REL Special Pool Rules for TV Penn <GAS>

Dear Gentlemen:

Reviewing the pool rules for the TV Penn <GAS> R-1839 states the wells producing from this pool needs to be no nearer than 990 feet to the outer boundary of the dedicated tract nor nearer than 330 feet to any governmental quarter-quarter section line. Please see the attached list of all the wells at this time producing or intent to drill in the TV Penn <GAS> pool that have been assigned API numbers. To correct this oversight an application for Non-Standard Location for each of these wells needs to be sent to the Oil Conservation Division in Santa Fe with a copy to the Hobbs District office.

Or you can send in an application and take it to hearing to change the special pool rules that are stated in R-1839. If you have questions on this matter, you may call Chris Williams (505) 393-6161 ext 102, Paul Kautz (505) 393-6161 ext 104, or Donna Mull (505) 393-6161 ext 115.

Yours truly,

OIL CONSERVATION DIVISION

Chris Williams
District I, Supervisor
