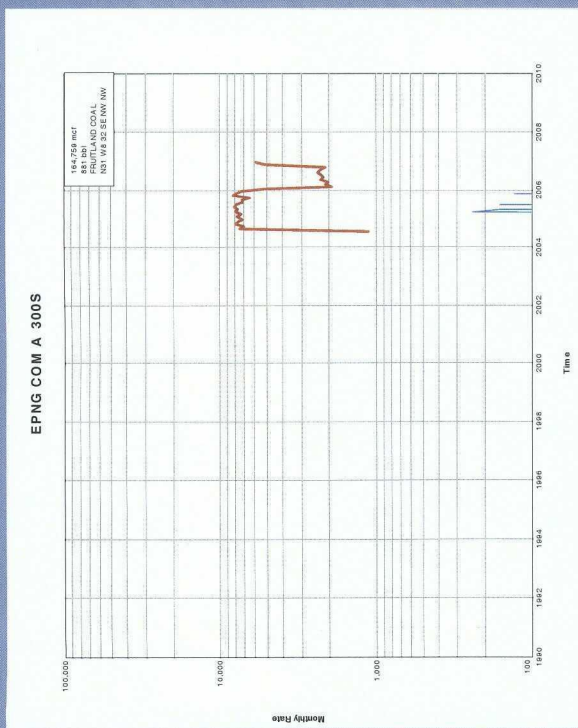

Only wells with GR and Density logs used to map net coal thickness and average density
Log criteria used for identification as coal: GR < 100 API units, Bulk Density < 2.00 gm/cc

Cross-section through proposed injector

Injector

Offset Production

Langmuir Gas Desorption
