Case 13998

Dear Florene:

Enclosed for filing, on behalf of Pride Energy Company, are an original and one copy of an application for compulsory pooling regarding the E½ §25-11S-33E, together with a proposed advertisement. The advertisement was previously e-mailed to the Division. Please set this matter for the September 20, 2007 Examiner hearing. Thank you.

Very truly yours,

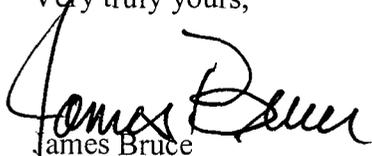

James Bruce

**APPLICATION OF PRIDE ENERGY COMPANY
FOR COMPULSORY POOLING, LEA COUNTY,
NEW MEXICO.**

Case No. 13998

APPLICATION

Pride Energy Company applies for an order pooling all mineral interests from the surface to the base of the Mississippian formation underlying the E $\frac{1}{2}$ of Section 25, Township 11 South, Range 33 East, N.M.P.M., Lea County, New Mexico, and in support thereof, states:

1. Applicant is an interest owner in the E $\frac{1}{2}$ of Section 25, and has the right to drill a well thereon.
2. Applicant proposes to drill the Inbe "25" Well No. 1, at an orthodox location in the NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 25, to a depth sufficient to test the Mississippian formation, and seeks to dedicate the following acreage to the well:
 - (a) the NW $\frac{1}{4}$ NE $\frac{1}{4}$ to form a standard 40 acre oil and spacing and proration unit for any formations and/or pools developed on 40 acre spacing within that vertical extent;
 - (b) the W $\frac{1}{2}$ NE $\frac{1}{4}$ to form a standard 80 acre oil and spacing and proration unit for any formations and/or pools developed on 80 acre spacing within that vertical extent, including the Inbe Permo-Pennsylvanian Pool;
 - (c) the NE $\frac{1}{4}$ to form a standard 160 acre gas spacing and proration unit for any formations and/or pools developed on 160 acre spacing within that vertical extent; and
 - (d) the E $\frac{1}{2}$ to form a standard 320 acre gas spacing and proration unit for any formations and/or pools developed on 320 acre spacing within that vertical extent.
3. Applicant has in good faith sought to obtain the voluntary joinder of all other mineral interest owners in the E $\frac{1}{2}$ of Section 25 for the purposes set forth herein.

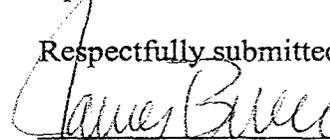

4. Although applicant attempted to obtain voluntary agreements from all mineral interest owners to participate in the drilling of the well or to otherwise commit their interests to the well, certain interest owners have failed or refused to join in dedicating their interests. Therefore, applicant seeks an order pooling all mineral interest owners in the E½ of Section 25, pursuant to NMSA 1978 §70-2-17.

5. The pooling of all mineral interests underlying the E½ of Section 25, and approval of the unorthodox oil well location, will prevent the drilling of unnecessary wells, prevent waste, and protect correlative rights.

WHEREFORE, applicant requests that, after notice and hearing, the Division enter its order:

- A. Pooling all mineral interests in the E½ of Section 25, from the surface to the base of the Mississippian formation;
- B. Designating applicant as operator of the well;
- C. Considering the cost of drilling and completing the well, and allocating the cost among the well's working interest owners;
- D. Approving actual operating charges and costs charged for supervision, together with a provision adjusting the rates pursuant to the COPAS accounting procedure;
- E. Setting a 200% charge for the risk involved in drilling and completing the well in the event a working interest owner elects not to participate in the well.

Respectfully submitted,

James Bruce
