**Subject:** Black Hills Inactive Well List  
**Attachments:** InactiveWellList.htm

David:

Carleton Ekberg checked on the inactive well list for Black Hills. This morning he reports that:

- The Jicarilla 28 02 08 #23 was P&A'd yesterday and the form was filed yesterday.
- The Jicarilla 462 22 #22 was re-worked last week and put on production today.
- The Jicarilla 29 02 31 #14 has a P&A rig on location.

Black Hills gets a daily report of wells that are not producing in order to closely monitor activity. In their normal course of business they had been working on the above-mentioned wells and now the paperwork just needs to catch up to show they are in compliance with Rule 40 (i.e. Black Hills has 5 wells considered inactive).

Let me know if I need to provide any filings to you or someone else.

Thanks,  
Ocean
